The DC SHPO understands that the proposed work is limited to in-kind repair and replacement of deteriorated materials and the introduction of a wrought iron fence and a rounded corner on the south side of the reservation to avoid the perpetuation of "social paths." Since the proposed alterations are so minimal, the DC SHPO concurs with the National Park Service determination of "no adverse effect" for this undertaking. No further DC SHPO review or comment will be necessary unless alterations are made to the currently proposed designs or concerns about the proposed project are expressed by any consulting parties.
