#### Memorandum

**To:** Ron Gaunt, Project Manager, Yosemite National Park

**From:** Superintendent, Yosemite National Park

**Subject:** NEPA and NHPA Clearance: 2011-018 Yosemite Village Replace Electrical Main to Concessionaire General Offices (37340)

The Executive Leadership Team has reviewed the proposed project/action and completed its environmental assessment documentation, and we have determined that there:

- Will not be any effect on threatened, endangered, or rare species and/or their critical habitat.
- Will not be any effect on historical, cultural, or archeological resources.
- Will not be serious or long-term undesirable environmental or visual effects.

The subject proposed project, therefore, is now cleared for all NEPA and NHPA compliance requirements as presented above. Project plans and specifications are approved and construction and/or project implementation can commence.

For the proposed project actions to be within compliance requirements during construction and/or project implementation, the following mitigations must be adhered to:

- Ensure that all equipment and materials brought into the park are free of non-native, invasive plants and animals, and noxious weeds. All staff working on site shall be informed of and follow best management practices for preventing the introduction and spread of non-native, invasive species as described in Division 1 Specifications, Section 1335.

For complete compliance information see PEPC Project 37340.

## Categorical Exclusion Form

**Project:** 2011-018 Yosemite Village Replace Electrical Main to Concessionaire General Offices

**PEPC Project Number:** 37340

**Project Description:**

The purpose of this project is to permanently replace the underground electrical main line that feeds the Delaware North Corporation (DNC) General Offices from the Yosemite Transportation Service garage area in Yosemite Valley.

The existing 400 amp aluminum line runs from the garage transformer, under Village Drive to feed the DNC General Offices. In April 2011, the General Offices lost electricity to the building because this line failed and is thought to be damaged in the Village Drive road alignment. DNC General Offices were operating on emergency generator power until a temporary overhead line was installed in late May 2011.

Approximately 350 feet of new code compliant 250 amp copper line will be installed in the same location under Village Drive, between the garage transformers and the DNC General Offices. A portion of the line within the General Offices parking area will be installed under the asphalted area. This portion diverges from the original line for a better more sustainable solution. Damaged underground line will be removed to the greatest extent possible, as well as the temporary overhead line that is currently in place.

An energy calculation and limited design for electrical main replacement is currently being developed and will be reviewed by park staff. Close consultation with park High Voltage has and will continue to occur on this project. Park archaeological staff has been consulted on the ground disturbing activities required for this project and are currently reviewing the project.

**Project Locations:**

Mariposa County, CA

**Mitigations:**

- Ensure that all equipment and materials brought into the park are free of non-native, invasive plants and animals, and noxious weeds. All staff working on site shall be informed of and follow best management practices for preventing the introduction and spread of non-native, invasive species as described in Division 1 Specifications, Section 1335.

**Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):**

C.3 Routine maintenance and repairs to non-historic structures, facilities, utilities, grounds and trails.

**On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No**

exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.
