

Rehabilitation of Lee Drive Intersection with US Business Route 1 (Lafayette Boulevard)

Photos

View looking south on Lafayette Boulevard. Proposed roundabout will be placed on Lafayette Boulevard and incorporate Lee Drive (left) into the traffic circle.

View looking southwest across Lafayette Boulevard. Proposed roundabout will be placed on Lafayette Boulevard and incorporate Lee Drive (left) into the traffic circle. Planned development will occur across Lafayette Boulevard and will be screened by vegetation.

View looking southwest across Lafayette Boulevard and Lee Drive. Proposed roundabout will be placed on Lafayette Boulevard and incorporate Lee Drive into the traffic circle. Planned development will occur across Lafayette Boulevard and will be screened by vegetation.

Looking northwest down the northern arm of Lee Drive entrance toward its intersection with Lafayette Boulevard. Notice the decline and drop in elevation.

Looking north along Lafayette Boulevard (left) at its intersection with the northern arm of the Lee Drive entrance. At this point Lee Drive will be raised three feet, as Lafayette Boulevard will be elevated to accommodate engineering of the roundabout.

Looking north along Lafayette Boulevard (left) at its intersection with the northern arm of the Lee Drive entrance. At this point Lee Drive will be raised three feet, as Lafayette Boulevard will be elevated to accommodate engineering of the roundabout.

Looking south along the northern arm of the Lee Drive entrance (right) at its intersection with Lafayette Boulevard. Confederate earthworks to the left will not be disturbed or affected by the proposed work.

The 1928 park dedication monument sits in the
