I. NEPA Analysis and Approval Conditions

When implemented as detailed in the project description and following all Project Mitigations and Conditions listed below, this project meets the terms and conditions of a categorical exclusion to NEPA.

Applicable Categorical Exclusion:

Notwithstanding that this project entails minor facility upgrades, these upgrades are required to meet federal accessibility standards and their effects would be essentially the same as DO12 C (8) - *Replacement in kind of minor structures and facilities with little or no change in location, capacity, or appearance-for example, comfort stations, pit toilets, fences, kiosks, signs, and campfire circles.*

Project Mitigations and Conditions:

1. **While ensuring code compliance, a beveled surface rather than a dropoff & railing on the dock surface is preferred. (Business Revenue and Management)**

This project has been reviewed in accordance with the above criteria and it has been determined that the project will result in no or minimal environmental effects. Therefore, it is categorically excluded from further environmental review required under the National Environmental Policy Act. Additionally, the necessary compliance coordination has been completed with regard to the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act.
