Dear Interested Citizen, Agency or Organization:

Enclosed for your review is an environmental assessment (EA) in which the National Park Service is considering the rehabilitation of the Snipe Lake Cabin located in Lake Clark National Preserve. The Snipe Lake cabin is needed for administrative purposes to support hunting patrols and resource monitoring activities in the area, and to maintain the historic integrity of the cabin and the themes of big game hunting and trapping in the Lake Clark region. The deteriorated condition of the cabin roof and some wall logs requires repair to prevent complete decay of the structure.

The EA was completed in accordance with the National Environmental Policy Act of 1969, and the regulations of the Council on Environmental Quality (40 CFR 1508.9).

The comment period for the EA will extend 30 days, beginning February 1 and ending March 3, 2008. Please send written comments to:

Attn: Glen Yankus
National Park Service
240 West 5th Avenue
Anchorage, Alaska 99501
Email: glen_yankus@nps.gov

Those of you with Internet access can post your comments using the Planning, Environment, and Public Comment (PEPC) program located on the new NPS public comment website at: <http://parkplanning.nps.gov>.

If you have any questions about the EA or need additional copies, please call Glen Yankus at (907) 644-3535.

Thank you for your interest in this project.

Sincerely,

Joel L. Hard
Superintendent
