### B. PROJECT DESCRIPTION AND BACKGROUND

This project will remove an abandoned hydraulic lift discovered at the Curry Village Raft Stand walkway.

Specifications for project execution will be prepared and submitted to the NPS for review. Precautions will be taken to prevent hazardous materials from being released to soil and groundwater resources. Soil samples will be taken as needed to assess the need for any soil or groundwater clean-up in accordance with the State of California regulations.

Should soil and groundwater contamination be present, the project will include clean-up to Federal and State of California standards.

### Applicable Categorical Exclusion:

This project is removing an underground utility (abandoned hydraulic lift) from a disturbed area under a paved parking lot and would have essentially the same potential impacts as DO12 C (16) - *Installation of underground utilities in areas showing clear evidence of recent human disturbance or areas within an existing road prism or within an existing overhead utility right-of-way.*

### Project Mitigations and Conditions:

1. Provide a project safety program/ job hazards Analysis to the park Safety Office (379-1079) for review and approval before beginning any work on this project. (Safety Office)
2. Ensure that equipment and material brought into the park is free of material that could introduce or spread noxious weeds and non-native invasive plants or animals. Inform all staff working on the project of best management practices for preventing the introduction and spread of non-native, invasive species in Division 1 specifications, Section 1355. (Environmental Planning & Compliance Office)
3. Provide a copy of the project specifications, when available, to the park Archeologist (Laura Kirn, 209-379-1314) for review; archeological monitoring may be required. (Resources Management and Science)
4. Provide a copy of the project specifications, when available, to the park Native American Liaison (Jeannette Simons, 209-379-1372) for review; Native American monitoring may be required. (Environmental Planning and Compliance Office)

*This project has been reviewed in accordance with the above criteria and it has been determined that the project will result in no or minimal environmental effects. Therefore, it is categorically excluded from further environmental review required under the National Environmental Policy Act. Additionally, the necessary compliance coordination has been completed with regard to the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act.*
