

SUBCOMMITTEE DOCUMENT

DRAFT

NEGOTIATED RULEMAKING COMMITTEE **KEY ISSUES AND OPTIONS IDENTIFIED FOR ROUTES AND AREAS BY JOINT SUBCOMMITTEES** (February 2, 2009)

NOTES

- This document is intended to be used as a checklist to capture the primary issues that must be addressed to reach consensus and as a summary explanation of the differences shown on the routes and areas maps displayed and distributed at the February 3, 2009 Reg Neg Committee meeting. It should be read while referring to those maps.
- Column headings reflect issue areas not interest groups.
- Bullet points range from general topics requiring further discussion to specific options.
- *ASSUMPTION*: natural resource buffers and turtle management actions may apply to all areas.

OVERARCHING ISSUES

(Issues affecting resolution of other issues or applicable to multiple areas along the seashore)

- In pedestrian-only areas with resource issues, the kinds of recreation allowed or prohibited in non-breeding season. This raises questions about where activities such as horseback riding, dog walking, kite boarding, etc. can take place. This could lead to different categories of pedestrian areas, depending on the type and level of activities.
- Size of buffers for pass thru corridors at Bodie Island Spit, Cape Point, and South Point (Ocracoke)
- Village closures: dates, boundaries, and criteria for reopening.
- The meaning of “purple” on the maps?
- The significance and hierarchy of scientific studies relating to natural resources.

BODIE ISLAND (Ramp 1 to Bodie Island Spit)

OCEANSIDE LOCATION	ORV	PEDESTRIAN/OTHER	NATURAL RESOURCES
Oregon Inlet Campground Oceanside		<ul style="list-style-type: none">• Seasonal closure in front of campground	

This document was prepared by the facilitators for discussion purposes based on discussions during the joint natural resources/routes and areas subcommittee meeting held on January 21-22, 2009. It does not represent Committee member agreement.
