

## Mount Rainier National Park needs YOUR input again!

Last summer, your feedback helped the planning team develop a range of preliminary ideas to address issues/opportunities for the future of the Nisqually to Paradise Road Corridor at Mount Rainier National Park. The Summer 2021 newsletter (<https://parkplanning.nps.gov/NisquallyCorridorSummer2021>) presents ideas for providing safe and efficient transportation and high-quality experiences to visitors. We want your feedback and questions on these preliminary ideas! The newsletter lays out ways to stay involved and access information, including attending our virtual public meeting on **August 5, 2021**.

**How to get involved:** We encourage you to visit the project website (<https://parkplanning.nps.gov/nisquallycorridor>) to learn more about the draft ideas and to share your ideas, comments, and questions.

### Please share with us!

- What questions do you have about these ideas (reservations, trip planning, shuttles, etc.)? Please share them so we can address these questions in the next phase of analysis!
- How would these ideas (reservations, trip planning, shuttles, etc.) influence your visit to Mount Rainier?
- What tools do you use to help plan your trip to Mount Rainier? How could these tools be improved, and where should this information be provided?

More information, including the timeline for the Nisqually Corridor Management Plan, can be found at <https://parkplanning.nps.gov/nisquallycorridor> or <https://arcg.is/88v8W>.
