

What are the Impacts From the Five Fire Management Alternatives?

Impact Comparisons for the Five Fire Management Alternatives

Beneficial: Major Moderate Minor Negligible Adverse: Major Moderate Minor

	Alternative 1 Current		Alternative 2		Alternative 3		Alternative 4		Alternative 5	
Vegetation and Fire Ecology	Regional and Local		Regional and Local		Localized		Regional and Local		Regional and Local	
	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local
Special Status Plant Species	Localized	Localized	Localized	Localized	Localized		Localized	Localized	Localized	Localized
	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
Exotic Plant Species	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
Wildlife	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
Special Status Wildlife	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
Cultural Resources	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
	PLANNED negligible to minor	UNPLANNED negligible to major	PLANNED negligible to minor	UNPLANNED negligible to major	PLANNED negligible to minor	UNPLANNED negligible to major	PLANNED negligible to minor	UNPLANNED negligible to major	PLANNED negligible to minor	UNPLANNED negligible to major
Air Quality	Localized		Localized		Regional	Sulfur Dioxide	Regional	Sulfur Dioxide & particulates	Regional	Carbon Dioxide & Nitrogen Oxide
Soils & Watersheds	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
Soundscape	Regional to Local	Regional and Local	Regional to Local	Regional and Local	Regional to Local	Regional and Local	Regional to Local	Regional and Local	Regional to Local	Regional and Local
	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local
Wilderness Character	Regional and Local	Regional and Local	Regional and Local	Regional and Local			Regional and Local	Regional and Local	Regional and Local	Regional and Local
	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local
Visitor Experience	Localized	Localized	Localized	Localized	Localized	Localized	Localized		Localized	Localized
	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized	Localized
Socioeconomic Environment	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local	Regional and Local
	Localized	Regional and Local	Localized		Localized		Localized		Localized	
Park Management and Operations					Regional	Regional	Regional	Regional		
	Regional		Regional	Regional	Regional				Regional	Regional

This table is not a reflection of the entire analysis. To review the entire analysis by impact topic please review the summary table and environmental consequences in the DEIS.

Stand replacement fire effects behind large aspen patch – North Rim

Protecting a historic building with fire shelter wrap – North Rim

Backing fire during a wildland fire use fire – North Rim
