

## Categorical Exclusion Form

**Project:** Big Spring - Relocate Transformer and Control Panel for Sewage Lift Stations

**PEPC Project Number:** 42294

**Project Description:**

Two transformers and control panels that service lift stations for the sewage system in the Big Springs area will be relocated to the existing locations of the disconnect panels. The relocation is required to reduce the number of pumps going bad due to the voltage drop caused by the excessive distance in the line from the transformers and control panel.

Two 3'x5'x1' concrete pads will be placed at the existing disconnect panels with new posts to support the transformer, control and disconnect panel. All work is within a developed area and does not involve any historic structures.

See attached documents for details scope of work, maps and photos.

**Project Locations:**

**Location**

**County:** Carter  
**District:** Big Spring

**State:** MO

**Section:**

**Geo.**

**Other:**

**Marker:**

**Mitigation(s):**

- No mitigations identified.

**Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):**

C.8 Replacement in kind of minor structures and facilities with little or no change in location, capacity or appearance.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.

**Park Superintendent / Date:**

Joe Strenfel 5/18/2012
