## PUBLIC SCOPING—SEND COMMENTS UNTIL November 30, 2012

The National Park Service (NPS), in cooperation with the Federal Highway Administration, has initiated the preparation of an Environmental Assessment (EA) and is seeking public and agency input for the proposed Woolum Road Repairs project to determine if the project could potentially result in any significant impacts to the natural or human environment. The EA will evaluate potential impacts to the natural, cultural, and human environment from construction and operations activities related to the proposed project. The NPS is seeking comments from the public and agencies to help identify issues and concerns for the planning process and the EA analysis.

The purpose of the project is to repair a section of Woolum Road, located approximately five (5) miles west of state highway 65, where frequent flooding has resulted in a landslide and the failure of the rock wall on the south side of the road. Repair work would consist of stabilization of the slope and reconstruction of the rock wall, and may include reconstruction or realignment of the road.

At this time, we are initiating a public scoping period that will be open for 30 days. During this scoping period, the public is invited to identify any issues or concerns they may have

with the proposed project so that they may be appropriately considered in the EA. Additional information may be found and comments may be submitted online at: <http://parkplanning.nps.gov/buff> or by mailing them to the following address:

Buffalo National River, Attn: Woolum Road EA, 402 N. Walnut, Suite 136, Harrison, Arkansas 72601

Before including your address, phone number, e-mail address or other personal identifying information in your comment, you should be aware that your entire comment – including your personal identifying information – may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**All scoping comments must be received by November 30, 2012.**
