

## Appendix E: Properties Associated with the Women's Rights Movement

Note: The women's rights property sample should not be considered comprehensive and is by no means definitive. It is merely a reconnaissance-level survey used by the study team to develop a better understanding of the number and types of properties that are known to exist.

National Historic Landmarks are indicated by bold text.

National Register of Historic Places properties are indicated by italicized text.

(\*) indicates a property that may be open to the public.
