

## FORT MONROE PLANNING VISION STATEMENT

The Fort Monroe Authority, National Park Service, and City of Hampton are working collaboratively as partners, with the Hampton Roads community, and with the American public – to establish a clear, comprehensive, sustainable, and achievable vision to guide future reuse of Fort Monroe. Our collective goal, as stewards of this great place is to:

- Preserve the cultural, natural and recreational resources of Fort Monroe
  - Tell the stories that make the Fort Monroe nationally significant
- Work to ensure sustainability of Fort Monroe and its surrounding neighborhoods

While our organizations have unique requirements and processes, we are committed to working together and with the public to ensure a coordinated, comprehensive, and inclusive planning effort. The three partners in this process agree to collaboratively plan the best Fort Monroe for this and future generations.
