- Established a national policy for **protecting the environment** and requires evaluation of alternative actions
- Goal: To ensure **informed decision-making**
- Can conclude with an EA and Finding of No Significant Impact (FONSI) or an EIS and Record of Decision (ROD)

# What is Section 106?

# NEPA and Section 106 - A Coordinated Approach

# NEPA and Section 106 – Fall 2014/Winter 2014-2015

# NEPA and Section 106 – Spring/Summer 2015

# NEPA and Section 106 – Agency Processes

The NPS, in cooperation with the NCPC, is evaluating an updated NEPA and Section 106 process for this memorial's site and design. The purpose of this revised process is to better align and support key decision points associated with each agency's NEPA and Section 106 responsibilities, and to ensure that the review is commensurate with the complexity of the project. The NPS and NCPC are proposing a scoping meeting for memorial sites at this time and will be scoping for the design of the memorial at a later date. Following both scoping periods, an EA will be created to document potential environmental impacts. This is a deviation from NCPC's existing Environmental and Historic Preservation Procedures, which requires separate NEPA and Section 106 processes for site selection and the design of the memorial. If you have questions on the proposed updated process and NCPC's guidelines, please contact Cheryl Kelly of NCPC at 202-482-7291 or [cheryl.kelly@ncpc.gov](mailto:cheryl.kelly@ncpc.gov).
