ABSTRACT

EXECUTIVE SUMMARY

CHAPTER 1 INTRODUCTION 1-1

1.1 Decision to Prepare an Environmental Impact Statement 1-1

1.2 Purpose and Need for Action 1-1

1.2.1 Purpose of Action 1-1

1.2.2 Need for Action 1-2

1.2.3 Mission Statement 1-2

1.3 Background 1-2

1.3.1 Purpose and Significance of Grand Canyon National Park 1-3

1.3.2 Wildland Fire Conditions at Grand Canyon National Park 1-4

1.3.3 Long-term Suppression Affects 1-5

1.3.4 Existing Situation 1-6

1.3.5 Wildland-Urban Interface 1-7

1.4 Fire Management Program Goals and Objectives 1-8

1.5 Compliance with Laws, Regulations, Policies, and Other Guidance 1-9

1.5.1 Laws 1-9

1.5.2 Executive Orders and Presidential Proclamations 1-10

1.5.3 Regulations 1-10

1.5.4 Policy 1-10

1.5.5 National Fire Plan 1-13

1.6 Relationship of GRCA Fire Management Plan to other GRCA Plans 1-13

1.6.1 General Management Plan 1-13

1.6.2 Resource Management Plan 1-14

1.6.3 Backcountry Management Plan 1-14

1.7 Parties to the FMP FEIS/AEF 1-21

1.8 Scoping and Public Involvement 1-21

1.8.1 Issues and Concerns Used to Develop Alternatives 1-23

1.8.2 Impact Topics Selected for Detailed Analysis 1-23

1.8.3 Issue Topics Dismissed from Detailed Analysis 1-25

1.9 Decisions to Be Made 1-29

CHAPTER 2 ALTERNATIVES

2.1 Introduction 2-1

2.2 Description of Proposed Action 2-1

2.3 Process for Formulating Alternatives 2-1

2.3.1 Criteria 2-2

2.4 Ecological Basis for the Alternatives 2-2

- 2.4.1 Spruce-Fir Forests 2-3
- 2.4.2 Mixed-Conifer Forests 2-4
- 2.4.3 Ponderosa Forests 2-7
- 2.4.4 Piñon-Juniper Communities 2-8

2.5 Annual Constraints To Burning 2-10

2.6 Strategies Used to Achieve Desired Ecosystem Conditions 2-10

- 2.6.1 Managed Wildland Fire 2-11
- 2.6.2 Prescribed Fire 2-13
- 2.6.3 Non-Fire Fuel Treatments 2-13
- 2.6.4 Adaptive Management 2-14
- 2.6.5 Fire Management Units 2-19

2.7 Alternatives Under Consideration 2-43

- 2.7.1 Alternative 1 No Action, Existing Program 2-44
- 2.7.2 Alternative 2 Preferred Alternative, Mixed Fire Treatment Program 2-47
- 2.7.3 Alternative 3 Non-Fire Treatment Emphasis 2-50
- 2.7.4 Alternative 4 Prescribed Fire Emphasis 2-53
- 2.7.5 Alternative 5 Fire Use Emphasis 2-56

2.8 Elements Common to All Alternatives 2-59

- 2.8.1 Relationship of GRCA Fire Program to Other Fire Management Entities 2-59
- 2.8.2 GRCA Fire Management Organization and Responsibilities 2-59

2.9 Elements Specific to Action Alternatives 2-67

- 2.9.1 Proposed Elements Common to Alternatives 2, 3, 4, and 5 2-67
- 2.9.2 Manual/Mechanical Hazard Fuel-Reduction Treatments Specific to Alternatives 2, 3, 4, and 5 2-68

2.10 Alternatives Eliminated from Further Study 2-69

2.11 Environmentally Preferred Alternative 2-70

CHAPTER 3 AFFECTED ENVIRONMENT

3.1 Biological Environment 3-1

- 3.1.1 Vegetation 3-1
- 3.1.2 Special Status Plant Species 3-15
- 3.1.3 Exotic Plant Species 3-17
- 3.1.4 Wildlife 3-19
- 3.1.5 Special Status Wildlife Species 3-30

3.2 Cultural Environment 3-41

- 3.2.1 Archaeological Sites 3-42
- 3.2.2 Ethnographic Resources 3-43
- 3.2.3 Historic Structures 3-44
- 3.2.4 Cultural Landscapes 3-45
- 3.2.5 Elements or Values at Risk 3-46
- 3.2.6 Archeological Site Densities and Distributions 3-47

3.3	Physical Environment	3-50
3.3.1	Air Quality	3-50
3.4	Soils And Watersheds	3-65
3.4.1	Geology and Geomorphology	3-65
3.4.5	Watersheds	3-70
3.5	Soundscape	3-75
3.5.1	Existing Soundscape	3-75
3.5.2	Noise Sources in Park Soundscapes	3-76
3.6	Wilderness Character	3-78
3.6.1	History of GRCA Wilderness Recommendation	3-78
3.6.2	Law and Policy	3-80
3.6.3	Defining Wilderness Character	3-80
3.7	Social Environment	3-81
3.7.1	Visitor Experience	3-81
3.8	Socioeconomics	3-83
3.8.1	In Grand Canyon National Park	3-83
3.8.2	Outside Grand Canyon National Park	3-84
3.9	Park Operations	3-89
3.9.1	Staffing and Facilities	3-89
3.10	Issue Topics Dismissed from Detailed Analysis	3-93
3.10.1	Possible Conflicts between the Proposal and Land Use Plans, Policies, or Controls for the Area Concerned	3-94
3.10.2	Research Natural Areas	3-94
3.10.3	Energy Requirements and Conservation Potential	3-95
3.10.4	Urban Quality and Design of the Built Environment	3-95
3.10.5	Environmental Justice	3-95
3.10.6	Wetlands	3-96
3.10.7	Floodplains	3-96
3.10.8	Prime and Unique Farmland	3-96
3.10.9	Wild and Scenic Rivers, World Heritage Site Designation	3-96
3.10.10	Indian Trust Resources	3-97
3.10.11	Depletable Resource Requirements and Conservation Potential	3-97

CHAPTER 4 ENVIRONMENTAL CONSEQUENCES

4.1	Introduction	4-1
4.1.1	Overall Guidance for Analyzing Environmental Impacts	4-1
4.1.2	Methodology for Analyzing Impacts	4-1
4.2	Impacts On Biological Resources	4-5
4.2.1	Vegetation	4-5
4.2.2	Special Status Plants Species	4-92
4.2.3	Exotic Plant Species	4-125
4.2.4	Wildlife	4-159
4.2.5	Special Status Wildlife Species	4-200

4.3 Cultural Resources 4-237

4.3.1 Guiding Regulations and Policies 4-237

4.4 Physical Environment Environmental Consequences 4-284

4.4.1 Air Quality 4-284

4.4.2 Soils and Watershed 4-304

4.4.3 Soundscape 4-339

4.5 Wilderness Character 4-372

4.5.1 Impacts on Wilderness Character 4-372

4.6 Sociological Resources 4-389

4.6.1 Visitor Experience 4-389

4.6.2 Socioeconomic Environment 4-408

4.6.3 Park Management and Operations 4-432

CHAPTER 5 CONSULTATION AND COORDINATION

5.1 Introduction 5-1

5.2 Public Scoping 5-1

5.2.1 Public Comment Meetings 5-1

5.2.2 Review and Evaluation of Public Scoping Comments 5-2

5.2.3 Organizations and Agencies Consulted 5-3

5.3 Recipient List 5-5

5.4 NPS Interdisciplinary Team and Preparers 5-6

Maps

1-1 Grand Canyon National Park and Vicinity 1-3

2-1 Fire Management Unit Boundaries, Alternative 1, No Action (Existing Program) 2-40

2-2 Fire Management Unit Boundaries, Alternatives 2, 3, 4, and 5 (Action Alternatives) 2-41

2-3 Fire Management Unit Boundaries, Alternatives 2, 3, 4, and 5 (Action Alternatives) Heart of the Canyon 2-42

2-4 Alternative 1 Prescribed Fire and Non-Fire Treatment Map through 2017 2-46

2-5 Alternative 2 Prescribed Fire and Non-Fire Treatment Map through 2017 2-49

2-6 Alternative 3 Prescribed Fire and Non-Fire Treatment Map through 2017 2-52

2-7 Alternative 4 Prescribed Fire and Non-Fire Treatment Map through 2017 2-55

2-8 Alternative 5 Prescribed Fire and Non-Fire Treatment Map through 2017 2-58

3-1 Soil Orders 3-69

3-2 Perennial Streams and Springs 3-74

4-1 GRCA Historic Fire Regimes 4-9

4-2 GRCA Hydrologic Sub-Basins 4-310

4-3 Off-Road Erosion Hazard GRCA 4-320

4-4 Major Perennial Surface Water and Springs GRCA 4-323

4-5 Special Flight Rules Area Grand Canyon National Park 4-349

Tables

1-1 National Fire Plan Fire Regime Classes 1-6

1-2 Historical Fire Regime Descriptions for Major Vegetation Types Above the Rim 1-6

1-3 Management Objectives in GRCA's General and Fire Management Plans 1-15

1-4	Management Objectives in GRCA's Resource and Fire Management Plans	1-19
1-5	Grand Canyon Research Natural Areas	1-27
2-1	Ponderosa Forests Desired Conditions, GRCA	2-9
2-2	Hazardous-Fuel Reduction Techniques for Mechanized/Manual Fuel Reduction Projects	2-12
2-2a	Adaptive Management Considerations at Various Stages of Fire Program Implementation	2-16
2-3	FMU Unit Characteristics, Alternative 1, Existing Program/No Action	2-25
2-4	FMUs for Alternatives 2, 3, 4, and 5	2-26
2-5	Summary Highlights, Action-Alternative FMUs	2-38
2-6	Fire Information and Education at GRCA	2-63
2-7	How Each Alternative Meets NEPA Section 101(B) Criteria	2-72
2-8	Summaries of Alternatives	2-75
2-9	FMP Goals and Objectives by Alternative	2-76
2-10	Summary of Ten-Year Treatment Costs for Each Proposed Treatment Schedule	2-81
2-11	Impacts by Alternative and Impact Topic	2-82
3-1	Exotic Plant Species Found in GRCA and on the Arizona Noxious Plant List	3-18
3-2	Representative GRCA Animal Species by Habitat	3-19
3-3	Special Status Wildlife by GRCA Habitat	3-32
3-4	Cultural Site Distribution by Time Period	3-44
3-5	North Rim Cultural Site Type Distribution	3-46
3-6	South Rim Cultural Site Type Distribution	3-47
3-7	Inner Canyon Cultural Site Type Distribution	3-48
3-8	Fire-Sensitive Cultural Site Types and Distributions by FMUs	3-49
3-9	Acres Surveyed and Cultural Site Distributions for South Rim FMUs	3-50
3-10	Acres Surveyed and Cultural Site Distributions for North Rim FMUs	3-50
3-11	Acres Surveyed and Cultural Site Distributions for Inner Canyon FMUs	3-50
3-12	Current Federal Ambient Air Quality Standards	3-53
3-13	Particulate Concentrations and EPA Air Quality Index Standard for Fine Particulates (PM _{2.5}) and Coarse Respirable Particles (PM ₁₀)	3-56
3-14	Fine Particle Health Impacts and Messages GRCA	3-57
3-15	Haziest Days Recorded At Indian Garden, 1999-2004	3-60
3-16	GRCA Haze Index 2004	3-61
3-17	GRCA Visibility Classification, Annual Average Examples	3-64
3-18	Soil Orders in Grand Canyon FMUs	3-67
3-19	Soil Suborder Characteristics	3-68
3-20	GRCA Rivers and Perennial Streams	3-72
3-21	Partial List of Major GRCA Intermittent Streams	3-73
3-22	Average Natural Ambient Sound Levels by Park Vegetation Type	3-76
3-23	GRCA Proposed Wilderness Acreage	3-79
3-24	Employees by Industry, Grand Canyon Village	3-84
3-25	Population Estimates (2000) and Median Income (1999) of Larger Gateway Communities	3-86
3-26	Employment by Industry (2000), Larger Gateway Communities	3-88
3-27	2007 Fire Management Activities and Responsible Park Divisions	3-89
4-1	National Fire Plan Fire Regime Condition Classes and Definitions	4-7
4-2	Weather Conditions Used for Fire Behavior Prediction Modeling	4-16
4-3	Average Number of Days per Year at Different Fire Weather Percentiles, Pre-Monsoon May through July	4-16
4-4	One-Year Post-Fire Severity Data By Fire Category (Prescribed, Wildland Fire Use, Suppression) And Fire Name In Ponderosa Pine	4-20
4-5	Projected Fire Severity by Fire Category in Ponderosa Pine	4-20
4-6	One-Year Post-Fire Severity Data by Fire Type and Fire Name in Mixed-Conifer	4-22
4-7	Projected Fire Severity by Fire Category in Mixed-Conifer	4-23
4-8	One-Year Post-Fire Severity Data by Fire Category and Fire Name in Spruce-Fir	4-25
4-9	Projected Fire Severity by Fire Category in Spruce-Fir	4-25

4-10	One Year Post-Fire Severity Data by Fire Type and Fire Name in Piñon-Juniper	4-27
4-11	Projected Fire Severity by Fire Type in Piñon-Juniper	4-27
4-12	Predicted Fire Behavior within Prescribed Fire Treatment Areas in Ponderosa Pine during Various Weather Conditions	4-29
4-13	Predicted Fire Behavior from Prescribed Fire Treatments in Mixed-Conifer Based on Various Weather Conditions	4-35
4-14	Predicted Fire Behavior from Prescribed Fire Treatments in Spruce-Fir Based on Various Weather Conditions	4-40
4-15	Predicted Fire Behavior from Prescribed Fire in Piñon-Juniper Based on Various Weather Conditions	4-43
4-15a	Past Fire Severity by Fire Category (2000-2008)	4-46
4-16	Predicted Fire Behavior within Prescribed Fire Treatment Areas in Ponderosa Pine During Various Weather Conditions	4-60
4-17	Predicted Fire Behavior from Prescribed Fire Treatments in Mixed-Conifer Based on Various Weather Conditions	4-62
4-18	Predicted Fire Behavior from Prescribed Fire Treatments in Spruce-Fir Based on Various Weather Conditions	4-65
4-19	Predicted Fire Behavior within Prescribed Fire Treatment Areas in Ponderosa Pine During Various Weather Conditions	4-72
4-20	Predicted Fire Behavior from Prescribed Fire Treatments in Mixed-Conifer Based on Various Weather Conditions	4-74
4-21	Predicted Fire Behavior from Prescribed Fire Treatments in Spruce-Fir Based on Various Weather Conditions	4-76
4-22	Predicted Fire Behavior within Prescribed Fire Treatment Areas in Ponderosa Pine During Various Weather Conditions	4-82
4-23	Predicted Fire Behavior from Prescribed Fire Treatments in Mixed-Conifer Based on Various Weather Conditions	4-84
4-24	Special Status Plant Species Not Likely Affected	4-98
4-25	Annual/Biennial Grasses and Forbs, Documented Location, and Some Treatment Effects	4-131
4-26	Perennial Plants A and Documented Location By Park Region And Some Treatment Effects	4-136
4-27	Special Status Animal Species Not Likely Affected	4-209
4-29	Number of Archaeological Sites that may be Present by Proposed FMU	4-239
4-30	Historic Fire Severity by Forest and Fire Types	4-245
4-31	Beneficial and Adverse Affects of Fire Management Activities on Cultural Resources	4-246
4-32	Treated Acres by Alternative, Annually	4-248
4-33	Anticipated Number of Fires Through 2017	4-285
4-34	Annual Emissions from Mechanized Equipment	4-287
4-35	Change in Total Emissions Against the No Action Alternative	4-287
4-36	Health Impacts from Recent Large GRCA Fires	4-288
4-37	Anticipated Visibility Impacts through 2017	4-289
4-38	Public Alert Messages Regarding Unhealthy Air Quality Conditions	4-295
4-39	Anticipated Annual Emissions, Alternative 1	4-296
4-40	Anticipated Annual Emissions, Alternative 2	4-297
4-41	Anticipated Annual Emissions, Alternative 3	4-298
4-42	Anticipated Annual Emissions, Alternative 4	4-300
4-43	Anticipated Annual Emissions, Alternative 5	4-302
4-44	Historic Fire Severity by Forest Type and Fire Type	4-312
4-45	Predicted First Year Sediment Yield for Alternative 1 Prescribed Fire Treatments	4-318
4-46	Predicted First Year Sediment Yield for Alternative 1 Suppression Fires	4-318
4-47	Predicted First Year Sediment Yield for Alternative 1 Wildland Fire-Use Fires	4-318
4-48	Predicted First Year Sediment Yield for Alternative 2 Prescribed Fire Treatments	4-325
4-49	Predicted First Year Sediment Yield for Alternative 2 Suppression Fires	4-326

4-50	Predicted First Year Sediment Yield for Alternative 2 Wildland Fire-Use Fires	4-326
4-51	Predicted First Year Sediment Yield for Alternative 3 Prescribed Fire Treatments	4-329
4-52	Predicted First Year Sediment Yield for Alternative 3 Suppression Fires	4-330
4-53	Predicted First Year Sediment Yield for Alternative 3 Wildland Fire-Use Fires	4-330
4-54	Predicted First Year Sediment Yield for Alternative 4 Prescribed Fire Treatments	4-332
4-55	Predicted First Year Sediment Yield for Alternative 4 Suppression Fires	4-333
4-56	Predicted First Year Sediment Yield for Alternative 4 Wildland Fire-use Fires	4-334
4-57	Predicted First Year Sediment Yield for Alternative 5 Prescribed Fire Treatments	4-336
4-58	Predicted First Year Sediment Yield for Alternative 5 Suppression Fires	4-337
4-59	Predicted First Year Sediment Yield for Alternative 5 Wildland Fire-use Fires	4-337
4-60	Sound Level Measurements of Fire-Related Equipment at GRCA	4-342
4-61	Noise Exposure Levels in the Wood Industry	4-343
4-62	Soundscape Impacts by Treatment Type and Sub-Activity	4-351
4-63	Beneficial and Detrimental Effects of Fire Management Practices on Natural Soundscapes	4-357
5-1	NPS GRCA FMP EIS Interdisciplinary Team Members and Preparers	5-7
5-2	Adaptive Management Services Enterprise Team Members and Preparers	5-7

Figures

1-1	Annual Acres Burned by Fire Type, 1993-2006	1-8
1-2	Relationship of GRCA FMP to Other Directives, Programs, and Desired Outcomes	1-12
2-1	The Adaptive Management Process	2-15
2-2	<i>figure removed due to revision of the Adaptive Management section</i>	
2-3	Treatment Totals for Each Treatment Type, Alternative 1, No Action	2-45
2-4	Treatment Totals for Each Treatment Type for Alternative 2 Mixed Fire Treatment Program	2-48
2-5	Treatment Totals for each Treatment Type for Alternative 3 Non-Fire Treatment Emphasis	2-51
2-6	Treatment Totals for each Treatment Type Under Alternative 4 Prescribed Fire Emphasis	2-54
2-7	Treatment Totals for each Treatment Type Under Alternative 5 Fire Use Emphasis	2-57
2-8	Treatment Totals for Each Treatment Type Compared Across Alternatives	2-74
3-1	Major Vegetation Types Affected by GRCA Fire Management Distributed Along Elevation Gradients and Topography-based Moisture Availability	3-2
3-2	Exotic Plant Species Recorded in GRCA 1930-2003	3-17
3-3	Yearly Visibility Trends GRCA	3-60
3-4	Photographs Showing Air Quality Conditions GRCA	3-61
3-5	Difference between Hazeiest 20% Conditions and Hazeiest Target Conditions	3-62
3-6	GRCA Visibility Trends since 1990	3-62
4-1	General Methodology for Impact Analysis	4-3
4-2	Summary of 2007 Levels of Historic Fire Regime Departure by Vegetation Type	4-10
4-3	Pre-Monsoon and During Monsoon (July) Lightning-Ignition Densities by Major Vegetation Type and Location (Inner Canyon, North Rim, South Rim)	4-12
4-4	Predicted Historic Fire Regime Departure for Ponderosa Pine for All Alternatives after the Planning Period	4-32
4-5	Predicted Fire Behavior (by Fire Type: Surface or Crown Fire) after Implementation of Prescribed Fire and Wildland Fire-use Fires, Based on FlamMap Projections	4-33
4-6	Predicted Fire Regime Departure Mixed-Conifer all Alternatives after the Planning Period	4-37
4-7	Predicted Fire Behavior (by Fire Type: Surface, or Crown Fire) after Implementation of Prescribed and Wildland Fire-Use Fires, Based on FLAMMAP Projections	4-38
4-8	GRCA Visits and Number of Acres Burned Per Year, 1979 through 2005	4-407
