The Manassas National Battlefield Park Bypass Study evaluates the closure of Routes 29 and 234 within the Manassas National Battlefield Park and the provision of alternative means of transportation for those persons using these routes. The goals of the study are to enhance historic preservation efforts and visitor experience within the Park by closing the routes to commuter and general purpose traffic.

Comments on this Draft Environmental Impact Statement are due by April 1, 2005 and should be sent to Mr. Van Dop at the above address.
