

United States Department of the Interior

NATIONAL PARK SERVICE Yosemite National Park P.O. Box 577 Yosemite, California 95389

Memorandum

To: Glen Rothell, Project Manager, Project Management, Yosemite National Park

From: Superintendent, Yosemite National Park

Subject: Notice to Proceed, 2007-051 El Portal Road Geotechnical Borings (18178)

Your proposed project is an action that has been determined to result in no measurable environmental effects. It is therefore categorically excluded from further National Environmental Policy Act analysis under Categorical Exclusion: DO12 3.4 *C* (11) - Installation of wells, comfort stations, and pit or vault toilets in areas of existing use and in developed areas.

Necessary compliance coordination has been completed regarding the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act, as applicable. This project clearance is valid providing that you adhere to any conditions that may be stipulated in the enclosed *Categorical Exclusion Form* and associated documents when implementing this project.

A. PROJECT INFORMATION

Title: El Portal Road Geotechnical Borings

Location: Yosemite Valley, Mariposa County, California

Project Manager: Glen Rothell, Project Management, Yosemite National Park

B. COMPLIANCE DETERMINATION

This project is an action that has been determined to result in no measurable environmental effects. It is therefore categorically excluded from further National Environmental Policy Act analysis under Categorical Exclusion: DO12 3.4 *C* (11) - Installation of wells, comfort stations, and pit or vault toilets in areas of existing use and in developed areas.

Necessary compliance coordination has been completed regarding the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act, as applicable. Environmental impacts will be negligible or less when the project is implemented with the conditions stipulated under **Project Mitigations and Conditions** in **Section I** at the end of the attached *Environmental Screening Form*.

☐ Preservation Assessment Form (YOSE-XXX)
☐ Wilderness Minimum Requirement Analysis
☐ Wild and Scenic River Section 7 Determination
☐ Other:

C. DECISION

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances or conditions in DO12 3.5 or 3.6 apply and the action is fully described in DO12, Section 3.4.

Environmental Screening Form (Version: NOV06)

Compliance Tracking Number: **007-051** PEPC Project Number: 18178

A. PROJECT INFORMATION

Title: El Portal Road Geotechnical Borings

Location: Yosemite Valley, Mariposa County, California

Project Manager: Glen Rothell, Project Management, Yosemite National Park

B. PROJECT DESCRIPTION AND BACKGROUND

This project proposes to drill up to thirty (30) geotechnical borings in support of design development for the El Portal Road Reconstruction Project in the location known as "The Narrows." The purpose of these borings will be to determine the subsurface soil and bedrock depth and composition in the previously disturbed portions of the roadway where it is being undermined by the Merced River. A combination of engineering solutions will be applied to reconstruct the road within the project area, which necessitates the proposed number of borings in different locations. Borings will be 4 inches in diameter, approximately 25 feet deep, and located within the shoulder and/or slope of the roadway nearest the Merced River in order to determine how deep footings for retaining walls (used to support the reconstructed roadway) will need to be located.

One lane will be closed during drilling operations with no more than 15 minute delays, due to use of a truck-mounted drill rig. Drilling fluids will be contained and transported off site. Night work may occur (which is preferred) and no work will occur on weekends or any holidays. Borings will be backfilled with gravel and capped with asphalt. Total estimated time for geotechnical work is one week. Consultation with cultural resources staff indicates there is no archeological, traditional gathering, or cultural landscape impacts from these activities.

Table B1 – Background Information

		Yes	No	N/A	Explanation/Notes
1.	Did NPS staff conduct a site visit? If yes, list attendees. If no, explain.	\boxtimes			Project Management staff.
2a.	Is the project providing compliance for an action associated with but not covered by an approved plan? (Identify the plan and provide a section or page citation.); OR				
2b.	Is the project in an approved plan? (Identify the plan and provide a section or page citation.				
2c.	Is the project consistent with that plan?			\boxtimes	
2d.	Is the Plan's CE, FONSI, or ROD current?			\boxtimes	
3a.	Are there any interested or affected parties?		\boxtimes		
3b.	Has a diligent effort been made to communicate with them?				
4a.	Are there any affected agencies or tribes?		\boxtimes		
4b.	Has consultation been completed?

C. ASSESSMENT OF POTENTIAL RESOURCE EFFECTS

	e any impacts possible on the following ources?	Yes	No	N/A	Data Needed to Determine/Notes				
1.	Geologic resources: soils, bedrock, streambeds, etc	\boxtimes			The geotechnical borings consist of 4" diameter and up to 30' deep holes.				
2.	From geohazards				and up to 50 deep notes.				
3.	Air quality	\boxtimes			Temporary air emissions from the boring rig and air compressor equipment during drilling.				
4.	Soundscapes	\boxtimes			Temporary noises during drilling.				
5.	Water quality or quantity	\boxtimes			Negligible: water needed for boring activity will be drawn from the Merced River; see Condition 1 below.				
6.	Stream flow characteristics		\boxtimes						
7.	Marine or estuarine resources			\boxtimes					
8.	Floodplains or wetlands		\boxtimes						
9.	Land use, including occupancy, income, values, ownership, type of use		\boxtimes						
10.	Rare or unusual vegetation – old growth timber, riparian, alpine		\boxtimes						
11.	Species of special concern (plant or animal; state or federal listed or proposed for listing) or their habitat								
12.	Unique ecosystems, biosphere reserves, World Heritage Sites				Yosemite National Park is a World Heritage site; no historic properties would be adversely affected by implementing this project.				
	Unique or important wildlife or wildlife habitat		\boxtimes						
	Unique or important fish or fish habitat		\boxtimes						
15.	Introduce or promote non-native species (plant or animal)	\boxtimes			Negligible: See Section D. Condition 2, Mandatory Criteria, below.				
16.	Recreation resources, including supply, demand, visitation, activities, etc.		\boxtimes						
17.	Visitor experience, aesthetic resources	\boxtimes			Negligible: temporary traffic control for oneway traffic during construction; see Condition 2, below.				
18.	Cultural resources including cultural landscapes, ethnographic resources		\boxtimes						
19.	Socioeconomics, including employment, occupation, income changes, tax base, infrastructure		\boxtimes						
20.	Minority and low income populations, ethnography, size, migration patterns, etc.		\boxtimes						
21.	Energy resources		\boxtimes						
22.	Other agency or tribal land use plans or policies		\boxtimes						
23.	Resource, including energy, conservation potential		\boxtimes						
24.	Urban quality, gateway communities, etc.		\boxtimes						
25.	Long-term management of resources or land/resource productivity	\boxtimes			The boring action assists in determining the best action to maintain this historic resource.				
26	Other important environment resources (e.g. geothermal, paleontological resources)?		\boxtimes						
1.	Comments, Mitigations and Conditions:								

2. Develop a Traffic Management Plan to mitigate traffic congestion and ensure proper traffic flow during traffic delays associated with one-lane closures during drilling activities.

Compliance Tracking Number: 2007-051

D. MANDATORY CRITERIA

If	implemented, would the proposed action:	Yes	No	N/A	Data Needed to Determine/Notes
1.	Have material adverse effects on public health or safety?		\boxtimes		Mitigated; see Condition 1, below.
2.	Have adverse effects on such unique characteristics as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands; floodplains; or ecologically significant or critical areas, including those listed on the National Register of Natural Landmarks?				
3.			\boxtimes		
4.	Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks?		\boxtimes		
5.	Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?		\boxtimes		
6.	Be directly related to other actions with individually insignificant, but cumulatively significant, environmental effects?		\boxtimes		
7.	Have adverse effects on properties listed or eligible for listing on the National Register of Historic Places?		\boxtimes		
8.	Have adverse effects on species listed or proposed to be listed on the List of Endangered or Threatened Species or have adverse effects on designated Critical Habitat for these species?				
	Require compliance with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act?		\boxtimes		
10.	Threaten to violate a federal, state, local, or tribal law or requirement imposed for the protection of the environment?				
11.	Involve unresolved conflicts concerning alternative uses of available resources (NEPA sec. 102(2)(E)?		\boxtimes		
12.	Have a disproportionate, significant adverse effect on low-income or minority populations (EO 12898)?		\boxtimes		
13.	Restrict access to and ceremonial use of Indian sacred sites by Indian religious practitioners or adversely affect the physical integrity of such sacred sites (EO 130007)?		\boxtimes		
14.	Contribute to the introduction, continued existence, or spread of federally listed noxious weeds (Federal Noxious Weed Control Act)?				Mitigated: see Condition 2, below.
15.	Contribute to the introduction, continued existence, or spread of non-native invasive species or actions that may promote the introduction, growth or expansion of the range of non-native invasive species (EO 13112)?		\boxtimes		Mitigated: see Condition 2, below.
16.	Require a permit from a federal, state, or local agency to proceed, unless the agency from which the permit is required agrees that a CE is appropriate?		\boxtimes		
17.	Have the potential for significant impact as indicated by a federal, state, or local agency or Indian tribe?				
18.	Have the potential to be controversial because of disagreement over possible environmental effects?				
	Have the potential to violate the NPS Organic Act by impairing park resources or values?				

- 1. Develop and submit an Safety Plan to the park Safety Office (379-1079) for review and approval before proceeding with
- Ensure that all equipment and materials brought into the park are free of non-native, invasive plants and animals, and noxious weeds. All staff working on site shall be informed of and follow best management practices for preventing the introduction and spread of non-native, invasive species as described in Division 1 Specifications, Section 1355.

Compliance Tracking Number: 2007-051

I. NEPA Analysis and Approval Conditions

When implemented as detailed in the project description and following all Project Mitigations and Conditions listed below, this project meets the terms and conditions of a categorical exclusion to NEPA.

Applicable Categorical Exclusion:

This action would have the same impacts as DO12 3.4 *C* (11) - *Installation of wells, comfort stations, and pit or vault toilets in areas of existing use and in developed areas.*

Project Mitigations and Conditions:

- 1. Install a filtration system to prevent drilling fluids from entering the Merced River. (Project Management and Resources Management and Science)
- 2. Develop a Traffic Management Plan to mitigate traffic congestion and ensure proper flow during traffic delays associated with one-lane closures during drilling activities. (Project Management)
- 3. Ensure that all equipment and materials brought into the park are free of non-native, invasive plants and animals, and noxious weeds. All staff working on site shall be informed of and follow best management practices for preventing the introduction and spread of non-native, invasive species as described in Division 1 Specifications, Section 1355. (Environmental Planning and Compliance)
- 4. Develop and submit an Safety Plan to the park Safety Office (379-1079) for review and approval before proceeding with this work. (Safety Office)

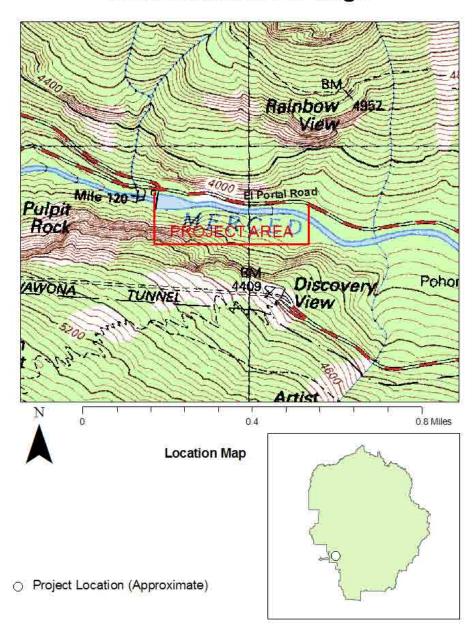

This project has been reviewed in accordance with the above criteria and it has been determined that the project will result in no or minimal environmental effects. Therefore, it is categorically excluded from further environmental review required under the National Environmental Policy Act. Additionally, the necessary compliance coordination has been completed with regard to the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act.

El Portal Road Reconstruction Geotechnical Borings

Preservation Assessment Form (YOSE XXX)

(Version: AUG06)

Compliance Tracking Number: 2007-051

PEPC Project Number: 18178

A. DESCRIPTION OF UNDERTAKING

Title: El Portal Road Geotechnical Borings

Project Location and Area of Potential Effect:

Segment D El Portal Road, Mariposa County, California

Existing Road Prizm selected sites 4 inch diameter 30 foot deep

Project Manager: Glen Rothell, Project Management, Yosemite National Park

Project Description: Geotechnical borings are routinely used to determine subsurface soil and groundwater conditions. These boreholes are approximately 4 inches in diameter and will be drilled with either a truck-mounted or track mounted drill rig. Samples of soil will be extracted from the ground beneath the road surface or from the slopes in the immediate vicinity of the roadway. Soil samples will either be tested in the field or transported to a laboratory for further testing (type. strength, and compressibility). Upon completion, boreholes will be backfilled to blend into the concrete surface. This technical investigation will support design and compliance for the El Portal Road Reconstruction project.

D. RESOURCES MANAGEMENT AND SCIENCE DIVISION AND PARK 106 COORDINATOR REVIEWS AND RECOMMENDATIONS

1. Review by specialists: The appropriate subject-matter experts have reviewed the project and entered their comments and recommendations in Section C, above.

The foregoing assessment is adequate: the proposed action is consistent with all applicable NPS management policies, standards, guidelines, or US DOI standards and guidelines, Rehabilitation of Historic Buildings, or others, and incorporates measures to avoid Adverse Effects.

Re	viewed and Accepted by:
Sig	nature: 16-62-07
	Chief of Resources Management & Science Division
2.	Compliance Requirements: The following is the park's assessment of Section 106 process needs and requirements for this undertaking.
	☐ Standard 36 CFR Part 800 Consultation
	Consultation under 36 CFR is needed subsequent to the preparation of this form and its review by appropriate historic resource management advisors.
	☐ Undertaking related to the 1995 NPS Programmatic Agreement
	The above action meets all conditions for a programmatic exclusion under Stipulation IV. A of the 1995 NPS programmatic agreement, and is listed in Stipulation IV. B, as:
	<choose of="" type="" undertaking=""></choose>
	☐ Plan-Related Undertaking
	Consultation and review of the proposed undertaking were completed in the context of a plan review process, in accordance with the 1995 NPS programmatic agreement and 36 CFR Part 800.
	☐ Undertaking Related to Another Agreement
	The proposed undertaking is covered for Section 106 purposes under a document such as a statewide agreement written in accordance with 37 CFR Part 800.7 or counterpart regulations.
	Agreement: <enter agreement="" information=""></enter>
	☐ Flood-Recovery Related Undertaking
	The proposed undertaking is covered for Section 106 purposes under the letter-based agreement between the NPS, the State Historic Preservation Office, and the Council for Historic Preservation for "Highwater 97" flood repair and recovery
	☑ Undertaking Related to the 1999 Yosemite Programmatic Agreement
	The proposed undertaking is covered for Section 106 purposes under the park's 1999 programmatic agreement for planning, design, construction, operations and maintenance; the undertaking meets

the stipulations identified in Article VII.C.2.

3. Assessment of Effects: No Effect

4. Project Stipulations and Conditions

Following are listed any stipulations or conditions necessary to ensure that the assessment of effects above is consistent with 36 CFR 800 criteria of effect or to mitigate potential adverse effects:

In the unlikely event that cultural resources are exposed during boring activity, stop activity in the immediate vicinity, protect the exposure, and immediately call the Park Archeologist at 379-1314.

Recommended by Park Section 106 Coordinator:

Name:

Jeannette Simons

Title:

Historic Preservation Officer

Signature:

Date: 4-17-86

E. SUPERINTENDENT'S APPROVAL

The proposed work conforms to NPS Management Policies and NPS-28 and I approve the recommendations, stipulations, and conditions noted in Section B of this form.

Michael J. Tollefson

Signature of Superintendent:

Date: 4/20/07
