

CHAPTER 5: CONSULTATION AND COORDINATION

The National Park Service consulted and coordinated with numerous agencies, organizations, and interested persons in addressing the proposed backcountry management plan and general management plan amendment for Denali National Park and Preserve. Individual members of the public and other interested agencies and organizations have had the opportunity to shape this plan from the definition of issues and concerns through the initial development of alternatives and the revised draft. The following is a brief overview of the extent of public and agency involvement.

Public Involvement

Public Scoping

The National Park Service held scoping meetings within the park and the regional office during fall 1998 and spring 1999. A Notice of Intent (NOI) to prepare an environmental impact statement was published in the *Federal Register* on August 31, 1999. After publishing the Notice of Intent, the National Park Service hosted public scoping meetings in Anchorage, Fairbanks, Talkeetna/Trapper Creek, and McKinley Village to define issues and impact topics to address in the plan. Approximately 150 people attended these meetings and an additional 65 written comments were received.

Newsletter

As a result of these scoping efforts, the NPS issued in January 2001 the Special Winter 2001 Edition of the *Denali Dispatch* (Volume 6, Issue #4) to about 2,000 addresses on the park mailing list. This document described the primary activities and a range of alternatives to be evaluated in the environmental impact statement. (Recipients included those receiving the *Draft Backcountry Management Plan and EIS*—see list at the end of this section).

<u>Open Houses – Alternatives Development</u>

The National Park Service held open house meetings in Anchorage, Fairbanks, Talkeetna/Trapper Creek, Cantwell, and Healy during the first two weeks of February 2001 to help fine-tune the alternatives and impact topics.

Open Houses – Draft Plan and EIS Review

Upon release of the *Draft Backcountry Management Plan and EIS* in February 2003, the National Park Service held a series of informational workshops in Anchorage, Wasilla, Talkeetna/Trapper Creek, Cantwell, Healy, and Fairbanks to explain the plan so members of the public would be better equipped to respond in public comment.

Public Comment on Draft Plan

The public comment period on the draft plan was open for 75 days from February 25 to May 7, 2003, and then extended at public request to May 30, 2003. In April, public hearings were held in Anchorage, Wasilla, Talkeetna/Trapper Creek, Cantwell, Healy,

and Fairbanks. In total, there were 9,370 comments received. These comments are summarized and responses to substantive comments provided in Appendix A. As a result of the comments, the National Park Service decided to revise the draft plan and solicit additional public comment before publishing a final plan.

Consultation With Federal Agencies

U.S. Fish and Wildlife Service

Section 7 of the Endangered Species Act, as amended, prohibits federal agencies such as the National Park Service from implementing any action that is likely to jeopardize the continued existence of a federally protected (i.e., endangered, threatened) species. Further, the act requires that the National Park Service consult with the U.S. Fish and Wildlife Service on any action it authorizes, funds, or executes that could potentially affect a protected species or its designated critical habitat.

To help meet its responsibilities under the act, the National Park Service has consulted with the U.S. Fish and Wildlife Service to identify those listed plant and animal species that may inhabit the park backcountry. On July 17, 2000, Superintendent Stephen P. Martin sent a letter to Ann Rappaport, Ecological Services and Endangered Species, requesting information on federally endangered or threatened plant and animal species in Denali National Park and Preserve for the backcountry management plan. On July 27, 2000, Arthur E. Davenport, Endangered Species Biologist, indicated in his letter that the U. S. Fish and Wildlife Service had no endangered or threatened plant and animal species occurring within the area of the proposed new backcountry management plan for the park. Copies of the correspondence were included in full in Appendix D of the original *Draft Backcountry Management Plan* (NPS 2003d).

In addition to this communication, National Park Service planning staff met with counterparts in the Alaska Region of the U.S. Fish and Wildlife Service on May 13, 2004, to discuss the draft plan.

Bureau of Land Management

The National Park Service held discussions with Bureau of Land Management staff, Glenallen Field Office, and submitted written comments regarding the East Alaska Resource Management Plan (EARMP). The NPS comments sought coordination between the EARMP and the backcountry management plan on regional recreation opportunities, and particularly for combining efforts on the proposed visitor contact station in the Broad Pass/Cantwell area.

Denali Subsistence Resources Commission

Several presentations have been made to the Denali Subsistence Resources Commission, which has maintained an active interest in the plan because of potential conflicts between subsistence users and recreational users of the park and preserve. Presentations have occurred at the April and October meetings in 2001, February meeting in 2002, and

March meeting in 2004. The Commission passed two formal motions regarding subsistence and park planning: 1) The Commission strongly recommended that the National Park Service make traditional subsistence use a priority over other uses (particularly over new recreational uses); and 2) The Commission recommended that the area from Windy Creek to the Bull River be designated as an area primarily for traditional subsistence use and classified as a Natural Area in order to limit conflicts between recreational use and traditional subsistence use.

Consultation With State And Local Governments

State Of Alaska

The planning team shared a draft copy of the affected environment section of the Environmental Impact Statement with the State of Alaska during winter 2000-2001 with a 60-day comment period. The Office of the Governor in Anchorage sent a comment letter to the park on April 20, 2001, along with an edited electronic version of the affected environment section. The planning team incorporated most of the state's suggestions. Suggested comments that were not incorporated into the draft plan were discussed with the Division of Governmental Coordination during fall 2001. The National Park Service provided the State of Alaska with a copy of the internal review draft backcountry management plan on January 18, 2002. The State provided verbal comments in a meeting on July 26, 2002, and the National Park Service responded to the comments in the draft plan.

During the comment period for the draft plan, the State submitted extensive comments that are published in Appendix A with responses. The National Park Service involved the State extensively in the process of crafting the revised draft plan, holding 10 meetings with representatives of the Office of the Governor, Department of Natural Resources, and Department of Fish and Game between December, 2003, and December, 2004. The State also participated in internal review of the revised draft plan during November 2004.

Alaska State Historic Preservation Office

Western Office of the Advisory Council on Historic Preservation

The National Park Service has consulted with the Alaska State Historic Preservation Office and the Western Office of the Advisory Council on Historic Preservation since initiating this project. An advance copy of the document was provided for their review. A copy of the *Draft Backcountry Management Plan and EIS* was sent to both of these offices in order to initiate and plan for coordination survey, eligibility, effect, and mitigation of possible cultural resources in the proposed project areas early in the planning process. Copies of correspondence were included in Appendix D of the original Draft Backcountry Management Plan (NPS 2003d). All implementation actions that could affect historic properties as defined under the National Historic Preservation Act and the 1995 Nationwide Programmatic Agreement will be evaluated through consultation with the state historic preservation officer. These actions include, but are not limited to, proposed changes to historic buildings or districts and ground-disturbing activities.

Consultation with Native Tribal Governments

The National Park Service sent copies of the draft plan and letters requesting government-to-government consultation to six affected Native tribal governments. A meeting with the Nenana Native Council was held in summer of 2003 to discuss the backcountry management plan and other issues.

Additional Consultation

In addition to the publicized public involvement opportunities and consultation with public agencies, the National Park Service has sought comments and responded to requests for meetings, discussion, or informational presentations with a wide variety of organizations throughout the process of preparing the original and revised draft of the plan. In winter and spring 2002, the National Park Service held collaborative planning workshops in Anchorage and Talkeetna to discuss alternatives and issues associated with climbing and mountaineering, snowmachine use, and airplane use. Park staff frequently met with snowmachine groups, air taxi operators, environmental groups, inholders, subsistence users, and members of the travel and tourism industry to provide updates and solicit ideas and information.

List of Agencies, Organizations, and Businesses to Whom Copies of the Original Draft Backcountry Management Plan/Environmental Impact Statement Were Sent

ALASKA CONGRESSIONAL DELEGATION

Congressman Don Young Senator Lisa Murkowski Senator Ted Stevens

FEDERAL DEPARTMENTS, AGENCIES, AND OFFICES

Advisory Council on Historic Preservation Alaska Public Lands Information Center, Anchorage Alaska Public Lands Information Center, Fairbanks Department of the Interior

BUSINESSES

The Draft Plan was sent to over 200 businesses, which fall into one of the following categories:

Accommodations

Climbing services

Dog sled tour and freighters

Engineering and consulting firms

Fishing services

Flying services

Hiking services

Hunting services

Inholders associations

Leisure services

Mining companies

Mountaineering services

Raft and kayak services

Restaurants, local

Ski tour services

Transportation services, automobile
