PURPOSE OF AND NEED FOR THE PLAN

INTRODUCTION	3
Purpose of and Need for Action	4
Purpose of the Plan.....	4
Need for Action.....	5
Objectives in Taking Action	6
Presence of Exotic Plants	6
Cultural Resources	7
Operations to Control Exotic Plants.....	7
Visitors and the Public	7
Government Partners / Neighboring Communities	7
Restoration	8
Project Site Locations	8
BACKGROUND.....	11
Guiding Laws and Policies for all National Parks	11
NPS Organic Act of 1916.....	11
NPS Management Policies (2001)	12
Director’s Order 12: Conservation Planning, Environmental Impact Analysis, and Decision-making	16
Director’s Order 77-7 (in Progress).....	16
Guiding Laws, Policies, and Planning Documents for National Parks in Florida	17
Big Cypress National Preserve.....	18
Project Site Location	18
Park Enabling Legislation and Purpose.....	18
Park Significance.....	18
Planning Documents for Big Cypress National Preserve	19
Biscayne National Park	19
Project Site Location	19
Park Enabling Legislation and Purpose.....	20
Park Significance.....	20
Planning Documents for Biscayne National Park	20
Canaveral National Seashore	21
Project Site Location	21
Park Enabling Legislation and Purpose.....	21
Park Significance.....	21
Planning Documents for Canaveral National Seashore.....	22
Park Resource Management	22
Dry Tortugas National Park	23
Project Site Location	23
Park Enabling Legislation and Purpose.....	23
Park Significance.....	23
Planning Documents for Dry Tortugas National Park.....	24

Everglades National Park.....	24
Project Site Location	24
Park Enabling Legislation and Purpose.....	24
Park Significance.....	25
Planning Documents for Everglades National Park	25
Guiding Laws, Policies, and Planning Documents for Caribbean National Parks.....	26
Buck Island Reef National Monument.....	26
Project Site Location	26
Park Enabling Legislation and Purpose.....	26
Park Significance.....	26
Planning Documents for Buck Island Reef National Monument	27
Christiansted National Historic Site.....	27
Project Site Location	27
Park Enabling Legislation and Purpose.....	27
Park Significance.....	27
Planning Documents for Christiansted National Historic Site	28
Salt River Bay National Historic Park and Ecological Preserve	28
Project Site Location	28
Park Enabling Legislation and Purpose.....	28
Park Significance.....	28
Virgin Islands National Park.....	29
Project Site Location	29
Park Enabling Legislation and Purpose.....	29
Park Significance.....	29
Planning Documents for Virgin Islands National Park	29
Summary of Research on Exotic Plants.....	30
Exotic Plant Treatment Methods.....	31
Mechanical Treatment Methods	31
Prescribed Fire.....	31
Biological Treatment Methods.....	36
Chemical Treatment Methods	40
Exotic Plant Treatment Priorities	40
Australian Pine.....	41
Effects on Native Vegetation	42
Effects on Threatened and Endangered Species.....	42
Effects on Wildlife	42
Effects on Soils.....	43
Brazilian Pepper.....	43
Effects on Native Vegetation	43
Effects on Threatened and Endangered Species.....	43
Effects on Wetlands	44
Effects on Wildlife	44
Effects on Soils.....	45
Guinea Grass	45
Effects on Native Vegetation	45
Lather Leaf (<i>Colubrina asiatica</i>).....	46

Effects on Native Vegetation46
 Effects on Threatened and Endangered Species46
 Effects on Wildlife46
 Melaleuca47
 Effects on Native Vegetation47
 Effects on Threatened and Endangered Species48
 Effects on Water Quality and Hydrology48
 Effects on Wetlands48
 Effects on Wildlife48
 Effects on Soils.....48
 Old World Climbing Fern48
 Effects on Native Vegetation49
 Effects on Threatened and Endangered Species49
 Effects on Wetlands49
 Tan Tan50
 Effects on Native Vegetation50
 Current Restoration Efforts.....50
 Focus of Restoration Efforts50
 Approach to Restoration Efforts51
 Passive Restoration Approach.....51
 Active Restoration Approach52
 RELATED LAWS, POLICIES, PLANS, AND CONSTRAINTS54
 Related Federal Laws, Policies, Plans, and Constraints.....54
 Related Florida State Laws and Policies.....54
 Summary of State and Local Programs for the Management of Exotic Plants.....54
 SCOPING PROCESS AND PUBLIC PARTICIPATION55
 Issues and Impact Topics.....55
 General Issues56
 Issues Specific to Each Impact Topic.....59
 Native Plants / Vegetation Categories59
 Water Quality and Hydrology60
 Special Status Species61
 Wildlife and Wildlife Habitats61
 Essential Fish Habitat.....62
 Seagrasses63
 Wilderness.....64
 Soils.....64
 Air Quality65
 Soundscapes65
 Cultural Resources66
 Visitor Use and Experience.....67
 Public Health and Safety67
 Management and Operations.....68
 Issues Dismissed from Further Consideration68
 Urban Quality and Design of the Built Environment68
 Socioeconomics.....68
 Minority and Low-Income Populations (Environmental Justice)68
 Conflicts with Other Land Use Plans, Policies, or Controls68

Floodplains 69
 Prime and Unique Agricultural Lands..... 69
 Ecologically Critical Areas, Wild and Scenic Rivers, or Other Unique Natural Resources..... 69
 Indian Trust Resources..... 69
 Energy Requirements and Conservation Potential 70
 Natural or Depletable Resource Requirements and Conservation Potential 70

ALTERNATIVES

INTRODUCTION 73
 Overview of the Alternatives 74
 Review of Existing Data 74
 Alternative A — No Action: Continue Current Management 78
 General Concept 78
 Guidance for Setting Management Priorities 78
 Exotic Plants Treated 80
 Australian Pine 81
 Brazilian Pepper 81
 Guinea Grass 87
 Lather Leaf 87
 Melaleuca 87
 Old World Climbing Fern 87
 Tan Tan 88
 Lime Berry 88
 Genip 88
 Current Exotic Plant Treatment Methods 88
 Mechanical Treatment 89
 Biological Treatment 89
 Chemical Treatment 90
 Prescribed Fire 97
 Initial Treatment 97
 Maintaining Treated Sites (Re-Treatment) 98
 Culturally Significant Plants 101
 Current Mitigation 101
 Restoration 103
 Current Monitoring 103
 Current Education Program 104
 Cooperation With Other Agencies 104
 Current Compliance Determination 105
 Current Funding and Expenditures 105
 Cost of Implementation 107
 Alternative B — New Framework for Exotic Plant Management: Increased Planning,
 Monitoring, and Mitigation..... 110
 General Concept 110
 Guidance for Setting Management Priorities 110

Exotic Plants Treated.....112

Proposed Exotic Plant Treatment Methods.....112

 Treatment Method Decision Tool114

Rationale for Selecting Initial Treatment Methods.....116

 Basal Bark Leave in Place.....116

 Hack and Squirt, Frill and Girdle, and Cut-stump Treatment117

 Foliar Ground Application117

 Foliar Aerial Application118

 Biological Control.....119

 Hand-Pulling119

Treatment Methods in Threatened and Endangered Species Habitat.....119

 Cape Sable Seaside Sparrow119

 Red-Cockaded Woodpecker.....120

 Wood Stork120

 Eastern Indigo Snake.....120

 Florida Panther121

 American Crocodile121

 Everglade Snail Kite121

 St. Thomas Prickly Ash.....122

 St. Thomas Lid Flower.....122

 South Florida Pine Rocklands122

 Florida Scrub Jay.....122

 Schaus Swallowtail Butterfly123

Maintaining Treated Sites (Re-Treatment)123

Culturally Significant Plants.....125

Proposed Mitigation Measures125

Proposed Restoration Program128

 Desired Future Conditions128

Wilderness and Minimum Requirements Analysis (Minimum Tool).....130

Monitoring and Data Collection130

 Adaptive Management131

Proposed Education Program.....134

Collaboration and Partnership134

Implementation of Site-Specific Projects136

Determination of Subsequent Compliance138

Cost of Implementation140

Alternative C — New Framework for Exotic Plant Management: Increased Planning, Monitoring,
and Mitigation, with an Emphasis on Active Restoration of Native Plants (Preferred Alternative).....143

 General Concept143

 Guidance for Setting Management Priorities.....143

 Exotic Plants Treated.....143

 Proposed Exotic Plant Treatment Methods.....143

 Treatment Method Decision Tool144

 Maintaining Treated Sites (Re-Treatment)145

Culturally Significant Plants	145
Proposed Restoration Program	145
Active Restoration Methods	148
Amendments	148
Seeding	148
Planting	149
Physical Site Alteration	150

Proposed Mitigation Measures	151
Wilderness and Minimum Requirements Analysis (Minimum Tool).....	151
Proposed Monitoring and Data Collection.....	151
Adaptive Management	151
Proposed Education Program.....	156
Collaboration and Partnership	156
Implementation of Site-Specific Projects	156
Determination of Subsequent Compliance	157
Cost of Implementation	158
How Alternatives Meet Objectives	161
Presence of Exotic Plants.....	161
Cultural Resources	161
Operations to Control Exotic Plants	161
Visitors and the Public.....	162
Government Partners / Neighboring Communities.....	162
Restoration.....	162
Summary.....	162
ALTERNATIVES ELIMINATED FROM FURTHER CONSIDERATION	162
CONSISTENCY WITH SECTIONS 101(B) AND 102(1) OF THE NATIONAL ENVIRONMENTAL POLICY ACT	164
ENVIRONMENTALLY PREFERRED ALTERNATIVE	168

AFFECTED ENVIRONMENT

INTRODUCTION	199
Native Plants / Vegetation Categories	200
Biodiversity	200
Shrubland— <i>Big Cypress National Preserve, Canaveral National Seashore, Buck Island Reef National Monument, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park</i>	202
Beach / Dune— <i>Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, Everglades National Park, Buck Island Reef National Monument, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park</i>	202

Grassland / Coastal Strand—*Big Cypress National Preserve, Canaveral National Seashore, Everglades National Park, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park*202

Upland Dry / Mesic Forest—*Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, Everglades National Park, Buck Island Reef National Monument, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park*203

Agriculture / Disturbed Land / Developed Area—*Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, Dry Tortugas National Park, Everglades National Park, Buck Island Reef National Monument, Christiansted National Historic Site, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park*205

Mangrove—*Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, Dry Tortugas National Park, Everglades National Park, Buck Island Reef National Monument, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park*205

Coastal Marsh—*Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, Dry Tortugas National Park, Everglades National Park, Buck Island Reef National Monument, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park*206

Sawgrass Marsh / Wet Prairie / Freshwater Marsh—*Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, and Everglades National Park*207

Wetland Forest—*Big Cypress National Preserve, Everglades National Park, Biscayne National Park, Canaveral National Seashore, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park*207

SOILS209

 Big Cypress National Preserve and Everglades National Park209

 Biscayne National Park, Canaveral National Seashore, and Dry Tortugas National Park.....210

 Buck Island Reef National Monument, Christiansted National Historic Site, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park.....210

WATER QUALITY AND HYDROLOGY212

 Big Cypress National Preserve and Everglades National Park212

 Freshwater Resources.....212

SPECIAL STATUS SPECIES218

 Federally Listed Species218

Plants	218
Blodgett’s Silverbush— <i>Everglades National Park</i>	218
Cape Sable Thoroughwort— <i>Everglades National Park</i>	222
Crenulated Lead Plant— <i>Everglades National Park</i>	222
Everglades Bully— <i>Big Cypress National Preserve and Everglades National Park</i>	222
Florida Pineland Grass— <i>Big Cypress National Preserve and Everglades National Park</i>	222
Florida Prairieclover— <i>Big Cypress National Preserve and Everglades National Park</i>	223
Florida Semaphore Cactus— <i>Biscayne National Park</i>	223
Garber’s Spurge— <i>Biscayne National Park and Everglades National Park</i>	223
Pineland Sandmat— <i>Everglades National Park</i>	223
Small’s Milkpea— <i>Biscayne National Park and Everglades National Park</i>	224
St. Thomas Prickly Ash— <i>Virgin Islands National Park</i>	224
St. Thomas Lidflower— <i>Virgin Islands National Park</i>	224
Animals.....	225
Mammals.....	225
Florida Panther— <i>Big Cypress National Park and Everglades National Park</i>	225
Southeastern Beach Mouse— <i>Canaveral National Seashore</i>	225
West Indian Manatee— <i>Biscayne National Park, Canaveral National Seashore,</i> <i>Dry Tortugas National Park, and Everglades National Park</i>	226
Reptiles.....	226
American Crocodile— <i>Biscayne National Park and Everglades National Park</i>	226
Atlantic Salt Marsh Snake— <i>Canaveral National Seashore</i>	226
Eastern Indigo Snake— <i>Big Cypress National Preserve, Biscayne National Park,</i> <i>Canaveral National Seashore, and Everglades National Park</i>	227
Green Sea Turtle— <i>Biscayne National Park, Canaveral National Seashore, Dry</i> <i>Tortugas National Park, Everglades National Park, Buck Island Reef National</i> <i>Monument, Salt River Bay National Historic Park and Ecological Preserve, and</i> <i>Virgin Islands National Park</i>	227
Hawksbill Sea Turtle— <i>Biscayne National Park, Canaveral National Seashore, Dry</i> <i>Tortugas National Park, Everglades National Park, Buck Island Reef National</i> <i>Monument, Salt River Bay National Historic Park and Ecological Preserve, and</i> <i>Virgin Islands National Park</i>	228
Kemp’s Ridley Sea Turtle— <i>Biscayne National Park, Canaveral National Seashore, Dry</i> <i>Tortugas National Park, and Everglades National Park</i>	228
Leatherback Sea Turtle— <i>Biscayne National Park, Canaveral National Seashore,</i> <i>Dry Tortugas National Park, Everglades National Park, Buck Island Reef National</i> <i>Monument, Salt River Bay National Historic Park and Ecological Preserve, and</i> <i>Virgin Islands National Park</i>	228
Loggerhead Sea Turtle— <i>Biscayne National Park, Canaveral National Seashore,</i> <i>Dry Tortugas National Park, and Everglades National Park</i>	229
Birds.....	229
Audubon’s Crested Caracara— <i>Everglades National Park</i>	229
Bald Eagle— <i>Big Cypress National Preserve, Biscayne National Park, Canaveral</i> <i>National Seashore, Dry Tortugas National Park, and Everglades National Park</i>	230
Brown Pelican— <i>Buck Island Reef National Monument and Virgin Islands National Park</i>	230
Cape Sable Seaside Sparrow— <i>Big Cypress National Preserve and Everglades</i> <i>National Park</i>	230
Everglade Snail Kite— <i>Big Cypress National Preserve and Everglades National Park</i>	231
Florida Scrub Jay— <i>Canaveral National Seashore</i>	231
Piping Plover— <i>Biscayne National Park, Everglades National Park and Virgin</i> <i>Islands National Park</i>	232
Red-cockaded Woodpecker— <i>Big Cypress National Preserve</i>	232
Roseate Tern— <i>Dry Tortugas National Park, Everglades National Park, and Virgin</i> <i>Islands National Park</i>	232

Wood Stork—*Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, and Everglades National Park*.....233

Invertebrates.....233

 Miami Blue Butterfly—*Biscayne National Park and Everglades National Park*.....233

 Schaus Swallowtail Butterfly—*Biscayne National Park*.....234

 Stock Island Tree Snail—*Big Cypress National Preserve and Everglades National Park*.....234

State and Territory Listed Species235

WILDLIFE AND WILDLIFE HABITATS236

 Sawgrass Marsh / Wet Prairie / Freshwater Marsh—*Big Cypress National Preserve, Everglades National Park, and Canaveral National Seashore*236

 Mammals.....236

 Amphibians and Reptiles236

 Birds.....237

 Fish237

 Invertebrates.....238

Impacts of the Alternatives on Soils	362
Alternative A — No Action: Continue Current Management.....	362
Big Cypress National Preserve and Everglades National Park.....	362
Biscayne National Park, Canaveral National Seashore, and Dry Tortugas National Park	365
Buck Island Reef National Monument, Christiansted National Historic Site, Salt River	
Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park...	366
Cumulative Impacts.....	367
Conclusion.....	367
Alternative B — New Framework for Exotic Plant Management: Increased Planning,	
Monitoring, and Mitigation.....	368
Big Cypress National Preserve and Everglades National Park.....	368
Biscayne National Park, Canaveral National Seashore, and Dry Tortugas National Park	369
Buck Island Reef National Monument, Christiansted National Historic Site, Salt River	
Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park...	370
Cumulative Impacts.....	370
Conclusion.....	371
Alternative C — New Framework for Exotic Plant Management: Increased Planning,	
Monitoring, and Mitigation, with an Emphasis on Active Restoration of Native Plants	371
Big Cypress National Preserve and Everglades National Park.....	371
Biscayne National Park, Canaveral National Seashore, and Dry Tortugas National Park	372
Buck Island Reef National Monument, Christiansted National Historic Site, Salt River	
Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park...	373
