

# Table of Contents

<b>Executive Summary .....</b>	<b>iii</b>
<b>Chapter 1 – Purpose and Need .....</b>	<b>1</b>
1.1 Introduction.....	3
1.2 Decision to Prepare an Environmental Impact Statement.....	3
1.3 Planning Area.....	4
1.4 Purpose and Need for Action .....	9
Need .....	9
Purpose.....	10
Legislative and Policy Framework .....	15
Considerations and Constraints.....	28
1.5 Fire Management Plan Scoping .....	34
Public Scoping Process.....	34
Issues and Concerns Raised During Scoping Relevant to the FMP EIS.....	35
Issues Outside the Scope of the FMP.....	39
Impact Topics Included in the EIS.....	39
Impact Topics Dismissed from Further Analysis .....	40
<b>Chapter 2 – Alternatives .....</b>	<b>43</b>
2.1 Overview of Alternatives .....	45
2.2 Alternatives Formulation Process .....	47
Fire Management Units.....	48
Project Areas.....	50
2.3 Fire Management Actions .....	68
Suppression.....	68
Mechanical Treatment .....	68
Prescribed Fire .....	69
Pile Burning .....	69
Monitoring and Research.....	70
2.4 Actions Common to All Action Alternatives.....	71
Wildland-Urban Interface Initiative.....	71
Defensible Space/Vegetation Clearing around Buildings.....	71
Roadside Fuel Reduction .....	71
Suppression.....	72
Treatment of Muir Woods FMU.....	73
Treatment of San Francisco County Project Area.....	75
Public Information and Fire Education Programs.....	76
Fire Cache .....	78
Fire Effects Monitoring.....	78
2.5 Alternatives .....	80
Alternative A – 1993 FMP, No Action .....	80
Alternative B – Hazard Reduction and Restricted Fire Use for Research and Resource Enhancement .....	86
Alternative C (Preferred Alternative) – Hazard Reduction and Resource Enhancement through Multiple Treatments.....	88
2.6 Alternatives Considered but Rejected.....	91
Hazard Reduction and Focused Resource Enhancement (No Prescribed Fire, No Pile Burning).....	91

## Table of Contents

	Hazard Reduction and Focused Resource Enhancement (No Prescribed Fire, Pile Burns Allowed).....	92
2.7	Mitigation Measures .....	92
	General FMP Mitigation Measures.....	93
	Air Quality Mitigation Measures .....	95
	Soils and Water Quality Mitigation Measures .....	95
	Wetland Mitigation Measures.....	97
	Vegetation Mitigation Measures.....	97
	Special Status Species Mitigation Measures.....	98
	Wildlife and Important Habitat Mitigation Measures .....	104
	Cultural Resources Mitigation Measures .....	105
	Visitor Use and Visitor Experience Mitigation Measures .....	108
	Public Health and Safety Mitigation Measures.....	109
2.8	Environmentally Preferred Alternative .....	109
2.9	Preferred Alternative.....	109
2.10	Comparison of Alternatives .....	110
	<b>Chapter 3 – Affected Environment.....</b>	<b>127</b>
3.1	Introduction.....	129
3.2	Project Setting .....	129
	Overview of the Planning Area.....	129
	Special Designation Areas .....	131
	Geology and Seismicity .....	134
	Climatic and Topographic Factors Influencing Wildland Fire Hazard.....	135
	Fire Regime of the Central California Coast .....	142
	Recent Fire History in Marin and San Mateo Counties .....	150
3.3	Physical Environment .....	157
	Watershed Processes: Soils, Hydrology, Water Quality, and Aquatic Habitat.....	157
	Water Quality.....	165
	Air Quality .....	167
3.4	Biological Environment .....	184
	Plant Communities.....	184
	Wetlands .....	201
	Wildlife .....	202
	Special Status Species.....	205
3.5	Social Environment.....	213
	Cultural Resources .....	213
	Human Health and Safety .....	226
	Visitor Experience and Visitor Use .....	232
	Park Operations.....	236
	Socioeconomics .....	237
	<b>Chapter 4 – Environmental Consequences .....</b>	<b>241</b>
4.1	Regulations and Methodologies.....	243
	Introduction.....	243
	Definition of Terms.....	243
	Regulations and Methodologies by Impact Topic .....	244
4.2	Environmental Impact Analysis.....	278
	Impacts on the Physical Environment.....	278
	Impacts on the Biological Environment.....	310
	Impacts on the Social Environment .....	399

4.3 Mandatory Sections..... 464  
 Short-Term Use Versus Long-Term Enhancement of Resources..... 464  
 Irreversible/Irretrievable Commitments of Resources ..... 466  
 Unavoidable Adverse Impacts ..... 467

**Chapter 5 – Consultation and Coordination ..... 471**

5.1 Public Involvement and Scoping ..... 473  
 5.2 Compliance Status..... 474  
 5.3 List of EIS Preparers and Contributors ..... 477  
     Core Team Preparers..... 477  
     Technical Experts and Contributors..... 478  
     List of Consultants ..... 480  
 5.4 Participating Agencies ..... 480  
     Federal Agencies..... 480  
     Federal Advisory Groups..... 480  
     Elected Officials..... 480  
     State Agencies..... 481  
     Regional, County, and Municipal Agencies ..... 481  
     American Indian Tribes ..... 482  
     Libraries ..... 482

**Index..... 485**

**Appendices**

- Appendix A – Glossary of Terms and Acronyms
- Appendix B – Literature Cited
- Appendix C – Cumulative Actions
- Appendix D – GGNRA Historic Resources
- Appendix E – Fire Hazard Model
- Appendix F – Special Status Species
- Appendix G – Minimum Impact Suppression Tactics
- Appendix H – Response to Comments on the Draft Environmental Impact Statement
- Appendix I – Non-burning Alternatives and Air Emissions Reduction Techniques for Fuel Reduction and Resource Benefiting Prescribed Burns in GGNRA
- Appendix J – Programmatic Agreement for Fire Management Activities
- Appendix K – U.S. Fish and Wildlife Service Biological Opinion

## Figures

1-1	Pacific West Region .....	5
1-2	GGNRA Map 7 .....	
1-3	GGNRA Park Management Zones .....	19
2-1	Alternative A Fire Management Units – North Lands .....	51
2-2	Alternative A Fire Management Units – San Francisco and South Lands .....	53
2-3	Alternatives B and C Fire Management Units – North Lands.....	55
2-4	Alternatives B and C Fire Management Units – San Francisco and South Lands .....	57
2-5	Fire Management Project Areas – North Lands .....	59
2-6	Fire Management Project Areas – South Lands .....	61
3-1	Predominant Wind Patterns in Central California .....	137
3-2	California’s Multiyear Historical Dry Periods, 1850-Present .....	138
3-3	Fire History 1929-2004 – North Lands .....	153
3-4	Fire History 1929-2004 – South Lands .....	155
3-5	Watersheds – North Lands .....	159
3-6	Watersheds – South Lands .....	161
3-7	GGNRA Regional Climate – 1971-2000 Monthly Normals .....	179
3-8	Annual Average Precipitation in Inches .....	181
3-9	Fire Management Project Areas and Vegetation Types –North Lands .....	185
3-10	Fire Management Project Areas and Vegetation Types – South Lands .....	187
3-11	Areas of Sudden Oak Death Infestation from Best Available Field Information.....	197
3-12	Cultural Landscape Inventory – Marin County .....	219
3-13	Cultural Landscape Inventory – San Francisco .....	221
3-14	Cultural Landscape Inventory – San Mateo County.....	223

## Tables

ES-1	Summary of Alternatives by Annual Acres Treated and Treatment Type .....	ix
ES-2	Summary of Impacts.....	xiii
2-1	Summary of Alternatives by Annual Acres Treated and Treatment Type .....	46
2-2	Alternative A – Acreage by Fire Management Unit (FMU) and by County .....	49
2-3	Alternatives B and C – Acreage by Fire Management Unit (FMU) and by County .....	50
2-4	Summary of Alternatives by Fire Management Unit (FMU) and Treatment Type.....	110
2-5	Summary of Alternatives.....	111
2-6	Summary of Impacts.....	115
3-1	Source of Fire Starts/Size of Fire, 1992-2002 .....	141
3-2	San Francisco Bay Area Climatic Changes .....	143
3-3	Fire History of Coastal Marin and San Mateo Counties.....	150
3-4	Ambient Air Quality Standards and Bay Area Attainment Status .....	168
3-5	Health and Ecological Effects of the Federal Criteria Pollutants .....	171
3-6	GGNRA 1998 Prescribed Burning Emissions.....	174
3-7	Summary of Annual Emissions from Stationary and Area Sources.....	175
3-8	County Variation in Attainment Status* <sup>1</sup> Demonstrated by Monitoring Station Data, 2001– 2003 .....	177
3-9	Ozone Levels at Monitoring Stations in the Three Counties with GGNRA Lands, 2001-2003 ...	178
3-10	Acres Within Each General Vegetation Class By Project Area .....	189
3-11	Primary Constituents of Critical Habitat for California Red-Legged Frog .....	208
3-12	Selected Regional Economic Characteristics .....	238
3-13	GGNRA Visitation and Spending by Visitor Segments in 2001.....	239
3-14	Economic Impacts of Visitor Spending by Sectors .....	239
4-1	Vegetation Cover Types Used in Air Quality Emissions Analysis .....	251
4-2	Smoke Emission Factors by Fire Type.....	252
4-3a	Emission Factors for Equipment Use in Fire Management Activities .....	253
4-3b	<i>De Minimus</i> Levels for State Implementation Plan Conformance .....	255
4-4	Emissions from Pile Burning for Projects Funded by Wildland-Urban Interface Initiative under Alternative A .....	289
4-5	FOFEM Emissions Factors for Wildfire, Prescribed Burning, and Pile Burning.....	291
4-6	Projected Annual Emissions for Wildland Fire in GGNRA.....	292
4-7	Relative Importance of Muir Woods Prescribed Burning (PB) Under Each Alternative.....	293
4-8	Projected Annual Emissions from Prescribed Burning in Douglas-Fir Forested Understory at Muir Woods FMU .....	293
4-9	Projected Daily Emissions from Prescribed Burning in Douglas-Fir Forested Understory at Muir Woods FMU .....	294
4-10	Projected Annual and Daily Emissions for Alternative A.....	297
4-11	Alternative A Annual Cumulative Air Emissions .....	299
4-12	Alternative B Annual Cumulative Emissions.....	303
4-13	Projected Annual and Daily Emissions for Alternative B .....	304
4-14	Alternative C Annual Cumulative Emissions.....	307
4-15	Projected Annual and Daily Emissions for Alternative C.....	308
4-16	Potential Impacts on California Red-Legged Frog Habitats from Fire Management Activities.....	369
