Opportunities to Comment

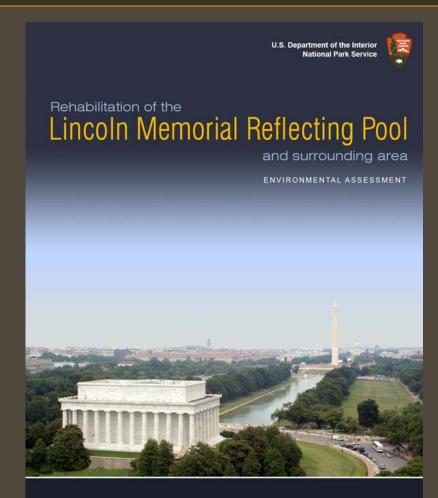

Environmental Assessment

Process

- 1. Notice of Intent
- 2. Define Purpose & Need
- 3. Data Collection
- 4. Define Preliminary Alternatives
- 5. Scoping to introduce project and identify issues
- 6. Public Scoping meeting to introduce alternatives
- 7. Finalize Alternatives
- 8. Affected Environment
- 9. Environmental Consequences
- 10. Public Review of Environmental Assessment
- 11. 30 day Comment Period (12/23/09- 01/29/10)
- 12. Decision Document

Project Background

Purpose and Need

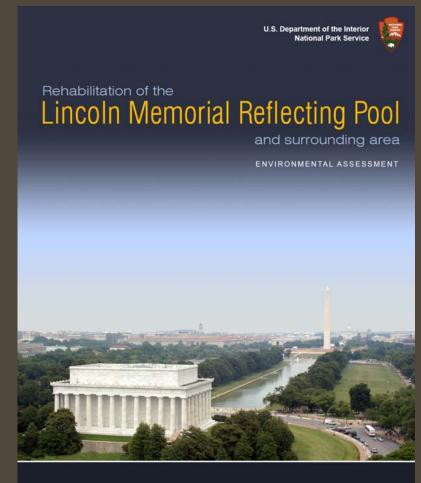

Section 106

Process

- 1. Define Undertaking/Initiate Sec 106
- 2. Identify Consulting Parties
- 3. Plan to Involve the Public
- 4. Define Area of Potential Effect (APE)
- 5. Identify Significant Cultural Resources in APE
- 6. Assess Effects on Significant Resources
- 7. Apply Criteria Of Adverse Effect
- 8. Continue Consultation
- 9. Draft Agreement Document, if needed

December 2009

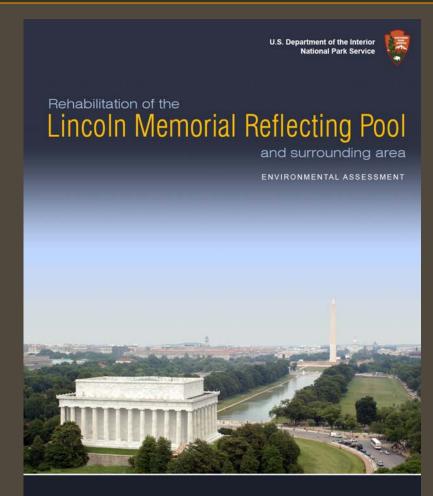

Section 106

The basic potentially affected cultural resources are historic districts, monuments, and - most notably - the documented cultural landscapes:

- Lincoln Memorial Grounds
- Constitution Gardens
- Washington Monument and Grounds
- •D.C. War Memorial
- National Mall
- Thomas Jefferson Memorial Grounds

For Section 106 purposes, the NPS will utilize this Consulting Parties Meeting to determine if the project will have "no adverse effect" upon historic properties or if there remains significant anticipated or potential adverse effect.

The former, if accepted by the DC HPO, and not objected to by the ACHP, will conclude the Section 106 Process. The latter will require the NPS to negotiate an Agreement document under the 106 regulations to avoid, minimize, or mitigate adverse effects.

December 2009

- 1. Pedestrian Circulation Improvements
- 2. Reflecting Pool Structural Rehabilitation
- 3. Reflecting Pool Water System Upgrades

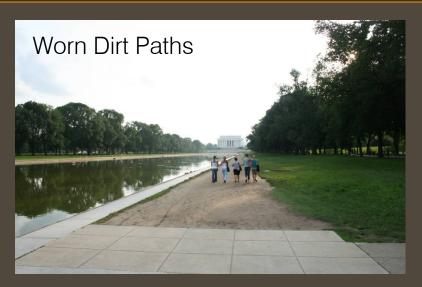

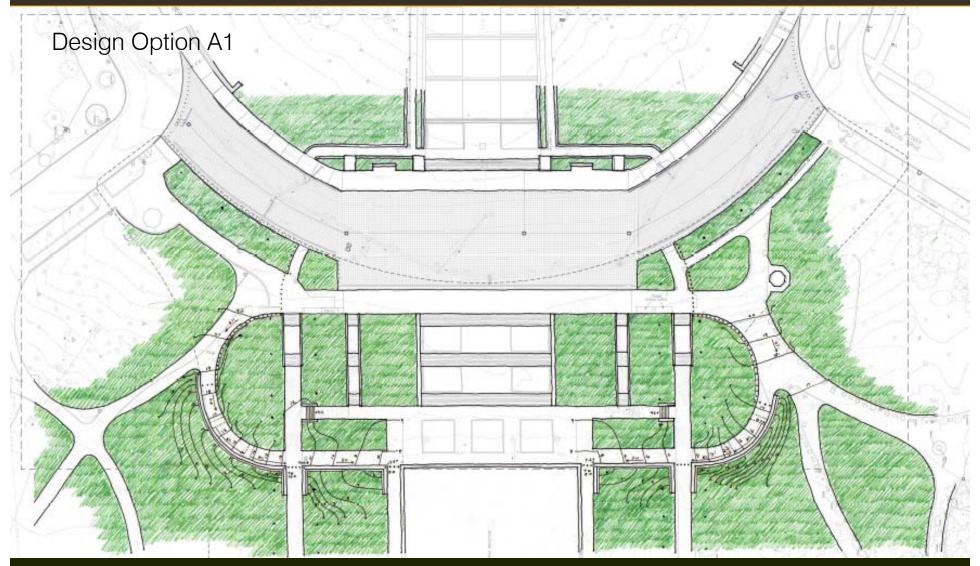

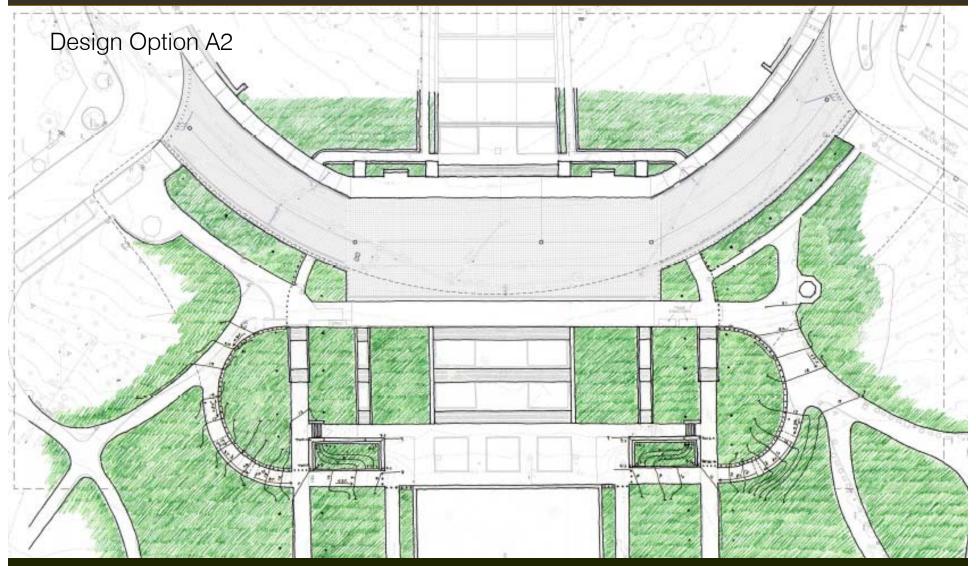

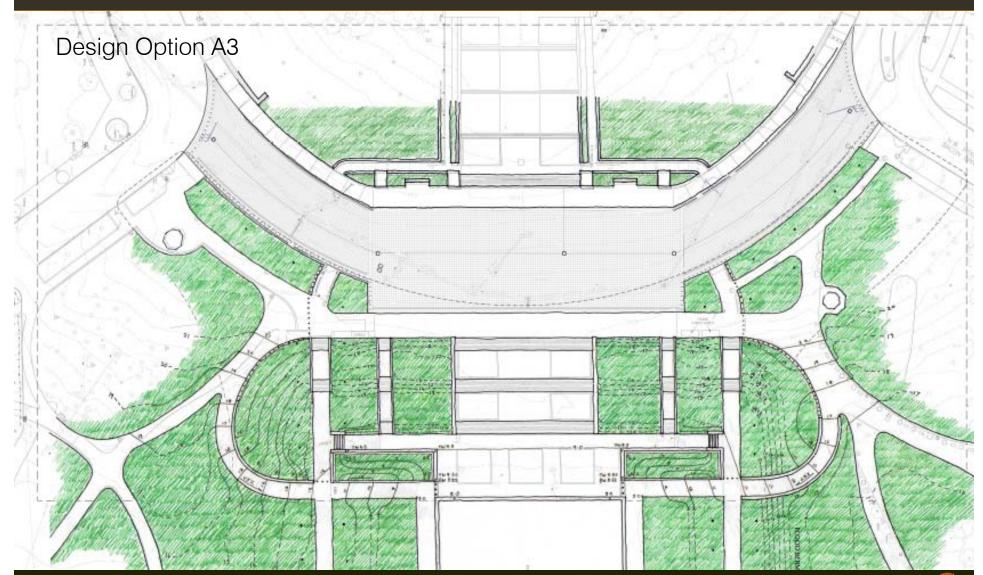

2. Reflecting Pool Structural Rehabilitation

Structural Rehabilitation

Option B1

Repair in Place

Option B2

A new structural foundation slab and grade beam supported by piles would be installed

Option B3

A unified structural system that ties the foundation slab, grade beam, coping, and adjacent sidewalks together

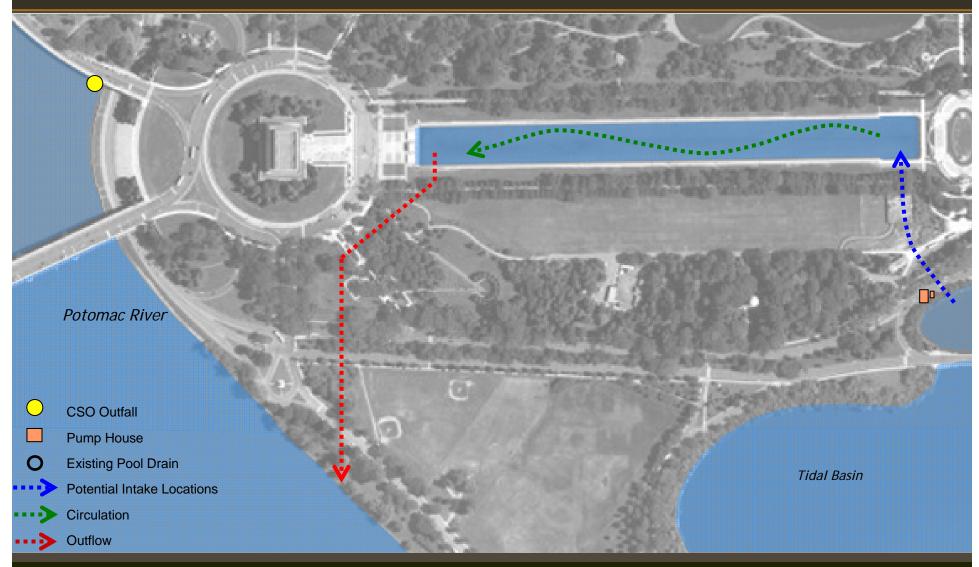

3. Reflecting Pool Water Systems Upgrades

Opportunities to Comment

Terri Urbanowski Denver Service Center 12795 West Alameda Parkway Lakewood, CO 80288-2838 202 401-0017 fax

http://parkplanning.nps.gov/ And search for National Mall and Memorial Parks

In order for your comments to be considered as part of this phase of the project, all comments must be received by January 29, 2010.

Lastly, we ask that, for Section 106 purposes, you highlight any comment on how the projects and its components may affect National Register of Historic Places resources.

December 2009

Thank You
