SUPPLEMENTARY INFORMATION: In 1991, the Architectural and Transportation Barriers Compliance Board (Access Board) issued the Americans with Disabilities Act (ADA) Accessibility Guidelines for Transportation Vehicles (36 CFR part 1192). The guidelines have not been updated since they were issued, except for modifications for over-the-road buses in 1994. The Access Board began the process of updating the guidelines by publishing a first draft of revisions to subparts A and B of 36 CFR part 1192 on April 11, 2007 (72 FR 18179, April 11, 2007). The first draft contained revisions to general provisions, buses, and vans. Changes were proposed to accommodate new technology and vehicles, and new system designs, particularly bus rapid transit. Over 80 comments were received on the first draft. Those comments were considered in developing the second draft.

After issuing the guidelines in 1991, the National Highway Traffic Safety Administration (NHTSA) issued regulations for lifts on non-rail vehicles. The Access Board will coordinate its rulemaking with NHTSA to ensure consistency with those regulations.

The Access Board is making the second draft of the revisions to the guidelines and supplemental information available for public review and comment prior to issuing a notice of proposed rulemaking to update the guidelines. Comments on the draft revisions will be considered by the Access Board in developing a notice of proposed rulemaking to update the guidelines, which will also be open for public comment. The draft revisions to the guidelines and supplementary information are available on the Access Board's Web site (<http://www.access->
