SUPPLEMENTARY INFORMATION: We are publishing this notice in accordance with the requirements of the Federal Advisory Committee Act (5 U.S.C. App.) (FACA). The Committee will conduct its operations in accordance with the provisions of the FACA. It will report to the Secretary of the Interior through the Chair of the FGDC Steering Committee and will function solely as an advisory body. The Committee will provide recommendations and advice to the Department and the FGDC on policy and management issues related to the effective operation of Federal geospatial programs.

The Secretary of the Interior will appoint Committee members. The Committee will be composed of up to 30 representatives, who will be selected to generally achieve a balanced representation of the viewpoints of the various stakeholders involved in national geospatial activities and the development of the NSDI.

The Committee is expected to meet 3-4 times per year. Committee members will serve without compensation. Travel and per diem costs will be provided for Committee members by the U.S. Geological Survey (USGS). The USGS will provide necessary support services to the Committee. Committee meetings will be open to the public. Notice of Committee meetings will be published in the **Federal Register** at least 15 days before the date of the meeting. The public will have an opportunity to provide input at these meetings.

In accordance with FACA, we will file a copy of the Committee's charter with the Committee Management Secretariat, General Services Administration; Committee on Energy and Natural Resources, United States Senate; Committee on Natural Resources, United States House of Representatives; and the Library of Congress.

The Certification for renewal is published below.

Certification

I hereby certify that the National Geospatial Advisory Committee is in the public interest in connection with the performance of duties imposed on the Department of the Interior by Office of Management and Budget (OMB) Circular A-16 (Revised), "*Coordination of Geographic Information and Related Spatial Data Activities*." The Committee will assist the Department of the Interior by providing advice and recommendations related to the management of Federal geospatial programs and the development of the National Spatial Data Infrastructure.

Dated: January 14, 2014.

Sally Jewell,

Secretary of the Interior.

Notice of Intent To Prepare an Archeological Resources Management Plan/Environmental Impact Statement for Knife River Indian Villages National Historic Site, North Dakota

AGENCY: National Park Service, Interior.

ACTION: Notice of intent.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces its intent to prepare an Archeological Resources Management Plan/Environmental Impact Statement (Plan/EIS) for Knife River Indian Villages National Historic Site, North Dakota.

DATES: This notice initiates the public scoping process for the Plan/EIS. Notices of any public scoping meetings regarding this Plan/EIS, including specific dates, times, and locations, will be announced in the local media; in project newsletters; on the project Web site at <http://parkplanning.nps.gov/KNRI>; or may be obtained directly by contacting the Superintendent at the address below.

ADDRESSES: Superintendent, Knife River Indian Villages National Historic Site, P.O. Box 9, Stanton, ND 58571-0009. You are encouraged to provide comments or requests to be added to the mailing list electronically through the project Web site at <http://parkplanning.nps.gov/KNRI> or by contacting the Superintendent.

FOR FURTHER INFORMATION CONTACT:

Superintendent Wendy Ross, Knife River Indian Villages National Historic Site, at the address above, or by telephone at (701) 745-3300.

SUPPLEMENTARY INFORMATION: The NPS is announcing its intent to prepare an archeological resources management plan and environmental impact statement (Plan/EIS) for comprehensive archeological resource protection from Knife River bank erosion, infrastructure placement, vegetation encroachment, and burrowing mammal activity at Knife River Indian Villages National Historic Site.

The project objective is to support the NPS mission to "conserve the scenery and the natural and historic objects and the wildlife therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations." To this end, the project will define desired conditions and management actions that conform to *The Secretary of the Interior's Standards for Treatment of Historic Properties*, while providing a suite of various reasonable alternatives capable of achieving these goals.

Past planning and emergency efforts have focused on streambank protection; however, this plan will encompass all threats to archeological resources and all reasonable and feasible alternatives to stop or reduce resource impacts. The plan will explore some of the following during the course of alternative development: Stream bank control, erosion control, pest abatement, vegetation control, archeological excavation and documentation, and interpretation of archeological resources. A full range of reasonable alternatives for the management of archeological resources will be developed through this planning process and will include, at minimum, a no-action and a preferred alternative. The potential environmental effects of each alternative will be evaluated.

The purpose of the formal public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives, and guide the process for developing the Plan/EIS. All interested persons, organizations, agencies, and Tribes are encouraged to submit comments and suggestions on issues and concerns that should be addressed in the Plan/EIS, and the range of appropriate alternatives that should be examined.

The NPS will use the public involvement process established by the National Environmental Policy Act to

satisfy the requirements of Section 106 of the National Historic Preservation Act, as provided for in 36 CFR 800.2(d)(3). Federal, State, and local agencies that may be interested or affected by decisions related to this project are invited to participate in the scoping process and, if eligible, may request to participate as a cooperating agency.

We welcome your comments and assistance in our efforts, but before including your address, telephone number, email address, or other personal identifying information in a comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comments to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will make all submissions from organizations or businesses, from individuals identifying themselves as representatives or officials, or organizations or businesses, available for public inspection in their entirety.

Dated: September 27, 2013.

Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on January 10, 2012, based on a complaint filed by Standard Innovation Corporation of Ottawa, ON, Canada and Standard Innovation (US) Corp. of Wilmington, Delaware (collectively, "Standard Innovation"). 77 FR 1504-05 (Jan. 10, 2012). The complaint alleged violations of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), by reason of infringement of certain claims of United States Patent Nos. 7,931,605 ("the '605 patent") and D605,779 ("the '779 patent"). The complaint named twenty-one business entities as respondents, including Lelo Inc. and Leloi AB (collectively, "Lelo"). On July 25, 2012, the Commission determined not to review an ID (Order No. 25) granting complainants' motion to withdraw the '779 patent from the investigation.

On June 17, 2013, the Commission issued its final determination finding
