Memorandum

To: Ruth Middlecamp, Project Manager, Yosemite National Park

From: Superintendent, Yosemite National Park

Subject: NEPA and NHPA Clearance: 2012-035 Programmatic CE- Special Use Permit
Photography Workshop (43182)

The Executive Leadership Team has reviewed the proposed project/action and completed its environmental assessment documentation, and we have determined that there:

- Will not be any effect on threatened, endangered, or rare species and/or their critical habitat.
- Will not be any effect on historical, cultural, or archeological resources.
- Will not be serious or long-term undesirable environmental or visual effects.

The subject proposed project, therefore, is now cleared for all NEPA and NHPA compliance requirements as presented above. Project plans and specifications are approved and construction and/or project implementation can commence.

For the proposed project actions to be within compliance requirements during construction and/or project implementation, the following mitigations must be adhered to:

- No mitigations identified.

For complete compliance information see PEPC Project 43182.

Categorical Exclusion Form

Project: 2012-035 Programmatic Special Use Permit-Photography Workshop

PEPC Project Number: 43182

Project Description:

This is a request for a 5 year programmatic Categorical Exclusion (CE) to issue Special Use Permits (SUP) for nonprofit groups to conduct photography workshops in Yosemite National Park. This programmatic CE will cover SUPs issued beginning on January 1, 2013.

The SUP is issued to companies, organizations or individuals conducting nonprofit photography workshops in Yosemite National Park. The permit holder (permittee) must agree to abide by the terms and conditions of the SUP which is administered and managed by the Yosemite National Park, Office of Special Park Uses in conjunction with the Yosemite Wilderness Office. This permit is issued for activities not requiring an overnight wilderness permit. This Photography Workshop permit must be attached to the Hiking/Backpacking SUP when overnight stays in the wilderness are planned. The hiking/backpacking SUP is used as the core permit to which additional activities, authorized through the compliance process, are attached if requested. When multiple activity permits are requested the additional conditions are attached to the hiking/backpacking permit rather than issuing each permit separately.

The permitted activity is to be conducted only in those areas of Yosemite National Park open to the public and authorized by the SUP. The permittee is required to obtain any additional permits or license required by law. The SUP will only be issued for a period of one year at a time. Companies must apply for a new SUP each year that they plan to offer guided trips in Yosemite National Park. The permittee is required to conduct all business (advertisements and bookings and financial transaction) outside of the park. The permittee must obtain a wilderness permit separately and in addition to the SUP when conducting overnight stays in the wilderness. The permittee is required to provide their proposed trip itinerary to the Yosemite Wilderness Office prior to their trip(s) beginning in the park. The itinerary information is used by the Wilderness Office to schedule patrols in areas to attempt to make contact with groups in the field and provide written reports on the findings of their contacts. Each permittee is required to submit monthly use reports listing the actual trailheads and campsites used, along with the number of days/night spent in the park, and the number of clients guided.

Project Locations:

Mariposa, Tuolumne, and Madera Counties

Mitigations:

- No mitigations identified.

Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):

A.6 Commercial use licenses involving no construction.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.
