

**Prospect Hill,
Green Springs
National Historic Landmark District**

Prospect Hill: Area of Potential Effect (yellow) and Site-Plan. North at top.

Prospect Hill: Perimeter of Proposed Garage-Addition and Area of Ground-Disturbance (Within Red Area.) North at top.

Prospect Hill Manor House, looking southwest. (Garage out of view at left.)

View from Prospect Hill Manor House (corner in right foreground) south along east row of dependencies, and then along extension of that row formed by carriage house (tallest roof in background), and garage (hipped roof in far background).

View looking east across northernmost Prospect Hill parking lot towards front (west) façade of garage (center), and with carriage house at left.

View looking southeast, with north façade of garage at right and front (west) façade of carriage house at left. Proposed addition would extend off the rear of the garage in this view.

Front (west), and north façades of garage. Proposed addition would extend off the rear, and to the left, in this view. Looking southeast.

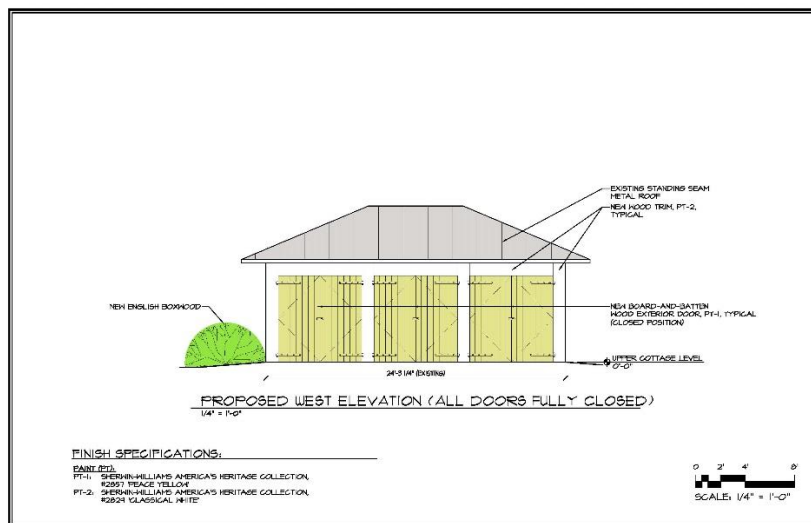

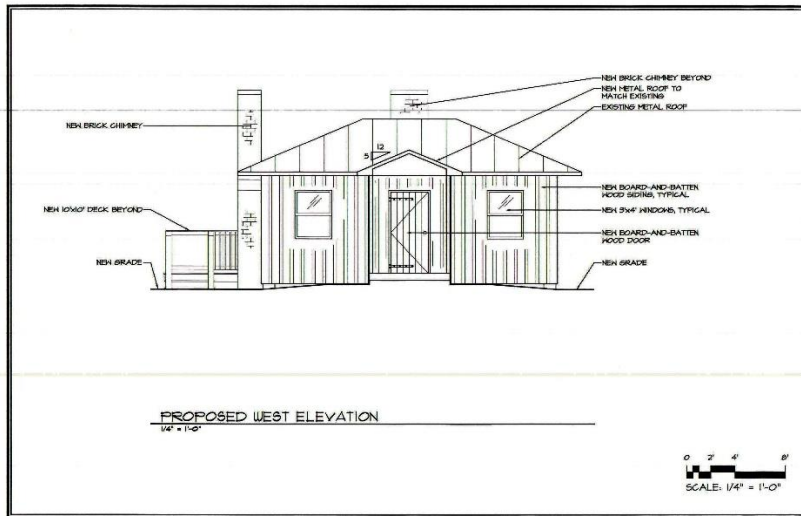

South façade of garage, looking north from north edge (fence) of Overton Cemetery.

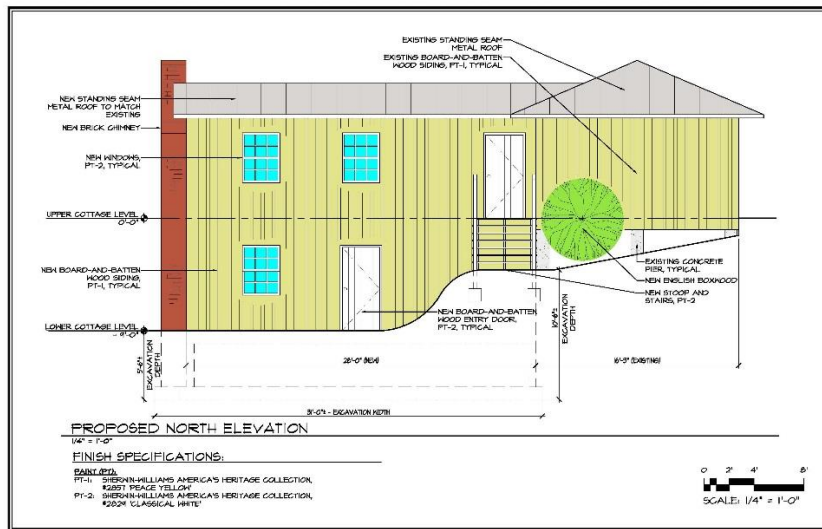

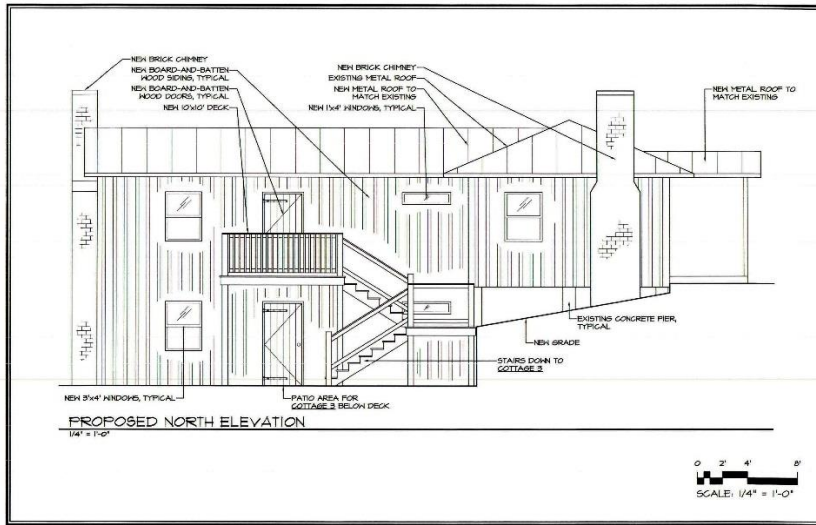

Rear (east) façade of garage. Looking west. Proposed addition would extend towards the viewer but present a rear façade that is narrower and leaves two feet of the existing rear façade visible on each side, from this perspective. Tree at left would be removed.

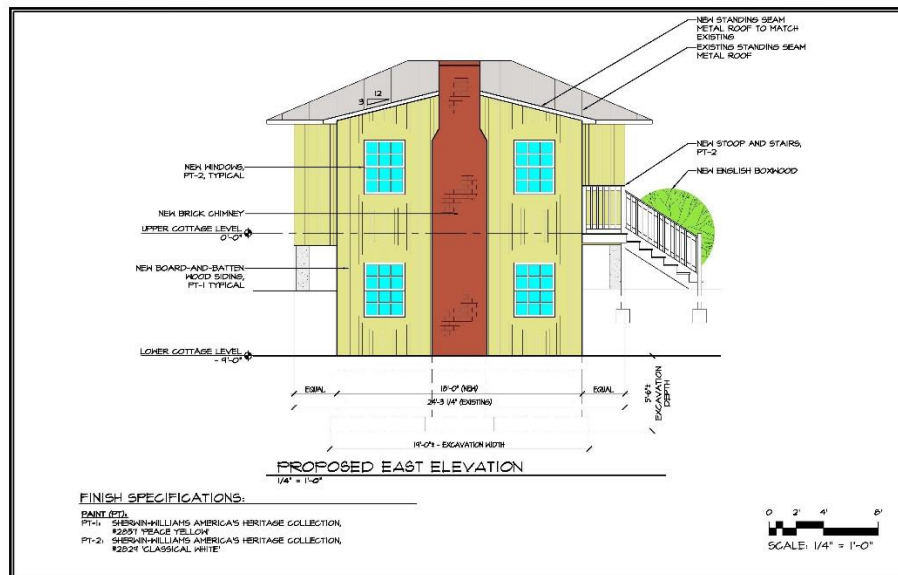

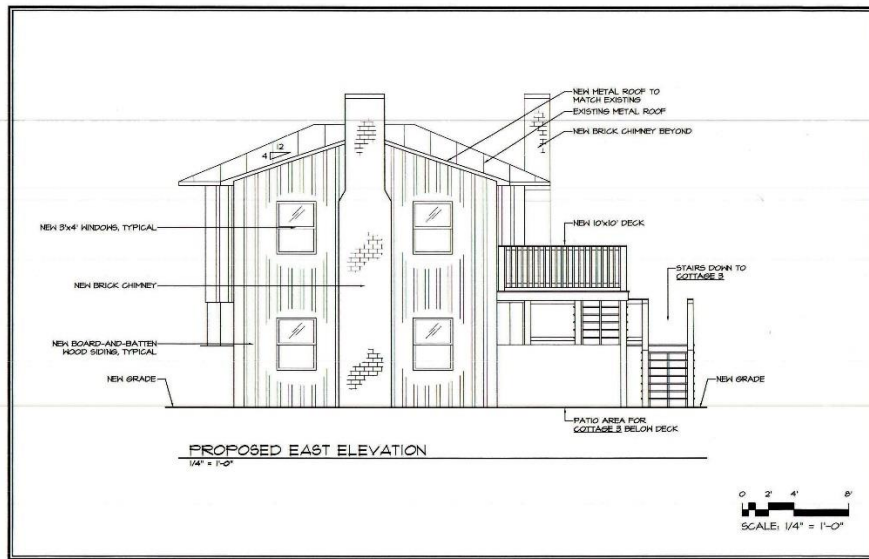

Front (west) and south façades of garage, with front of carriage house at far left, and Overton Cemetery at center. Looking northeast. (Nearest parking lot just out of view at left.) Proposed addition would extend off the rear off the garage, behind the trees and shrubbery—to be left intact—shown here in and alongside the cemetery.

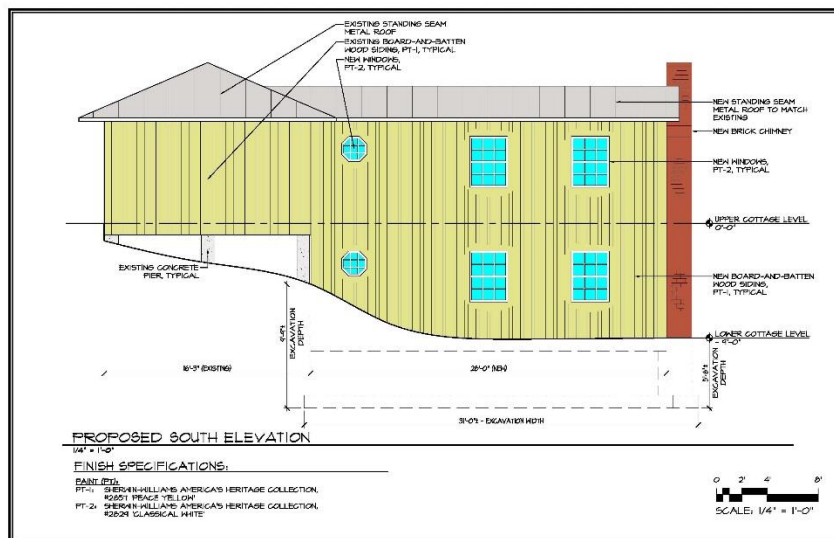

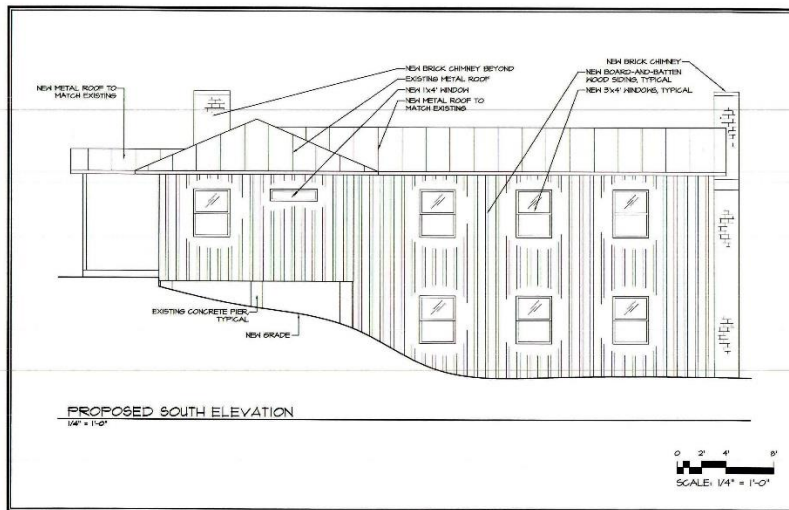

Front (west) façade: first proposal (top drawing); current/revised proposal showing doors in closed position (bottom drawing).

North façade: first proposal (top drawing); current/revised proposal (bottom drawing).

East façade: first proposal (top drawing); current/revised proposal (bottom drawing).

South façade: first proposal (top drawing); current/revised proposal (bottom drawing).
