

Note from J. Matsumoto-Nov 23, 2012, Environmental Compliance office: Letter from Renee Douglas contained 6 photographs--not just 4 as noted on her letter.

Summer 2012

Dead horse no. 6

This was in a horse camp where  
the packers stay. Lots of trash  
around the fire pit? Packings but  
clothes & etc?

illegal  
over 1000 ft. (1)

Another meadow torn up  
by packers. The entire meadow  
was horse waste & urine!

This was the only flat spot  
to camp on our hike out so  
we hiked the 13 miles ~~to~~ <sup>I'm 54 yrs</sup> old. you  
we would not have to stay  
in this meadow again - where  
we camped going in!

(2)

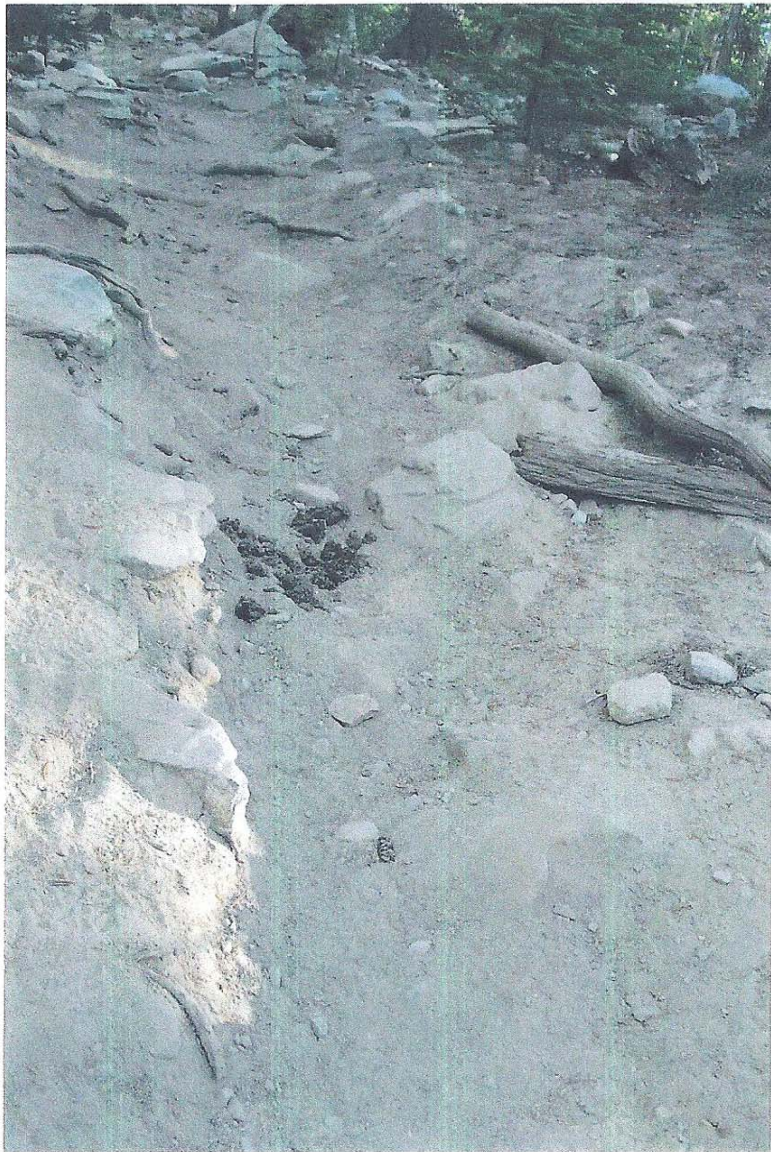

A once pristine meadow w/ 2012  
6 human excrement piles - sept.  
We watched the people leave  
the horse camp & drop their  
Shorts!

Sorry about this pic.

(3)

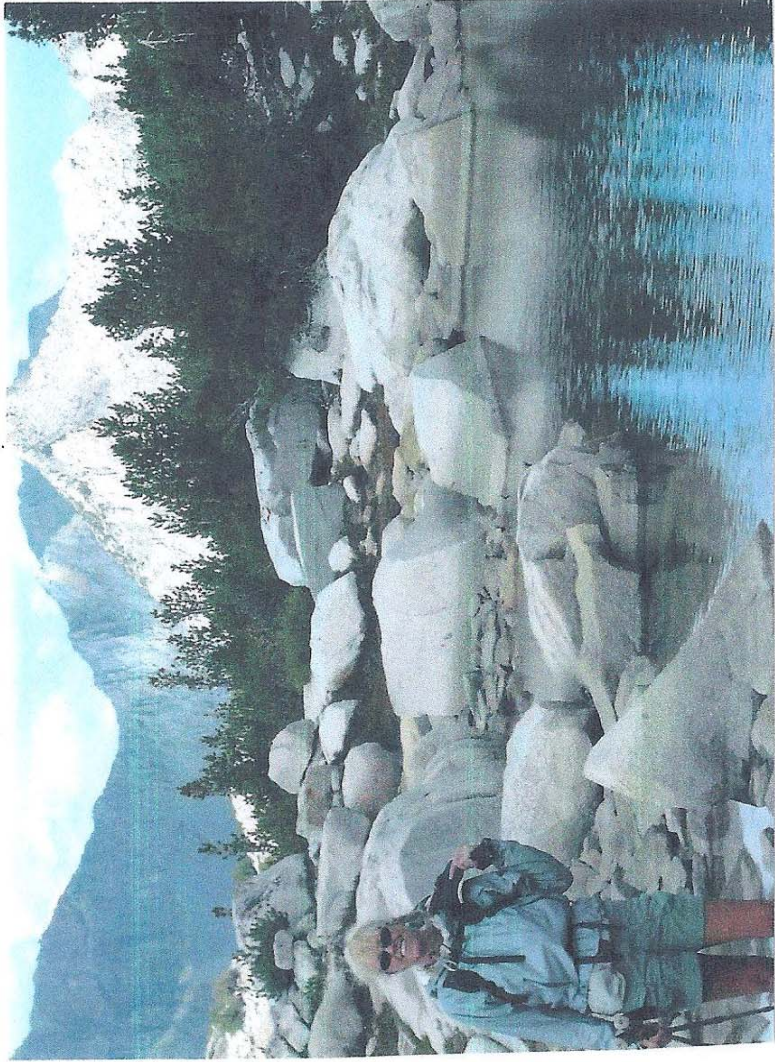

This just can't or  
does not capture  
how horrible my  
hiking was this  
summer. Horrific  
hiking in flies, dust, crap  
dislodged rocks —  
you know!

<sup>sad</sup>  
I cried it was  
so bad. It worked  
me on the trails  
horses go on & into  
our pristine back country  
So unfair!!!!

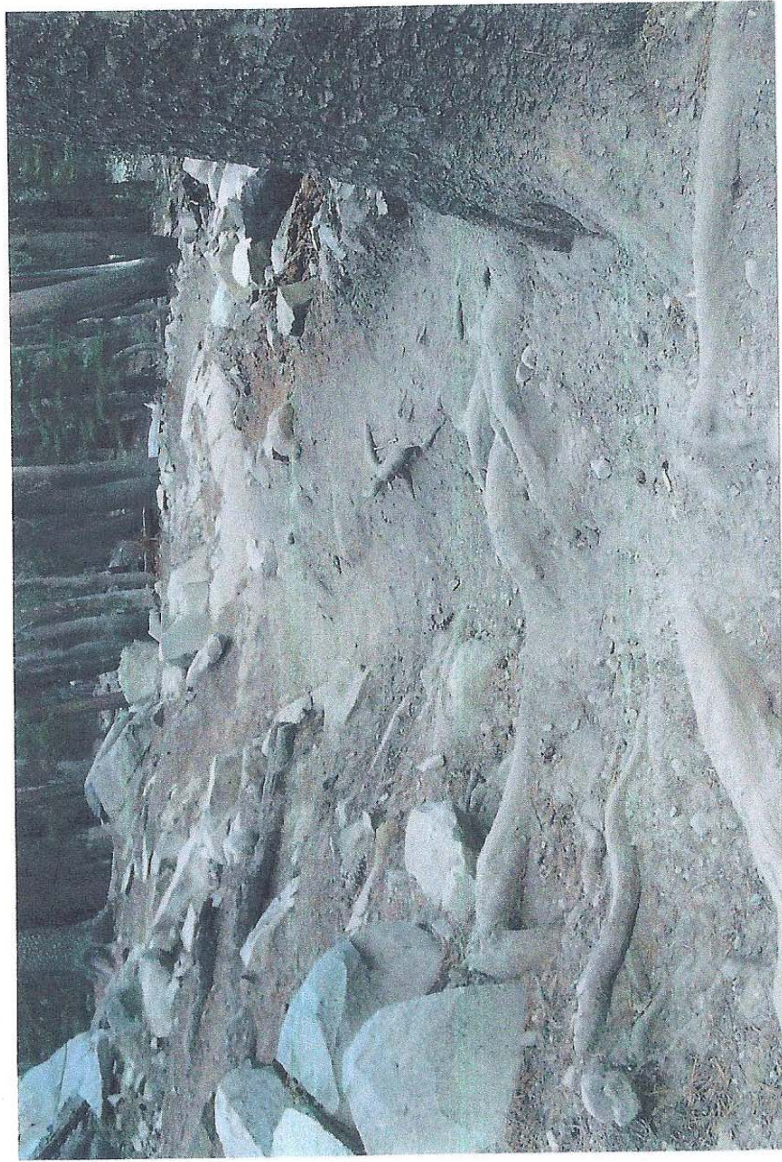

(4)

Me in a Pristine Area - Happy 2012  
Hiking is my Passion!

Idi Karen
