Memorandum

To: William Bryan, Project Manager, Yosemite National Park

From: Superintendent, Yosemite National Park

Subject: NEPA and NHPA Clearance: 2013-022 Tuolumne Meadows Lodge - Linen Hut Addition (47212)

The Executive Leadership Team has reviewed the proposed project/action and completed its environmental assessment documentation, and we have determined the following:

- There will not be any effect on threatened, endangered, or rare species and/or their critical habitat.
- There will be no adverse effect to historical properties.
- There will not be serious or long-term undesirable environmental or visual effects.

The subject proposed project, therefore, is now cleared for all NEPA and NHPA compliance requirements as presented above. Project plans and specifications are approved and construction and/or project implementation can commence.

For the proposed project actions to be within compliance requirements during construction and/or project implementation, the following mitigations must be adhered to:

- Linen huts must be situated greater than 150 feet from the ordinary high water mark of the Tuolumne River.
- Tent cabins to be sited to blend in with surrounding tents.

For complete compliance information see PEPC Project 47212.

Project: 2013-022 Tuolumne Meadows Lodge - Linen Hut Addition

PEPC Project Number: 47212

Project Description:

Delaware North Company (DNC) will improve linen storage at the Tuolumne Meadows Lodge (TML) to prevent rodent access by installing two temporary linen storage tents with the pre-approved design utilized at the Boystown location. DNC will abandon the use by housekeeping staff of the linen storage shed located within the shower house due to multiple access points for rodent entry and install two canvas linen huts in preselected locations at TML. Huts will match the Curry Village design (12 feet by 14 feet, interior ½ walls, battens, exclusion techniques, no wood stove, 36 inch door entry, open shelving, open stairs, etc.).

Project Background: The linen hut addition is necessary to replace the existing linen storage area located behind the TML shower house with rodent resistant storage areas. It will also improve public health issues related to Hantavirus exposure to visitors and staff. California Department of Public Health (CDPH) and National Park Service (NPS) staff both have noted that linen storage in this area is at risk for rodent contact due to entry points at the door, walls, and roof. The existing storage area would have to be reconstructed with new walls and entry door to keep rodents out. The current storage area back wall is shared with the shower house which complicates reconstruction of the shed. It is preferable to abandon linen storage at this location and use this storage area for maintenance supplies.

Scope of Work:

1. Construct tent with approved 12 by 14 foot print on 9 pier blocks with the minimum height requirements for Invasive Pest Management regulations using exclusion design techniques preapproved by NPS and CDPH.
3. Stairs will be open design per NPS and DNC guidelines and doorway will be outfitted with tight fitting threshold and door stay.
4. Walls will consist of 2 inch by 4 inch studs 16 inches on center and ½ inch plywood from base of tent to top sill. (Same construction as in new Boystown linen tent construction.)
5. Rafters will incorporate high sierra design (i.e, one wood rafter attached to the front wall and door frame then two galvanized metal rafters and a galvanized metal ridge beam).
6. Wood surfaces will be painted green.
7. Canvas tent cover will be excluded per NPS and DNC guidelines, including exterior white batten around top sill perimeter.

Project Locations:

Tuolumne County, CA

Mitigations:

- Linen huts must be situated greater than 150 feet from the ordinary high water mark of the Tuolumne River.
- Tent cabins to be sited to blend in with surrounding tents.

Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):

C.10 Installation of wells, comfort stations and pit toilets in areas of existing use and in developed areas.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.

C. MANDATORY CRITERIA

Mandatory Criteria: If implemented, would the proposal:	Yes	No	N/A	Comment or Data Needed to Determine
A. Have significant impacts on public health or safety?		No		
B. Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands;		No		

Mandatory Criteria: If implemented, would the proposal:	Yes	No	N/A	Comment or Data Needed to Determine
wetlands (Executive Order 11990); floodplains (Executive Order 11988); national monuments; migratory birds; and other ecologically significant or critical areas?				
C. Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources (NEPA section 102(2)(E))?		No		
D. Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks?		No		
E. Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?		No		
F. Have a direct relationship to other actions with individually insignificant, but cumulatively significant, environmental effects?		No		
G. Have significant impacts on properties listed or eligible for listing on the National Register of Historic Places, as determined by either the bureau or office?		No		
H. Have significant impacts on species listed or proposed to be listed on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species?		No		
I. Violate a federal law, or a state, local, or tribal law or requirement imposed for the protection of the environment?		No		
J. Have a disproportionately high and adverse effect on low income or minority populations (Executive Order 12898)?		No		
K. Limit access to and ceremonial use of Indian sacred sites on federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites (Executive Order 13007)?		No		
L. Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur		No		

Mandatory Criteria: If implemented, would the proposal:	Yes	No	N/A	Comment or Data Needed to Determine
in the area or actions that may promote the introduction, growth, or expansion of the range of such species (Federal Noxious Weed Control Act and Executive Order 13112)?				

For the purpose of interpreting these procedures within the NPS, any action that has the potential to violate the NPS Organic Act by impairing park resources or values would constitute an action that triggers the DOI exception for actions that threaten to violate a federal law for protection of the environment.

D. OTHER INFORMATION

1. Are personnel preparing this form familiar with the site? Yes
- 1.A. Did personnel conduct a site visit? No
2. Is the project in an approved plan such as a General Management Plan or an Implementation Plan with an accompanying NEPA document? No
3. Are there any interested or affected agencies or parties? Yes
- 3.A. Did you make a diligent effort to contact them? Yes
4. Has consultation with all affected agencies or tribes been completed? Yes, June Tribal Spreadsheet
5. Are there any connected, cumulative, or similar actions as part of the proposed action? (*e.g., other development projects in area or identified in GMP, adequate/available utilities to accomplish project*) No
