

Categorical Exclusion Form

Project: Dixon- Replace Vault Toilet

PIN: 22584

Date: July 8, 2008

Describe project, including location (reference the attached Environmental Screening Form, if appropriate), and list any mitigations:

Project Description: Replace existing vault toilet (bldg. #556). Remove block/concrete structure, including failed Romtec ABS plastic vault. Prepare site and install manufactured vault toilet in same footprint, see attached pictures of existing unit. After installation, a 6" sidewalk will be constructed on 3 sides with adjacent ADA access and parking. All site work will be performed by NPS work crews. See attached proposed location pictures and example of a CXT Gunnison model vault toilet. The new structure will be raised one foot in elevation higher than the current structure. All finish grading will be done to blend into the adjacent terrain to create a natural appearing topography. Exposed soils will be reseeded using a grass seed mix as specified by the landscape architect. No existing tree canopy will be removed.

Project Locations:

Location

County: Shannon

State: MO

District:

Section:

Geo. Marker:

Other:

(See Attached Environmental Screening Form)

Mitigation(s):

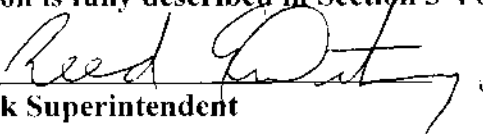

- No mitigations identified

Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):

C. (8) Replacement in kind of minor structures and facilities with little or no change in location, capacity, or appearance — for example, comfort stations, pit toilets, fences, kiosks, signs, and campfire circles.

Describe any public or agency involvement effort conducted (reference the attached ESF):
Not Applicable.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.
