

Objectives of the Open House

- This is the first public open house of the Development Concept Plan/Environmental Assessment for the redevelopment of the Tremont Institute using sustainable design principals
- The objectives of the Development Concept Plan/Environmental Assessment are to:
 - Obtain public input/identify issues
 - Evaluate existing Tremont facilities
 - Develop conceptual designs for alternative sustainable facilities
 - Develop a range of possible alternatives
 - Assess existing conditions
 - Assess potential environmental effects of the alternatives

Next Steps:

- Your input received in 30 days
- Comments incorporated into Draft Development Concept Plan / Environmental Assessment
- Impact topics and alternatives developed for analysis
- Additional opportunity to comment in second set of public meetings in October
- Develop a preferred alternative
- Receive comments of the Draft Development Concept Plan / Environmental Assessment
- Final plan
