PASEO LA PERLA

An aerial perspective rendering of a proposed urban development in Los Angeles. The scene features a mix of architectural styles, including a prominent two-story building with a red base and large windows, and a modern, white, box-like structure. A central plaza area is dominated by a large palm tree in a circular planter, with several people walking around it. To the left, a wide pedestrian walkway is lined with lush green trees and more people. A white car is parked on the street adjacent to the plaza. The overall atmosphere is one of a vibrant, walkable neighborhood.
