

What is a Proposed Action?

The proposed action is the initial NPS proposal to address the purpose and need for taking action. It represents one alternative that will be considered during the planning process. In addition to the proposed action, the National Park Service will consider a no-action alternative and other alternatives formulated based

on public feedback provided during the scoping period, as appropriate. The proposed action does not reflect a final decision. The National Park Service will not select an alternative for implementation until after a final visitor use management plan is completed.
