

YOUR COMMENTS ARE IMPORTANT

You can make an important contribution to the future of Denali National Park and Preserve by becoming involved in the Denali Park Road Vehicle Management Plan and EIS. This workbook contains descriptions of proposals for managing the Park Road. The proposals reflect the range of interests and concerns expressed by park managers, park staff, and the public about the project to date. Your feedback now on what you see as the advantages and the disadvantages of the proposals will be helpful in developing the draft plan and EIS and determining a preferred alternative. We also encourage you to provide your own ideas about additional management concepts that should be considered.

Please submit comments, concerns, and suggestions on the proposals by **March 1, 2010**.

The most useful comments address the following questions:

1. What are your suggestions or concerns about the following:

a. Proposed Changes to Management Zoning and Desired Conditions?

b. Proposed Vision for the Vehicle Management Plan?

c. Proposed Goals and Objectives?

d. Potential Indicators?

e. Potential Transportation System Management Concepts?

f. Potential Management Options for Other Vehicle Use?

2. What would you like the transportation and Denali Park Road experience to look like in the future?

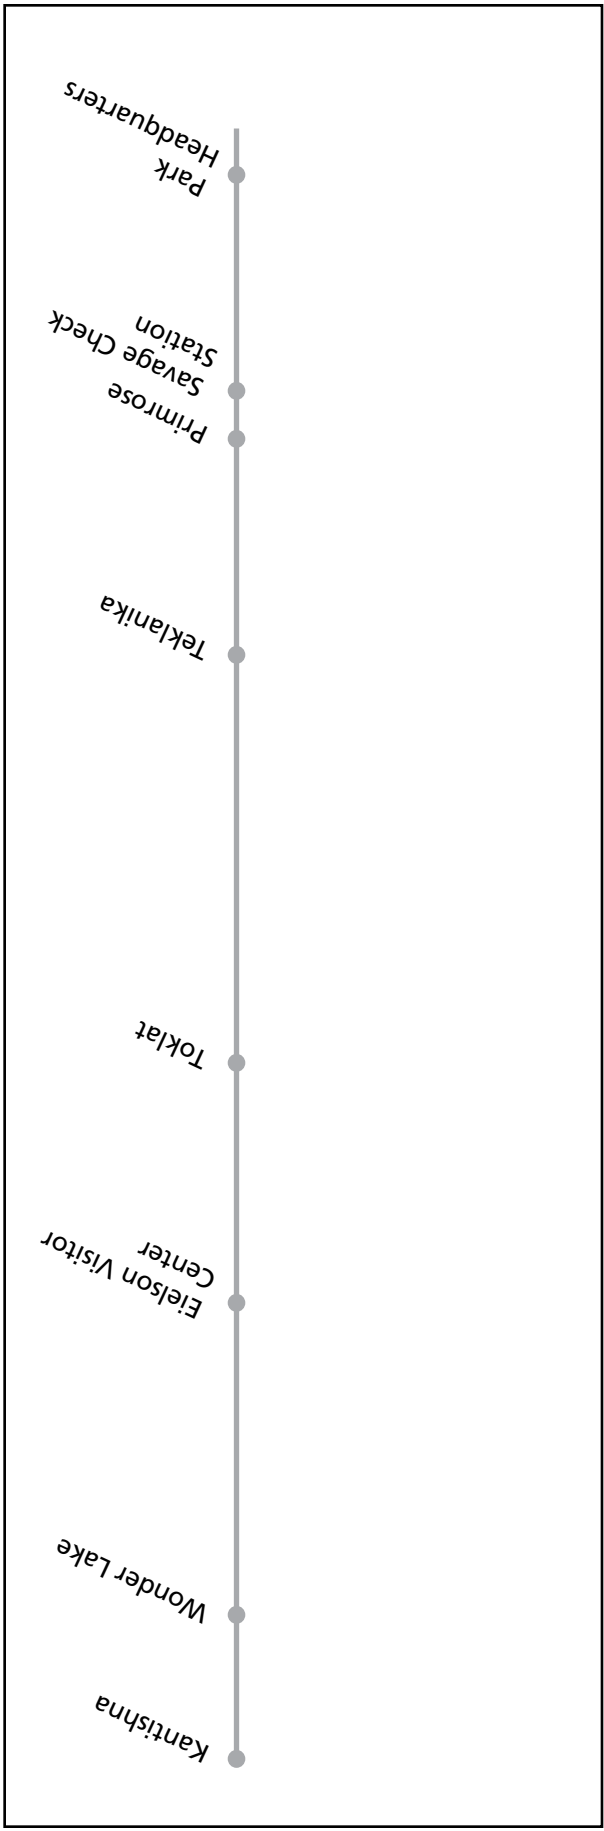

Create your own management concept.

We want to hear your ideas on how we can best manage the Park Road. Please describe what you believe are the most important things to accomplish in the plan for the Park Road and what that would mean for your preferred management concept.

The most important things to accomplish in the plan for the Park Road are:

This could be best accomplished by a management concept that included:

Please use the diagram below to draw the services, routes, and destinations of your preferred transportation system management concept (see pages 24 and 25 in the Denali Park Road Planning Workbook for examples.) Please add your system service(s) to the legend and provide a description of what the service(s) entail if different from those described in the workbook.

3. Additional suggestions or concerns:

(Optional) Please provide your name and contact information:

Step 1. Fold in half along the spine.

Step 2. Fold in half again along this line.

Step 3. Seal the open end and sides with tape, apply postage, then deposit in your nearest mailbox.
