

Dear Friends:

You are invited to participate in the planning and preservation of Mount Rushmore National Memorial. The Memorial's current plan is in need of revision. We are beginning to develop a new General Management Plan to set long-term directions for the overall management and development of the memorial for the next 15 to 20 years. The new plan will help us make decisions on the direction of resource management, visitor use and interpretation, and facilities management.

We are looking forward to working with you to craft a general management plan that will capture the connections visitors have had with Mount Rushmore National Memorial over the years and that will continue to protect and enhance the Memorial's resources and visitor experiences. Please leave your contact information on our Planning, Environment and Public Comment (PEPC) website to receive updates and information regarding this ongoing planning process.

Gerard A. Baker
Superintendent
