Comment Form East Everglades Wilderness Study

National Park Service
U.S. Department of the Interior

Please provide us with your comments on the East Everglades Wilderness Study portion of the Everglades General Management Plan. If you need more space to respond, you may enclose additional pages.
In order for your comments to be fully considered, they must be received by September 1, 2006

What portions of the East Everglades Addition possess the wilderness characteristics described in the newsletter?

How should the NPS manage activities generally considered incompatible with wilderness but allowed by law and policy such as airboating and certain ecological restoration and resource management actions?

Do you have other comments or suggestions?
