

Alternative 1

NO ACTION

The short connector trail between Lincoln Trailhead and Collie Ridge Trail would remain as is.

Presently, this trail is too narrow to accommodate the level of traffic it now receives. This connector trail is deeply rutted and eroded, and is in need of improvement.

Existing trailhead and parking facilities at the Good Spring United Baptist Church would remain as is, with no alterations.

Trail access would continue from the church yard. Good Spring Trailhead currently has parking for 6 passenger vehicles. This trailhead does not have parking for vehicles with horse trailers.

No connector trail in the Maple Springs Complex would be constructed.

Horse use would continue on a portion of the Maple Springs Loop Road and the Good Spring Church Road.

No additional administrative roads, such as the White Oak Trail, would be authorized for bicycle use.

No improvements would be made to existing trailhead/parking area at Lincoln, First Creek, or Temple Hill Trailheads.

Each trailhead presently has only 10 parking stalls both for horse trailers and passenger vehicles.

Small parking areas would not be constructed at three locations which lack parking: the start of Crystal Cave Road, the start of the Great Onyx Road, and at the White Oak Trailhead.

Visitor uses of Sal Hollow Trail, Buffalo Trail, and portions of Turnhole Bend Trail would remain as they are currently authorized.

Sal Hollow Trail would be open only to hikers and bicycles year-round. Horse use would continue to be disallowed on Sal Hollow Trail, but would continue to be allowed on Buffalo Trail and Turnhole Bend Trail.

Existing parking and trailhead facilities at Maple Springs Trailhead would remain as is, with no alterations.

The trailhead is currently limited to parking for six passenger vehicles and eight horse trailers.

The Park will not study other trail proposals, such as the extension of the Mammoth Cave Railroad Bike and Hike Trail to adjacent communities.

All other visitor uses of the park trail system would remain the same – as they are currently authorized.
