Subject: NEPA and NHPA Clearance: 2011-029 Curry Village Stable, Install Feed Storage Container (37758)

The Executive Leadership Team has reviewed the proposed project/action and completed its environmental assessment documentation, and we have determined that there:

- Will not be any effect on threatened, endangered, or rare species and/or their critical habitat.
- Will not be any effect on historical, cultural, or archeological resources.
- Will not be serious or long-term undesirable environmental or visual effects.

The subject proposed project, therefore, is now cleared for all NEPA and NHPA compliance requirements as presented above. Project plans and specifications are approved and construction and/or project implementation can commence.

For the proposed project actions to be within compliance requirements during construction and/or project implementation, the following mitigations must be adhered to:

Categorical Exclusion Form

Project: 2011-029 Curry Village Stable, Install Feed Storage Container

PEPC Project Number: 37758

Project Description:

The purpose of this project is to prevent bear and other wildlife access to feed stored at the concessioner operated stable in Yosemite National Park. Feed is traditionally stored in locked wooden bins on the second story of the barn. Bears tear into the barn doors and climb the structure to access the feed bins.

DNC is requesting a 20' X 8' metal container be placed in a location within the existing footprint of the Valley Stables near the barn. The location is out of public view and installation does not require ground disturbance. The container is portable and can be transported on or off site with a tractor trailer. The container will be painted to match the surrounding structures.

A site visit was conducted with the park History, Architecture, and Landscapes branch to determine site location and appearance.

Project Locations:

Mariposa County, Ca

Mitigations:

- No mitigations identified.

Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):

C.8 Replacement in kind of minor structures and facilities with little or no change in location, capacity or appearance.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.
