95th Congress

An Act

Aug. 15, 1978
[H.R. 8336]

To authorize the establishment of the Chattahoochee River National Recreation Area in the State of Georgia, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Chattahoochee
River National
Recreation Area,
Ga.
Establishment.
16 USC 460ii.

TITLE I

Publication in
Federal Register.

Land acquisition.
16 USC 460u-1.

SEC. 101. The Congress finds the natural, scenic, recreation, historic, and other values of a forty-eight-mile segment of the Chattahoochee River and certain adjoining lands in the State of Georgia from Buford Dam downstream to Peachtree Creek are of special national significance, and that such values should be preserved and protected from developments and uses which would substantially impair or destroy them. In order to assure such preservation and protection for public benefit and enjoyment, there is hereby established the Chattahoochee River National Recreation Area (hereinafter referred to as the "recreation area"). The recreation area shall consist of the river and its bed together with the lands, waters, and interests therein within the boundary generally depicted on the map entitled "Chattahoochee River National Recreation Area", numbered CHAT-20,000, and dated July 1976, which shall be on file and available for public inspection in the office of the National Park Service, Department of the Interior. Following reasonable notice in writing to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate of his intention to do so, the Secretary of the Interior (hereinafter referred to as the "Secretary") may, by publication of a revised map or other boundary description in the Federal Register, (1) make minor revisions in the boundary of the recreation area, and (2) revise the boundary to facilitate access to the recreation area, or to delete lands which would be of little or no benefit to the recreation area due to the existence of valuable improvements completely constructed prior to the date of enactment of this Act. The total area, exclusive of the river and its bed, within the recreation area may not exceed six thousand three hundred acres.

SEC. 102. (a) Within the recreation area the Secretary is authorized to acquire lands, waters, and interests therein by donation, purchase with donated or appropriated funds, or exchange. Property owned by the State of Georgia or any political subdivision thereof may be acquired only by donation.

(b) When a tract of land lies partly within and partly without the boundaries of the recreation area, the Secretary may acquire the entire tract by any of the above methods in order to avoid the payment of severance costs. Land so acquired outside of the boundaries of the recreation area may be exchanged by the Secretary for non-Federal land within such boundaries, and any portion of the land not utilized for such exchanges may be disposed of in accordance with the provisions of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 et seq.).

PUBLIC LAW 95-344—AUG. 15, 1978

92 STAT. 475

(c) Except for property which the Secretary determines to be necessary for the purposes of administration, development, access, or public use, an owner of improved property which is used solely for noncommercial residential purposes on the date of its acquisition by the Secretary may retain, as a condition of such acquisition, a right of use and occupancy of the property for such residential purposes. The right retained may be for a definite term which shall not exceed twenty-five years or, in lieu thereof, for a term ending at the death of the owner or the death of the spouse, whichever occurs later. The owner shall elect the term to be retained. The Secretary shall pay the owner the fair market value of the property on the date of such acquisition, less the fair market value of the term retained by the owner.

(d) Any right of use and occupancy retained pursuant to this section may, during its existence, be conveyed or transferred, but all rights of use and occupancy shall be subject to such terms and conditions as the Secretary deems appropriate to assure the use of the property in accordance with the purposes of this Act. Upon his determination that the property, or any portion thereof, has ceased to be so used in accordance with such terms and conditions, the Secretary may terminate the right of use and occupancy by tendering to the holder of such right an amount equal to the fair market value, as of the date of the tender, of that portion of the right which remains unexpired on the date of termination.

(e) As used in this section, the term "improved property" means a detached, year-round noncommercial residential dwelling, the construction of which was begun before January 1, 1975, together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

"Improved
property."

SEC. 103. (a) The Secretary shall administer, protect, and develop the recreation area in accordance with the Act of August 25, 1916 (39 Stat. 535), and in accordance with any other statutory authorities available to him for the conservation and management of historic and natural resources, including fish and wildlife, to the extent he finds such authority will further the purposes of this Act. In developing and administering the recreation area, the Secretary shall take into consideration applicable Federal, State, and local recreation plans and resource use and development plans, including, but not limited to, the Atlanta Regional Commission Chattahoochee Corridor Study, dated July 1972.

16 USC 460ii-2.

16 USC 1.

(b) The Secretary is authorized and encouraged to enter into cooperative agreements with the State or its political subdivisions whereby he may assist in the planning for and interpretation of non-Federal publicly owned lands within or adjacent or related to the recreation area to assure that such lands are used in a manner consistent with the findings and purposes of this Act.

(c) In planning for the development and public use of the recreation area, the Secretary shall consult with the Secretary of the Army to assure that public use of adjacent or related water resource development or flood control projects and that of the recreation area are complementary.

- Regulations. (d) In administering the recreation area, the Secretary may permit fishing in waters under his jurisdiction in accordance with applicable State and Federal laws and regulations. The Secretary, after consultation with the appropriate State agency responsible for fishing activities, may designate zones where, and establish periods when, fishing shall be permitted and issue such regulations as he may determine to be necessary to carry out the provisions of this subsection. Except in emergencies, such regulations shall be put into effect only after consultation with the appropriate State agency.
- 16 USC 460ii-3. SEC. 104. (a) The Federal Energy Regulatory Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (16 U.S.C. 791a et seq.), on or directly affecting the recreation area, and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such area is established, except where such project is determined by the State of Georgia to be necessary for water supply or water quality enhancement purposes and authorized by the United States Congress. Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments upstream or downstream from the recreation area or on any stream tributary thereto which will not invade the recreation area or unreasonably diminish the scenic, recreational, and fish and wildlife values present therein on the date of approval of this Act. Nothing contained in this subsection shall preclude the upgrading, improvement, expansion or development of facilities or public works for water supply or water quality enhancement purposes if such action would not have a material adverse effect on the values for which the recreation area is established.
- Report to congressional committees. (b) No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which such area is established, as determined by the Secretary, nor shall such department or agency request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without at least sixty days in advance, (1) advising the Secretary in writing of its intention to do so and (2) reporting to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate the nature of the project involved and the manner in which such project would conflict with the purposes of this Act or would affect the recreation area and the values to be protected by it under this Act. It is not the intention of Congress by this Act to require the manipulation or reduction of lake water levels in Lake Sidney Lanier. Nothing in this Act shall be construed in any way to restrict, prohibit, or affect any recommendation of the Metropolitan Atlanta Water Resources Study as authorized by the Public Works Committee of the United States Senate on March 2, 1972.
- Land acquisition. (c) The Secretary is directed to proceed as expeditiously as possible to acquire the lands and interests in lands necessary to achieve the purposes of this Act.
- 16 USC 460ii-4. SEC. 105. (a) From the appropriations authorized for fiscal year 1978 and succeeding fiscal years pursuant to the Land and Water

Conservation Fund Act (78 Stat. 897), as amended, not more than \$72,900,000 may be expended for the acquisition of lands and interests in lands authorized to be acquired pursuant to the provisions of this Act.

16 USC 4601-4.

(b) Effective on October 1, 1978, there are authorized to be appropriated not to exceed \$500,000 for the development of essential public facilities.

Appropriation authorization.

(c) Within three years from the effective date of this Act, the Secretary shall, after consulting with the Governor of the State of Georgia, develop and transmit to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate a general management plan for the use and development of the recreation area consistent with the findings and purposes of this Act, indicating:

TITLE III

FINDINGS AND PURPOSE

Sec. 301. (a) The Congress hereby finds that—

16 USC 2301.

(1) the purpose of the National Park System is to preserve outstanding natural, scenic, historic, and recreation areas for the enjoyment, education, inspiration, and use of all people;

(2) units of the National Park System have recently been established near major metropolitan areas in order to preserve remaining open space and to provide recreational opportunities for urban residents (many of whom do not have access to personal motor vehicles); and

(3) circumstances which necessarily require people desiring to visit units of the National Park System to rely on personal motor vehicles may diminish the natural and recreational value of such units by causing traffic congestion and environmental damage, and by requiring the provision of roads, parking, and other facilities in ever-increasing numbers and density.

An Act

Dec. 9, 1999
[H.R. 2140]To improve protection and management of the Chattahoochee River National
Recreation Area in the State of Georgia.*Be it enacted by the Senate and House of Representatives of
the United States of America in Congress assembled,*16 USC 460ii
note.

SECTION 1. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the Chattahoochee River National Recreation Area in the State of Georgia is a nationally significant resource;

(2) the Chattahoochee River National Recreation Area has been adversely affected by land use changes occurring inside and outside the recreation area;

(3) the population of the metropolitan Atlanta area continues to expand northward, leaving dwindling opportunities to protect the scenic, recreational, natural, and historical values of the 2,000-foot-wide corridor adjacent to each bank of the Chattahoochee River and its impoundments in the 48-mile segment known as the “area of national concern”;

(4) the State of Georgia has enacted the Metropolitan River Protection Act to ensure protection of the corridor located within 2,000 feet of each bank of the Chattahoochee River, or the corridor located within the 100-year floodplain, whichever is larger;

(5) the corridor located within the 100-year floodplain includes the area of national concern;

(6) since establishment of the Chattahoochee River National Recreation Area, visitor use of the recreation area has shifted dramatically from waterborne to water-related and land-based activities;

(7) the State of Georgia and political subdivisions of the State along the Chattahoochee River have indicated willingness to join in a cooperative effort with the United States to link existing units of the recreation area through a series of linear corridors to be established within the area of national concern and elsewhere on the river; and

(8) if Congress appropriates funds in support of the cooperative effort described in paragraph (7), funding from the State, political subdivisions of the State, private foundations, corporate entities, private individuals, and other sources will be available to fund more than half the estimated cost of the cooperative effort.

(b) PURPOSES.—The purposes of this Act are—

(1) to increase the level of protection of the open spaces within the area of national concern along the Chattahoochee

PUBLIC LAW 106-154—DEC. 9, 1999

113 STAT. 1737

River and to enhance visitor enjoyment of the open spaces by adding land-based linear corridors to link existing units of the recreation area;

(2) to ensure that the Chattahoochee River National Recreation Area is managed to standardize acquisition, planning, design, construction, and operation of the linear corridors; and

(3) to authorize the appropriation of Federal funds to cover a portion of the costs of the Federal, State, local, and private cooperative effort to add additional areas to the recreation area so as to establish a series of linear corridors linking existing units of the recreation area and to protect other open spaces of the Chattahoochee River corridor.

SEC. 2. AMENDMENTS TO CHATTAHOOCHEE RIVER NATIONAL RECREATION AREA ACT.

(a) **BOUNDARIES.**—Section 101 of the Act entitled “An Act to authorize the establishment of the Chattahoochee River National Recreation Area in the State of Georgia, and for other purposes”, approved August 15, 1978 (16 U.S.C. 460ii), is amended—

(1) in the third sentence, by inserting after “numbered CHAT-20,003, and dated September 1984,” the following: “and on the maps entitled ‘Chattahoochee River National Recreation Area Interim Boundary Map #1’, ‘Chattahoochee River National Recreation Area Interim Boundary Map #2’, and ‘Chattahoochee River National Recreation Area Interim Boundary Map #3’, and dated August 6, 1998,”;

(2) by striking the fourth sentence and inserting the following: “No sooner than 180 days after the date of the enactment of this sentence, the Secretary of the Interior (hereafter referred to as the ‘Secretary’) may modify the boundaries of the recreation area to include other land within the Chattahoochee River corridor by submitting a revised map or other boundary description to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives. The revised map or other boundary description shall be prepared by the Secretary after consultation with affected landowners, the State of Georgia, and affected political subdivisions of the State. The revised boundaries shall take effect 180 days after the date of submission unless, within the 180-day period, Congress enacts a joint resolution disapproving the revised boundaries.”; and

(3) in the next-to-last sentence, by striking “may not exceed approximately 6,800 acres.” and inserting “may not exceed 10,000 acres.”.
