DP Consultants, Inc.  
Government and Public Relations

Memorandum

To: David Campbell

From: Sylvia Brown

Date: December 24, 2009

Subject: CSO Public Meeting 2 – ANC/Community Organization Outreach

---

### **Purpose of Outreach**

DP Consultants initiated scheduling to Advisory Neighborhood Commissions and other community stakeholders south of RFK Stadium in order to inform about and gather additional questions and comments for the Anacostia River Project Combined Sewer Overflow (ARP CSO) project's Environmental Assessment document, which will be released in Spring 2010.

Groups south of RFK Stadium were targeted because they will be impacted most immediately in the first phase of the construction.

### **Meeting Logistics**

Organizations were identified by their proximity within or near the Contract Divisions south of RFK Stadium. Generally taking at least three attempts, presentation scheduling requests for the organizations were sent by email and fax and communicated by telephone.

Preparation for the community meetings required coordination with the ARP CSO Project Consultant Organization and DC WASA's Office of Public Affairs, development and printing of a general fact sheet with project map, and ensuring presentation boards of the overall project and specific Contract Divisions were available.

### **Presentation Information Outline**

Each presentation included information regarding the following:

- Purpose of Anacostia River Project Combined Sewer Overflow, including Long-Term Control Plan history
- Description and impact of Combined Sewer Overflow
- Location of ARP CSO Phase I
- Reason for presenting ARP CSO to community
- Notification of future Environmental Assessment Public Meeting
- Methods by which public comments to the Environmental Assessment can be submitted

### **Meeting Summaries**

From late November 2009-mid December 2009, Anacostia River Project Combined Sewer Overflow information was presented to the following ANCs and Community Organizations.

#### **Anacostia Coordinating Council, Tuesday, November 24, 2009**

**CSO Presenter: Sylvia Brown**

**DC WASA OPA representative: Aleizha Batson**

40 ACC attendees (see attached)

Questions/Comments

- Provide further explanation of the beneficial impacts of the DCWASA ARP CSO to the cleanliness of the Anacostia River

**Advisory Neighborhood Commission 8A, Tuesday, December 1, 2009**

15 attendees, including three Commissioners (*request pending*)

**CSO Presenter: Sylvia Brown**

**ANC Commissioners**

- Anthony Muhammad, Chairman, 8A01
- Barbara Clark, 8A02
- Gregg Justice III, 8A06

Questions/Comments

- None

**Advisory Neighborhood Commission 8C, Wednesday, December 3, 2009**

**CSO Presenter: David Campbell, Sylvia Brown**

28 attendees, including four Commissioners (see attached)

- Mary Cuthbert, Chairman, 8C03
- Cardell Shelton, 8C07
- William Ellis, 8C01
- Dion Jordan, 8C02

Questions/Comments

- Will the funds from the DCWASA Impervious Surface Fee be used toward the ARP CSO?
- What will be the burden of the ARP CSO construction on us, the ratepayers?

**Advisory Neighborhood Commission 6B, Tuesday, December 8, 2009**

**CSO Presenter: Sylvia Brown**

**DC WASA OPA representative: Aleizha Batson**

20 attendees, including nine Commissioners (no sign-in sheet)

- David Garrison, Chairman, 6B01
- Mary Wright, 6B02
- Will Hill, 6B06
- Norman Metzger, 6B03
- Kristen Oldenburg, 6B04
- Kenan Jarboe, 6B05
- Michael Patterson, 6B09
- Neil Glick, 6B08
- Carol Green, 6B07

Questions/Comments

- Drop shafts: in the locations where there are drop shafts will there be tops, a building or structure visible above ground? Especially off Hilleast, would have a building or structure, minimize surface structures because of parkland, Boathouse Row is a sensitive area for surface structures as well.
- Hilleast land formerly landfill with metals. Will there be analysis of soil and what are the soil disposal plans?
- Has there been tracking of effectiveness of CSO controls to date?
- What are the District agencies involved? It is important to ensure service coordination such as with parking.

## **CSO PROJECT FACT SHEET**

## DC WATER AND SEWER AUTHORITY PROJECTS TO CONTROL COMBINED SEWER OVERFLOWS TO THE ANACOSTIA RIVER

The District of Columbia Water and Sewer Authority (DC WASA or Authority) is implementing a Long Term Control Plan (LTCP) to control combined sewer overflows (CSOs) to the Anacostia and Potomac Rivers and Rock Creek. The LTCP is being implemented under a Federal Consent Decree between the United States, the District of Columbia and the Authority. Projects to control CSOs to the Anacostia River are at the top of the Federal Court ordered schedule and the Authority is now preparing final designs and construction documents for these projects. Previous planning for the LTCP established the locations of facilities and included significant public participation involving government and private agencies, environmental interests, neighborhood groups and the general public.

At this point in the program, the Authority is preparing an Environmental Assessment Document (EA) for Anacostia River CSO Control Projects located between the Authority's advanced wastewater treatment plant at Blue Plains (5000 Overlook Avenue, S.W.) and RFK Stadium. The locations of projects included in the EA are shown on Attachment 1. The purpose of the EA is to document previous planning and local environmental effects that may result from the construction of the facilities together with temporary and permanent mitigation measures that may be necessary to incorporate the CSO control facilities into the existing combined sewer system. Additionally, the EA will serve to provide any agency information that the agency may require to authorize the construction of the CSO control facilities on lands under the agency's jurisdiction.

In keeping with established practices to inform the public about activities necessary to implement the LTCP, the Authority is conducting a construction related public participation program to provide the public the opportunity to assist in defining, prioritizing and conveying stakeholder and community interests by way of oral and written comments. Two public meetings are planned as part of the participation program. The first meeting, held on **Thursday, September 17, 2009, 6:00 p.m. to 8:00 p.m. at Washington Highlands Library, 115 Atlantic Avenue, SW, Washington, DC**, addressed previous planning, the planned construction and measures being considered to mitigate construction impacts. At this meeting, interested community members, agencies and the general public had an opportunity to receive project information as well as review the street level project mapping and its associated environmental effects.

The second meeting, to be held next spring, will address comments received from the first meeting which will have been evaluated to refine the design of the proposed projects. There will be an opportunity to provide written and oral comments which will be officially documented. Public attendance and participation in this process is welcomed and encouraged. Written comments may be submitted via email at [csotunnels@dcwasa.com](mailto:csotunnels@dcwasa.com) or mailed to David Campbell, 5000 Overlook, SW Washington, DC 20032 or faxed to 202-787-2297.

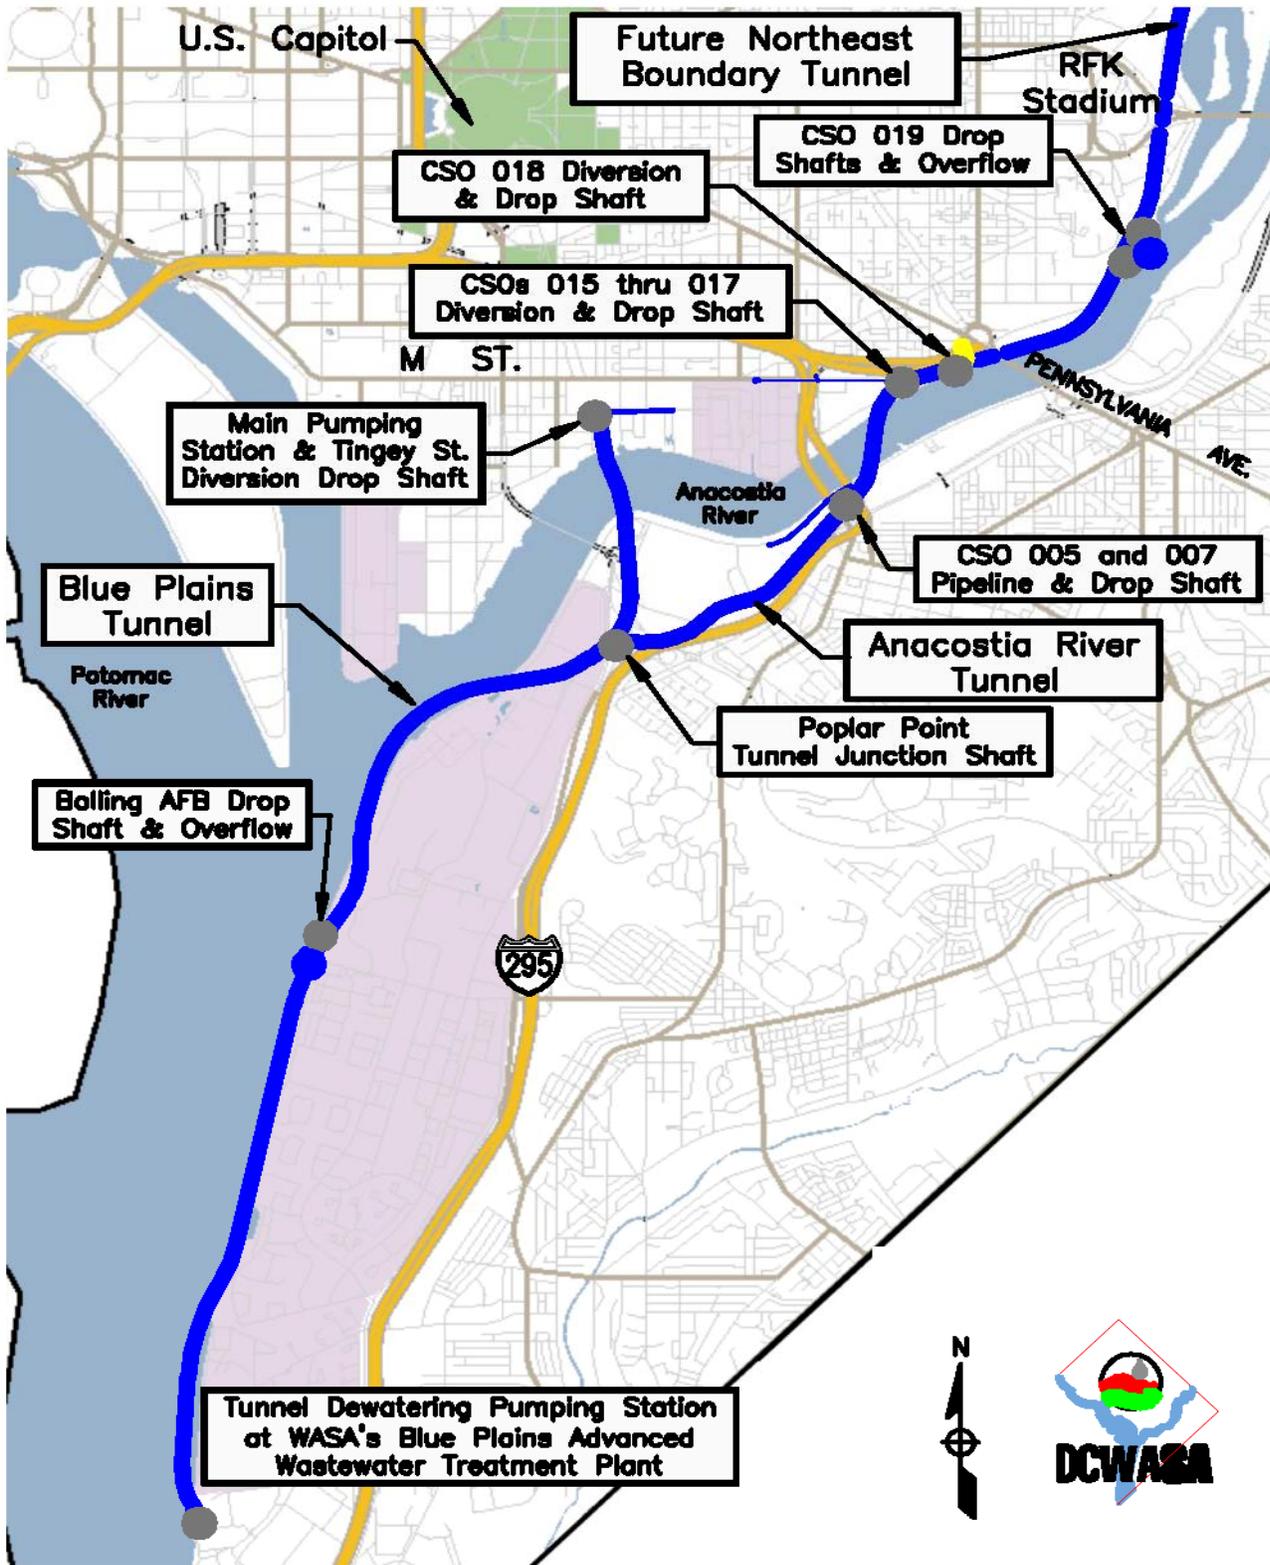

Information on the Long Term Control Plan is available on DC WASA website at [www.dcwasa.com/education/css/longtermcontrolplan.cfm](http://www.dcwasa.com/education/css/longtermcontrolplan.cfm). Feel free to contact Jean Manuel at 202-787-2251 with project related questions.

November 24, 2009

40 attendees  
- Sierra Club rep Irv Sheffey  
- Far SESW Fam Strer Collab

1. Call to order and moment of reflection
2. Minutes
3. Treasurer's report
4. Introductions
5. Chair's report
6. Executive Director's report
7. Committee reports
8. Unfinished business
9. Program

✓ Dr. Lois Williams, Bertha B. Williams Academy Public Charter School

✓ Maurice Henderson, DC Counts Campaign Director

✓ Herman Odom, Acting Director, DC Office on Ex-Offenders Affairs, Executive Office of the Mayor *6 wks on job*

Anacostia High School Modernization Project:

Jay Brinson, Project Manager

Nikkia Martin, Project Coordinator

Dwight Cunningham, Communications / Outreach Manager

Tony Robinson, Communications Director, Office of Public Education Facilities  
Modernization

✓ Vicky Beasley, DC People's Counsel nominee

Sylvia Brown and David Campbell, DC Water and Sewer Authority

10. New business
11. Announcements
12. Adjournment

**Combined Federal Campaign number for ACC is 48486.**

Tuesday, January 26, 2010, 12 pm to 2 pm, Monthly Meeting, Anacostia Museum

Saturday, September 25, 2010, 11:30 a.m. to 3 p.m., Annual Boat Ride, \$100 per person

~ 15 attendees,  
including 3 commissioners

# ADVISORY NEIGHBORHOOD COMMISSION 8A

Meeting Agenda

921 Pennsylvania Avenue SE  
December 8, 2009 - 7:00 PM

Comments

• Jarboe: Drop drafts: tops, esp off Hillcrest, wd have a bldg or structure, minimize surface structures bcs of parkland; Boathouse Row sensitive for that area too  
\* Hillcrest land formerly landfill w/ metals, analysis of soil & disposal plans

Agenda

1. Adoption of Agenda
2. Community Speakout
3. Community and Commission Announcements
4. Presentation

- Councilmember David Catania - Highlights from Health Committee
- DC Water and Sewer Authority - Combined Sewer Overflow Project; Sylvia Brown, Project Coordinator and Sarah Neiderer discussing the galvanized plumbing study and how to improve water quality in your home (Late addition)

5. Planning and Zoning Committee

(These items will also be considered by the P & Z Committee on December 1, 2009)

- HPA # 10-070, 323 S. Carolina Avenue, SE - 2-story rear addition atop first floor structure and partially filling front dogleg
- ZC # 09-16, Text amendment to Permit Car-Sharing Parking spaces as a Matter-of-Right Use in R, CR, and SP Zones
- ZC # 08-06-11, Comprehensive Zoning Regulations Rewrite: Waterfront

6. ABC Committee

(These items will also be considered by the ABC Committee on December 3, 2009)

- Dulce Café & Lounge, Lic. # ABRA-082761, 1123 Pennsylvania Avenue, SE - Revision of Voluntary Agreement to address Protest issues.

7. Resolution regarding Councilmember Wells' Bill 18-277, "Ward 6 Residential Parking Protection Pilot Act of 2009", (DC Council Committee on Public Works and Transportation hearing December 10) (Late addition to addenda)

8. Eastern Market Report
9. Adoption of 2010 Meeting Schedule
10. Approval of Commission Minutes
11. Adjournment

• Metzger: tracking of CSO controls thus far, increase, decrease, same  
• District agencies involved, ensure service coordination Ex. parking

NOTE: Late-Breaking ABC, Payphone, Zoning, or Historic Preservation Cases may be added to this Agenda.

**Serving the Public • Protecting the Environment**

DP Consultants, Inc.  
Government and Public Relations

Memorandum

To: Alverna Durham

From: Sylvia Brown

Date: April 14, 2010

Subject: CSO Public Meeting 2 – ANC/Community Organization Outreach

### **Purpose of Outreach**

DP Consultants initiated scheduling to Advisory Neighborhood Commissions and other community stakeholders south of RFK Stadium in order to inform about and gather additional questions and comments for the Anacostia River Project Combined Sewer Overflow (ARP CSO) project's Environmental Assessment document, which will be released in Spring 2010.

Groups south of RFK Stadium were targeted because they will be impacted most immediately in the first phase of the construction.

### **Meeting Logistics**

Organizations were identified by their proximity within or near the Contract Divisions south of RFK Stadium. Generally taking at least three attempts, presentation scheduling requests for the organizations were sent by email and fax and communicated by telephone.

Preparation for the community meetings required coordination with the ARP CSO Project Consultant Organization and DC WASA's Office of Public Affairs, development and printing of a general fact sheet with project map, and ensuring presentation boards of the overall project and specific Contract Divisions were available.

### **Presentation Information Outline**

Each presentation included information regarding the following:

- Purpose of Anacostia River Project Combined Sewer Overflow, including Long-Term Control Plan history
- Description and impact of Combined Sewer Overflow
- Location of ARP CSO Phase I
- Reason for presenting ARP CSO to community
- Notification of future Environmental Assessment Public Meeting
- Methods by which public comments to the Environmental Assessment can be submitted

### **Meeting Summary**

**Advisory Neighborhood Commission 8D, Thursday, January 28, 2010**

**CSO Presenter: Sylvia Brown**

**DC WASA OPA representative: Aleizha Batson**

25 attendees (including five Commissioners: Patricia Carmon (8D 01), Olivia Henderson (8D02), Absalom Jordan (8D03), M. Jay Lee (8D05), Theresa Jones (8D07, Chair)

Questions/Comments

- Size of surface structure and description
- Monetary contribution of Maryland to Anacostia River clean-up
- How can citizens be sure comments will be addressed

- Why is meeting in Ward 6 instead of Ward 8 because most work is done in Ward 8?
- How will above-ground structures look?
- Will the route follow which follows I-295 be closer to the River or land/community?
- Are the archeological resources noted
- There is clay soil and underground springs in the area. Have soil samples been taken
- There is erosion along 2<sup>nd</sup> Street and Newcombe because the area was formerly a landfill. What are abatement measures?

## **CSO PROJECT FACT SHEET**

# Long Term CSO Control Plan Anacostia River Projects

District of Columbia Water and Sewer Authority

## DC WATER AND SEWER AUTHORITY PROJECTS TO CONTROL COMBINED SEWER OVERFLOWS TO THE ANACOSTIA RIVER

The District of Columbia Water and Sewer Authority (DC WASA or Authority) is implementing a Long Term Control Plan (LTCP) to control combined sewer overflows (CSOs) to the Anacostia and Potomac Rivers and Rock Creek. The LTCP is being implemented under a Federal Consent Decree between the United States, the District of Columbia and the Authority. Projects to control CSOs to the Anacostia River are at the top of the Federal Court ordered schedule and the Authority is now preparing final designs and construction documents for these projects. Previous planning for the LTCP established the locations of facilities and included significant public participation involving government and private agencies, environmental interests, neighborhood groups and the general public.

At this point in the program, the Authority is preparing an Environmental Assessment Document (EA) for Anacostia River CSO Control Projects located between the Authority's advanced wastewater treatment plant at Blue Plains (5000 Overlook Avenue, S.W.) and RFK Stadium. The locations of projects included in the EA are shown on Attachment 1. The purpose of the EA is to document previous planning and local environmental effects that may result from the construction of the facilities together with temporary and permanent mitigation measures that may be necessary to incorporate the CSO control facilities into the existing combined sewer system. Additionally, the EA will serve to provide any agency information that the agency may require to authorize the construction of the CSO control facilities on lands under the agency's jurisdiction.

In keeping with established practices to inform the public about activities necessary to implement the LTCP, the Authority is conducting a construction related public participation program to provide the public the opportunity to assist in defining, prioritizing and conveying stakeholder and community interests by way of oral and written comments. Two public meetings are planned as part of the participation program. The first meeting, held on **Thursday, September 17, 2009, 6:00 p.m. to 8:00 p.m. at Washington Highlands Library, 115 Atlantic Avenue, SW, Washington, DC**, addressed previous planning, the planned construction and measures being considered to mitigate construction impacts. At this meeting, interested community members, agencies and the general public had an opportunity to receive project information as well as review the street level project mapping and its associated environmental effects.

The second meeting, to be held next spring, will address comments received from the first meeting which will have been evaluated to refine the design of the proposed projects. There will be an opportunity to provide written and oral comments which will be officially documented. Public attendance and participation in this process is welcomed and encouraged. Written comments may be submitted via email at [csotunnels@dcwasa.com](mailto:csotunnels@dcwasa.com) or mailed to David Campbell, 5000 Overlook, SW Washington, DC 20032 or faxed to 202-787-2297.

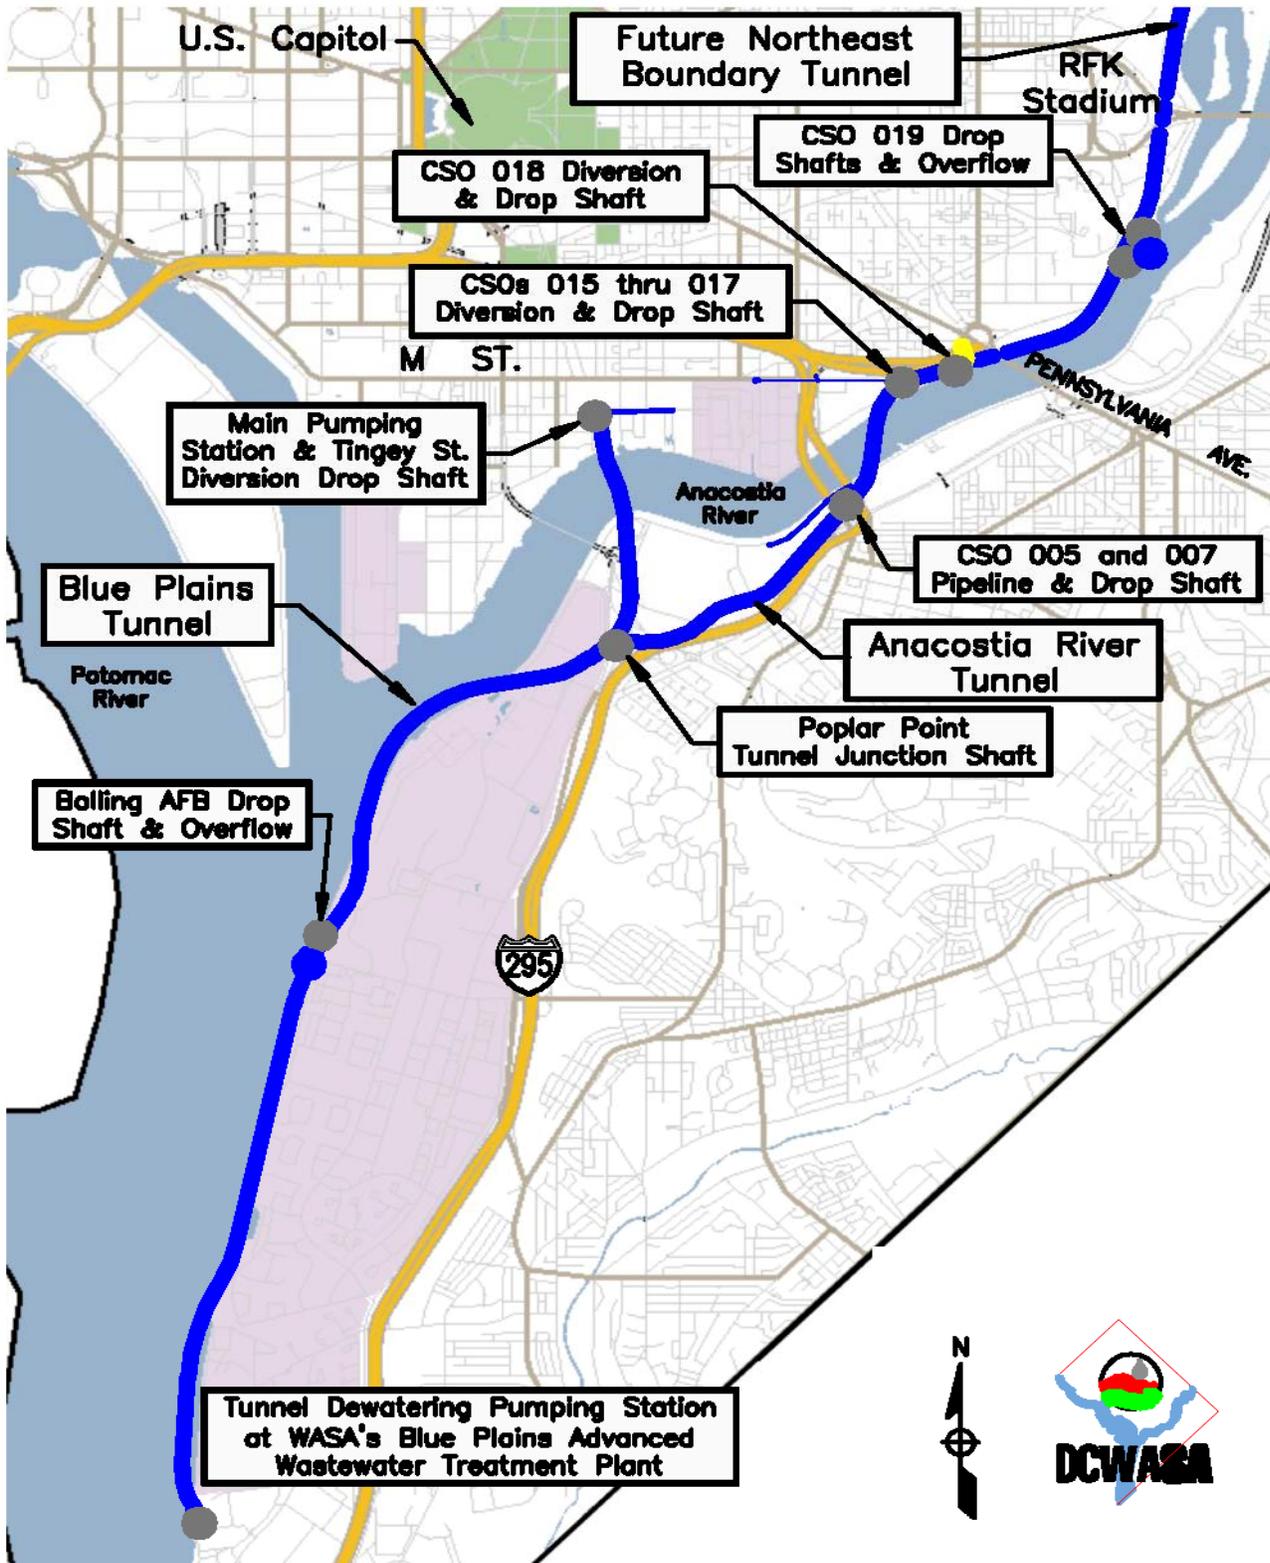

Information on the Long Term Control Plan is available on DC WASA website at [www.dcwasa.com/education/css/longtermcontrolplan.cfm](http://www.dcwasa.com/education/css/longtermcontrolplan.cfm). Feel free to contact Jean Manuel at 202-787-2251 with project related questions.
