Memorandum

To: Tom Medema, Project Manager, Yosemite National Park

From: Acting Superintendent, Yosemite National Park

Subject: NEPA and NHPA Clearance: 2009-114 Foresta Lang House Woodstove Installation (27512)

The Management Team has reviewed the proposed project/action and completed its environmental assessment documentation, and we have determined that there:

- Will not be any effect on threatened, endangered, or rare species and/or their critical habitat.
- Will not be any effect on historical, cultural, or archeological resources.
- Will not be serious or long-term undesirable environmental or visual effects.

The subject proposed project, therefore, is now cleared for all NEPA and NHPA compliance requirements as presented above. Project plans and specifications are approved and construction and/or project implementation can commence.

For the proposed project actions to be within compliance requirements during construction and/or project implementation, the following mitigations must be adhered to:

- No mitigations identified.

Categorical Exclusion Form

Project: 2009-114 Foresta Lang House Woodstove Installation

PEPC ID: 27512

Project Description: The existing fireplace in the Lang House is outdated, inefficient, and unsafe to use. The current room centered fireplace is unsafe because of its location and lack of venting. It is also not effective in heating the building. The propane furnace used 970 gallons of propane to heat the house last year. This project includes replacing the inefficient heat source with an environmentally sound and cost effective wood stove in an alternate location. The woodstove replacement will require an 18 inch diameter hole in the roof for the chimney. Noncombustible flooring and wall protection will be installed as part of the project. Yosemite Institute is committed to improved air quality from this wood stove upgrade. Yosemite Institute facilities staff will install the new stove and a contractor will be responsible for waste removal. The building has been preliminary determined to be historic from park staff but is not on the List of Classified Structures.

Project Locations:

Mariposa County, CA

Mitigations:

- No mitigations identified.

Describe the category used to exclude action from further NEPA analysis and indicate the number of the category (see Section 3-4 of DO-12):

C.3 Routine maintenance and repairs to non-historic structures, facilities, utilities, grounds and trails.

On the basis of the environmental impact information in the statutory compliance file, with which I am familiar, I am categorically excluding the described project from further NEPA analysis. No exceptional circumstances (e.g. all boxes in the ESF are marked "no") or conditions in Section 3-6 apply, and the action is fully described in Section 3-4 of DO-12.
