

United States Department of the Interior

NATIONAL PARK SERVICE Yosemite National Park P.O. Box 577 Yosemite, California 95389

Memorandum

To: Maurice West, Project Manager, Project Management, Yosemite National Park

Chris Wicks, Project Manager, DNC Parks and Resorts at Yosemite

From: Superintendent, Yosemite National Park

Subject: Notice to Proceed, 2007-073 Yosemite Lodge Replace Covered Walkway Roofs

Your proposed project is an action that has been determined to result in no measurable environmental effects. It is therefore categorically excluded from further National Environmental Policy Act analysis under Categorical Exclusion: DO12 3.4 C(8) - Replacement in kind of minor structures and facilities with little or no change in location, capacity, or appearance--for example, comfort stations, pit toilets, fences, kiosks, signs, and campfire circles.

Necessary compliance coordination has been completed regarding the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act, as applicable. This project clearance is valid providing that you adhere to any conditions that may be stipulated in the enclosed *Categorical Exclusion Form* and associated documents when implementing this project.

A. PROJECT INFORMATION

Title: Yosemite Lodge Replace Covered Walkway Roofs **Location:** Yosemite Valley, Mariposa County, California

Project Manager: Maurice West, Project Management, Yosemite National Park

Project Manager: Chris Wicks, DNC Parks and Resorts at Yosemite

B. COMPLIANCE DETERMINATION

This project is an action that has been determined to result in no measurable environmental effects. It is therefore categorically excluded from further National Environmental Policy Act (NEPA) analysis under Categorical Exclusion: DO12 3.4 C(8) - Replacement in kind of minor structures and facilities with little or no change in location, capacity, or appearance--for example, comfort stations, pit toilets, fences, kiosks, signs, and campfire circles.

Necessary compliance coordination has been completed regarding the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act, as applicable. Environmental impacts will be negligible or less when the project is implemented with the conditions stipulated under **Project Mitigations and Conditions** in **Section I** at the end of the attached *Environmental Screening Form*.

Additional supporting information for this determination and the stipulated conditions can be found in the following attachments (when checked):

C. DECISION

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances or conditions in DO12 3.5 or 3.6 apply and the action is fully described in DO12, Section 3.4.

A. PROJECT INFORMATION

Title: Yosemite Lodge Replace Covered Walkway Roofs **Location:** Yosemite Valley, Mariposa County, California

Project Manager: Maurice West, Project Management, Yosemite National Park

Project Manager: Chris Wicks, DNC Parks and Resorts at Yosemite

B. PROJECT DESCRIPTION AND BACKGROUND

The purpose of this project is to replace the Yosemite Lodge covered walkway roofs. The current roof system has failed and allowed water to infiltrate the wood structure, resulting in rot and decay. This work is necessary to preserve and repair the wood portions to provide the guests with the covered walkways that have been a major component of the Yosemite Lodge experience. In the winter, the leaking water creates icy walkways causing a safety issue for guests and employees. Utility lines are exposed to weather causing premature deterioration, and are visible to guests in an unsightly manner. The entire roof system has outlived its useful life. The goal of this project is to provide safe, sustainable and waterproof covered walkways at Yosemite Lodge, without the need for further component renewal until at least 2017. A section of the tour bus unloading area located across Yosemite Lodge Drive will be used for a materials staging area.

General scope of work to include.

I. Design

- 1. Investigate current conditions to determine amount of repairs.
- 2. Redesign flat roof and gutter to roof interface if necessary.
- 3. Provide design alternatives for routing utilities currently suspended and enclosed in the wood structural frame.
- 4. Provide Specifications for products and performance with special consideration given to extended design life, and reduced maintenance and operation costs.

II. Construction

- 1. Remove all existing roof coverings and dispose of debris.
- 2. Remove all metal flashings completely and dispose of debris.
- 3. Replace rotted wood portions with specified materials.
- 4. Install all cabling inside of chase ways so no wires will run along the top of the roof structure. Provide a jack for the wires to exit from at each end of chase way.
- 5. Install copper drip edge to match existing copper drip edge at restaurant.
- 6. Repair wood siding above roof structures where rodents have chewed holes.
- 7. Install base sheets and roofing per manufacturer's requirements.
- 8. Pressure wash all exposed wood and steel members to remove cobwebs, dust, and scale.
- 9. Paint all wood and steel portions of structure: 1 coat prime, 2 coats color. Paint color provided by Delaware North Corporation Kelly Moore Brand required.

Compliance Tracking Number: 2007-073

C. ASSESSMENT OF POTENTIAL RESOURCE EFFECTS

	e any impacts possible on the following ources?	Yes	No	N/A	Data Needed to Determine/Notes
1.	Geologic resources: soils, bedrock, streambeds, etc	П	\boxtimes	П	
2.	From geohazards		\boxtimes		
3.	Air quality	\boxtimes			Negligible: temporary air emissions during walkway replacement.
4.	Soundscapes	\boxtimes			Negligible: temporary construction noises during walkway replacement.
5.	Water quality or quantity		\boxtimes		
6.	Stream flow characteristics		\boxtimes		
7.	Marine or estuarine resources			\boxtimes	
8.	Floodplains or wetlands		\boxtimes		
9.	Land use, including occupancy, income, values, ownership, type of use		\boxtimes		
10.	Rare or unusual vegetation – old growth timber, riparian, alpine		\boxtimes		
11.	Species of special concern (plant or animal; state or federal listed or proposed for listing) or their habitat		\boxtimes		
12.	Unique ecosystems, biosphere reserves, World Heritage Sites				Yosemite National Park is a World Heritage site; no historic properties would be adversely affected by implementing this project; see Section F, National Historic Preservation Act Checklist, below.
13.	Unique or important wildlife or wildlife habitat		\boxtimes		
14.	Unique or important fish or fish habitat		\boxtimes		
15.	Introduce or promote non-native species (plant or animal)	\boxtimes			See Section D. Condition 2, Mandatory Criteria, below.
16.	Recreation resources, including supply, demand, visitation, activities, etc.				
17.	Visitor experience, aesthetic resources				Visitor experience will be enhanced by reconstructing the covered walkways.
18.	Cultural resources including cultural landscapes, ethnographic resources				No historic properties would be adversely affected by implementing this project; see Section F, National Historic Preservation Act Checklist, below.
19.	Socioeconomics, including employment, occupation, income changes, tax base, infrastructure		\boxtimes		
20.	Minority and low income populations, ethnography, size, migration patterns, etc.		\boxtimes		
21.	Energy resources		\boxtimes		
22.	Other agency or tribal land use plans or policies		\boxtimes		
23.	Resource, including energy, conservation potential		\boxtimes		
24.	Urban quality, gateway communities, etc.		\boxtimes		
25.	Long-term management of resources or land/resource productivity		\boxtimes		
26	Other important environment resources (e.g. geothermal, paleontological resources)?				
	nments, Mitigations and Conditions:				
1.	None

D. MANDATORY CRITERIA

If	implemented, would the proposed action:	Yes	No	N/A	Data Needed to Determine/Notes
1.	Have material adverse effects on public health or safety?		\boxtimes		Mitigated: see condition 1, below.
2.	Have adverse effects on such unique characteristics as historic or cultural resources; park, recreation, or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands; floodplains; or ecologically significant or critical areas, including those listed on the National Register of Natural Landmarks?				Mitigated: see Section F, Historic Preservation Act Checklist, below.
3.	Have highly controversial environmental effects?		\boxtimes		
4.	Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks?		\boxtimes		
5.	Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects?		\boxtimes		
6.	Be directly related to other actions with individually insignificant, but cumulatively significant, environmental effects?		\boxtimes		
7.	Have adverse effects on properties listed or eligible for listing on the National Register of Historic Places?				
8.	Have adverse effects on species listed or proposed to be listed on the List of Endangered or Threatened Species or have adverse effects on designated Critical Habitat for these species?				
9.	Require compliance with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act?		\boxtimes		
10.	Threaten to violate a federal, state, local, or tribal law or requirement imposed for the protection of the environment?		\boxtimes		
11.	Involve unresolved conflicts concerning alternative uses of available resources (NEPA sec. 102(2)(E)?				
12.	Have a disproportionate, significant adverse effect on low-income or minority populations (EO 12898)?				
13.	Restrict access to and ceremonial use of Indian sacred sites by Indian religious practitioners or adversely affect the physical integrity of such sacred sites (EO 130007)?		\boxtimes		
14.	Contribute to the introduction, continued existence, or spread of federally listed noxious weeds (Federal Noxious Weed Control Act)?		\boxtimes		See Section D. Mandatory Criteria, below.
15.	Contribute to the introduction, continued existence, or spread of non-native invasive species or actions that may promote the introduction, growth or expansion of the range of non-native invasive species (EO 13112)?				See Section D. Mandatory Criteria, below.
16.	Require a permit from a federal, state, or local agency to proceed, unless the agency from which the permit is required agrees that a CE is appropriate?				
17.	Have the potential for significant impact as indicated by a federal, state, or local agency or Indian tribe?		\boxtimes		
18.	Have the potential to be controversial because of disagreement over possible environmental effects?				
	Have the potential to violate the NPS Organic Act by impairing park resources or values?				
C o	omments, Mitigations and Conditions: Develop and submit an Accident Prevention Plan to	o the p	ark Sa	fety Of	fice (379-1079) for review and approval before
2	proceeding with this work. Ensure that all equipment and materials brought in	to the t	nark ar	e free o	of non-native invasive plants and animals and

Ensure that all equipment and materials brought into the park are free of non-native, invasive plants and animals, and
noxious weeds. All staff working on site shall be informed of and follow best management practices for preventing the
introduction and spread of non-native, invasive species as described in Division 1 Specifications, Section 1355.

I. NEPA Analysis and Approval Conditions

When implemented as detailed in the project description and following all Project Mitigations and Conditions listed below, this project meets the terms and conditions of a categorical exclusion to NEPA.

Applicable Categorical Exclusion:

DO12 3.4 C (8) - Replacement in kind of minor structures and facilities with little or no change in location, capacity, or appearance--for example, comfort stations, pit toilets, fences, kiosks, signs, and campfire circles.

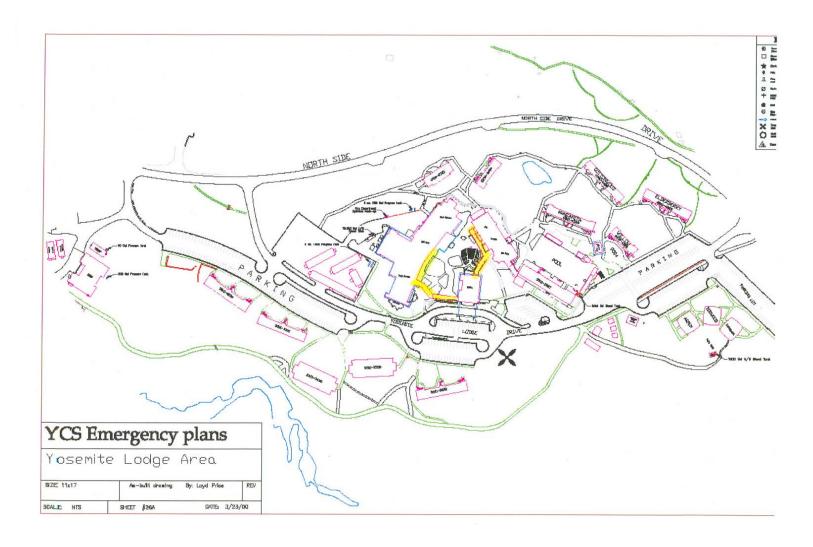

Project Mitigations and Conditions:

- 1. Develop and submit an Accident Prevention Plan to the park Safety Office (379-1079) for review and approval before proceeding with this work.
- 2. Ensure that all equipment and materials brought into the park are free of non-native, invasive plants and animals, and noxious weeds. All staff working on site shall be informed of and follow best management practices for preventing the introduction and spread of non-native, invasive species as described in Division 1 Specifications, Section 1355.

This project has been reviewed in accordance with the above criteria and it has been determined that the project will result in no or minimal environmental effects. Therefore, it is categorically excluded from further environmental review required under the National Environmental Policy Act. Additionally, the necessary compliance coordination has been completed with regard to the National Historic Preservation Act, the Wilderness Act, the Wild and Scenic Rivers Act, and the Endangered Species Act.

A. DESCRIPTION OF UNDERTAKING

Title: Yosemite Lodge Replace Covered Walkway Roofs

Project Location and Area of Potential Effect:

Yosemite Valley, Mariposa County, California

Yosemite Lodge

Project Manager: Maurice West, Project Management, Yosemite National Park

Project Manager: Chris Wicks, DNC Parks and Resorts at Yosemite,

Project Description: The purpose of this project is to replace the Yosemite Lodge covered walkway roofs. The current roof system has failed and allowed water to infiltrate the wood structure, resulting in rot and decay. This work is necessary to preserve and repair the wood portions to provide the guests with the covered walkways that have been a major component of the Yosemite Lodge experience. In the winter, the leaking water creates icy walkways causing a safety issue for guests and employees. Utility lines are exposed to weather causing premature deterioration, and are visible to guests in an unsightly manner. The entire roof system has outlived its useful life. The goal of this project is to provide safe, sustainable and waterproof covered walkways at Yosemite Lodge, without the need for further component renewal until at least 2017. A section of the tour bus unloading area located across Yosemite Lodge Drive will be used for a materials staging area.

General scope of work to include.

I. Design

- 1. Investigate current conditions to determine amount of repairs.
- 2. Redesign flat roof and gutter to roof interface if necessary.
- 3. Provide design alternatives for routing utilities currently suspended and enclosed in the wood structural frame.
- 4. Provide Specifications for products and performance with special consideration given to extended design life, and reduced maintenance and operation costs.

II. Construction

- 1. Remove all existing roof coverings and dispose of debris.
- 2. Remove all metal flashings completely and dispose of debris.
- 3. Replace rotted wood portions with specified materials.
- 4. Install all cabling inside of chase ways so no wires will run along the top of the roof structure. Provide a jack for the wires to exit from at each end of chase way.
- 5. Install copper drip edge to match existing copper drip edge at restaurant.
- 6. Repair wood siding above roof structures where rodents have chewed holes.
- 7. Install base sheets and roofing per manufacturer's requirements.
- 8. Pressure wash all exposed wood and steel members to remove cobwebs, dust, and scale.
- 9. Paint all wood and steel portions of structure: 1 coat prime, 2 coats color. Paint color provided by Delaware North Corporation Kelly Moore Brand required.
