I plowed through the minutes and here are my comments/deficiencies:

Page 226 line 15 change "fund" to Foundation

Page 228 line 10 change "residue" to residual

Page 229 line 16 change "civilian designs" to ?

Page 229 line 18 insert "criteria" after design

Page 229 line 20 insert "on a memorial" after names

Page 230 line 5 change "mirror" to mural

Page 245 line 4 and 6 change "Deane" to Dean

Page 248 line 2 - what was the small change in HR that they are referring to?

Page 251 line 14 change "Chairman May" to Commissioner Wright

Page 259 beginning of the page where there is an interesting point. The kiosk/honor roll infill has been "enhanced" since it was constructed.
The entire portion was removed, redesigned and constructed to remove printing capabilities and to upgrade touch screens.

Page 260 end of page. Another point is the kiosk was constructed after the memorial was constructed. Is this considered an enhancement or an addition.
What is good for the goose, is good for the gander!

Page 262 - thought of names on memorials - Gettysburg has plenty of memorials listing names of individuals who made the ultimate sacrifice by various units. Also the DC WWI memorial next door has names. The memorials for Washington, Lincoln, Jefferson and Roosevelt can also be caveated into memorials with an individual's name on it.

Page 278 - Commissioner Sole indicated the efforts should be on a local level versus a national effort - not all communities can afford to build and maintain hundreds of memorials. But the point is this was a national/world action and not a local action.

Page 279 - Line 6 - 11 is a very lame point
