Notes:

- a. The level of shading in this column corresponds to the level of shading on "Map 2." The backcountry permit (overnight use) data for 1999-2002 provide total estimates of backcountry overnight use by all visitors; no data were available to indicate what fraction of visitors were engaged in sport fishing.
- b. Fishing potential is based on data gathered by Trail Blazers, Inc. and reflects recreational, not biological, potential.
- c. The numbers in parentheses represent the estimated use at each zone or camp.
- d. The lake is currently fishless.
