# INTRODUCTION AND GUIDE

## Introduction

Pennsylvania Power and Light Electric Utilities (PPL) and Public Service Electric and Gas Company (PSE&G) (Applicants) have requested a construction and right-of-way (ROW) permit from the National Park Service (NPS) for the expansion of an existing electric transmission line that crosses NPS lands within Pennsylvania and New Jersey and the addition of a second larger 500,000 volt line (500kV). The need for a new line somewhere in the region is based on direction for electric transmission expansion provided by the Regional Transmission Operator, PJM Interconnection, which oversees the overall movement of wholesale electricity between many electric utilities throughout a 13 state region. The Applicants' proposed project, the Susquehanna (Berwick, PA) to Roseland (NJ) line, proposes to expand upon an existing ROW which contains a single 230,000 volt (230kV) electric transmission line (a non-critical element of the transmission grid) by replacing the existing towers with new, taller tower structures and adding an additional 500,000 volt (500kV) line; which will be a critical element of the transmission grid. The request would necessitate widening the existing ROW and constructing new access roads. The expanded line and new towers will impact three units of the National Park Service: the Appalachian National Scenic Trail (APPA), the Delaware Water Gap National Recreation Area (DEWA); and the Middle Delaware National Scenic and Recreational River (MDSR). The NPS is preparing an Environmental Impact Statement (EIS) to evaluate the impacts to the natural and human environment from the Applicants' proposal and to assist us in making a decision on the issuance of permits.

## Public Comment Process Summary

On July 09, 2010, the NPS released the Preliminary Alternatives Newsletter for the Susquehanna to Roseland Transmission Line EIS to the public for review and comment. The newsletter included a description of the project background, park purpose and significance, project progress to date, the National Environmental Policy Act (NEPA) process, and a description of the seven preliminary alternatives. The newsletter was available for public review until September 14, 2010.

During the comment period, three public meetings were held in Pennsylvania and New Jersey from August 17- 19, 2010. Meetings were held in Bushkill, Pennsylvania (August 17th); Stroudsburg, Pennsylvania (August 18th); and Lafayette, New Jersey (August 19th). Each public meeting had an open house from 2:30 PM till 4:30 PM and a public hearing from 6:00 PM until 9:00 PM. During the open house, the public was invited to read about the preliminary alternatives and ask park staff questions regarding the alternatives. The public hearings began with a meeting overview by a NPS project manager and welcome from the Park Superintendents. Formal public comment sessions were then recorded by a court reporter. The evenings concluded with a return to an open house. NPS staff was on hand to visit with meeting attendees and to answer questions.

A total of 343 individuals attended the public comment meetings in Pennsylvania and New Jersey. A total of 92 attendees spoke during the formal public comment sessions. The number of attendees and formal commenters at each meeting was as follows:

- Bushkill, Pennsylvania – 65 attendees and 20 formal commenters
- Stroudsburg, Pennsylvania – 126 attendees, 30 formal commenters
- Lafayette, New Jersey – 152 attendees, 42 formal commenters

The public were able to submit their comments on the project using any of the following methods:

- Electronically through the NPS Planning, Environment, and Public Comment (PEPC) website
- In person at the public meetings
- By mailing comments to the NPS
- By emailing comments to the NPS

## Nature of Comments Received

Over 1,700 pieces of correspondence from over 27 states, and 7 countries (United States, Germany, Egypt, India, Sweden, Turkey, and Italy) were received during the public comment period. The correspondence resulted in 3,342 substantive comments. Approximately 1,572 letters submitted were from individuals living within the proposed area for the Susquehanna to Roseland Transmission line (Pennsylvania and New Jersey). Among the commenters from Pennsylvania and New Jersey, the topics that received the majority of the comments were expressions of support for or opposition to the proposed alternatives; concerns for vegetation, wildlife, and water quality; concerns about the health and safety of individual's living in close proximity of the proposed transmission line; and concerns of impacts to individuals real estate.

The following were general concerns of the proposed project alternatives:

- Overall scope of the project - Multiple comments were received suggesting that the park and/or utility should explore other alternative means of energy production, including local generation, energy conservation, solar power, wind power, and new transmission technologies.
- The proposed alternate routes cumulative effects to air and water pollution from the use of coal- fired generating plants.
- The need of the project is either unclear or is not necessary based on the decrease of energy demand within the local area.
- Homeowners/townships expressed concerns of the placement of the transmission line through populated areas. Safety concerns include the health of individuals, especially the children attending schools along the proposed routes, the impact of construction to emergency vehicles, and cancer clusters.
- Homeowners are concerned about decreasing home values if the transmission line were to run through their neighborhoods.
- Impacts to the historic viewshed and historic sites including the Parsippany Rock House, Old Mine Road, and Morris Canal.
- Impacts to the visitor experience at the parks from the noise associated with the transmission line and construction equipment, in addition to the natural viewshed/scenery of the parks being destroyed.
- Clear cutting would be required for the transmission line and access roads. Commenters are concerned that the removal of vegetation would destroy habitat for many wildlife species, create habitat fragmentation, increase soil erosion, and degrade the water quality of the Delaware River.
- The migratory bird flight line and corridor are located along the proposed transmission line routes.

Commenters are concerned that there would be an increase in bird- strikes.

- The alternate proposed routes would pass through other park lands including Cherry Valley, Lehigh Gorge, and other state parks which are used by many locals in the area. Commenters feel these areas should also be preserved.
- Wetlands would be impacted along the alternate routes due to destruction of the wetlands, alterations to hydrology, and from filling of wetland areas.
- Mitigation should be required for all impacts to natural resources, including wildlife, vegetation, water resources, and wetlands.

All comments, regardless of their topic, were carefully read and analyzed and are presented in this report. Commenters will continue to be notified of the project's progress, and are encouraged to visit the NPS PEPC website at [www.parkplanning.nps.gov/dewa](http://www.parkplanning.nps.gov/dewa) to view information pertaining to this project.

The NPS received 129 correspondences through the PEPC website that contained contact information, but did not have text associated with the entry. A letter was mailed to the individuals with blank comments requesting that they re- submit their comment on the preliminary range of alternatives by October 15, 2007. Individuals who do not see their comment represented in the summary report will also have another opportunity to comment on the alternatives in the Draft EIS.

Some individuals submitting comments choose to list themselves as a member of a group. This does not necessarily mean that the comments represent the official group, but the PEPC system listed the group's name as a result of the individual's reference to it. We are sensitive to that particular aspect of the PEPC system and will treat every comment, group or individual with equal concern in our review of comments.

### The Comment Analysis Process

Comment analysis is a process used to compile and combine similar public comments into a format that can be used by decision makers and the Susquehanna to Roseland Transmission Line EIS Team. Comment analysis assists the team in organizing, clarifying, and addressing technical information pursuant to NEPA regulations. It also aids in identifying the topics and issues to be evaluated and considered throughout the planning process.

- The process includes five main components:
- Developing a coding structure
- Employing a comment database for comment management
- Reading and coding of public comments
- Interpreting and analyzing the comments to identify issues and themes
- Preparing a comment summary

A coding structure was developed to help sort comments into logical groups by topics and issues. The coding structure was derived from an analysis of the range of topics discussed during internal NPS scoping, past planning documents, and the comments themselves. The coding structure was designed to capture all comment content rather than to restrict or exclude any ideas.

The NPS PEPC database was used for management of the comments. The database stores the full text of all correspondence and allows each comment to be coded by topic and issue. Some outputs from the database include tallies of the total number of correspondence and comments received, sorting and reporting of comments by a particular topic or issue, and demographic information regarding the sources of the comments.

Analysis of the public comments involved the assignment of the codes to statements made by the public in their letters, email messages, mailed comments, and comments stated at the public meetings. All comments were read and analyzed.

Although the analysis process attempts to capture the full range of public concerns, this content analysis report should be used with caution. Comments from people who chose to respond do not necessarily represent the sentiments of the entire public. Furthermore, this was not a vote-counting process, and the emphasis was on content of the comment rather than the number of times a comment was received. This report is intended to be a summary of the comments received, rather than a statistical analysis.

## Definition of Terms

Primary terms used in this document are defined below.

Correspondence: A correspondence is the entire document received from a commenter. It can be in the form of a letter, email, written comment form, note card, open house transcript, or petition. Each piece of correspondence is assigned a unique identification number in the PEPC system.

Comment: A comment is a portion of the text within a correspondence that addresses a single subject. It should include information such as an expression of support or opposition to the use of a potential management tool, additional data regarding an existing condition, or an opinion debating the adequacy of the analysis.

Code: A grouping centered on a common subject. The codes were developed during the comment process and are used to track major subjects throughout the EIS process.

Concern: Concerns are a written summary of all comments received under a particular code. Some codes were further separated into several concern statements to provide a better focus on the content of the comments.

## Guide to this Document

This report is organized as follows:

Content Analysis Report: This is the basic report produced from PEPC that provides information on the numbers and types of comments received, organized by code. The first section of the report provides a summary of the number of comments that were coded under each topic. The second section provides general demographic information, such as the states where commenters live, the number of letters received from different categories of organizations, etc.

Public Comment Summary: This report summarizes the substantive comments received during the comment process. These comments are organized by codes and further organized into concern statements. Below each concern statement are representative quotes, which have been taken directly from the text of the public's comments and have not been edited; therefore some spelling and grammar errors were not corrected. Representative quotes further clarify the concern statements.

Correspondence Index of Organizations: This provides a listing of all groups that submitted comments, arranged and grouped by the following organization types as defined by PEPC: business; civic groups; conservation/preservation groups; county government, federal government; ; non- governmental groups; recreational groups; state government; town or city government; unaffiliated individuals. In many instances, the organization type was not defined by the commenter; therefore, organizations were listed as "Unaffiliated Individuals". Each piece of correspondence was assigned a unique identification number upon entry into PEPC. This number can be used to assist the public in indentifying the way NPS addressed their comments. This list is organized alphabetically.

Correspondence Index of Individual Commenters: This provides a listing of all of the individuals who submitted comments during the public comment period. Like the previous index, each correspondence was assigned a unique identification number which can be used to assist individuals in identifying the way in which NPS addressed their comments. This list is organized alphabetically. Those correspondence identified as N/A represent individuals who did not submit their first or last name.

Index by Organization Type: This list identifies all codes that were assigned to each individual piece of correspondence and is arranged by organization type. In many instances, the organization type was not defined by the commenter; therefore, organizations were listed as "Unaffiliated Individuals". Those correspondence identified as N/A represent individuals who did not submit their first or last name.

Comment Index by Code: This list identifies which commenters or authors (identified by PEPC organization type) commented on which topics, as identified by the codes used in this analysis. The report is organized by code, and under each code is a list of the authors who submitted comments that fell under that code, and their correspondence numbers. Those correspondences identified as N/A represent unaffiliated individuals.

## PUBLIC COMMENT SUMMARY

### AL1100 - No Action Alternative: Supports

Concern ID: 25761  
CONCERN STATEMENT: Commenters stated that the No Action Alternative is the only alternative that should be considered.  
Representative Quote(s):  
Corr. ID: 11 Organization: Not Specified  
Comment ID: 146009 Organization Type: Unaffiliated Individual  
Representative Quote: The only acceptable alternative is "NO ACTION", Alternative 1. Any "build" alternative that allows these lines to go through our public lands would have serious, irreversible impacts on the region's water quality, open space, endangered species, scenic vistas, forests, and the visitor experience within the parks  
Corr. ID: 30 Organization: Sierra Club  
Comment ID: 146043 Organization Type: Unaffiliated Individual  
Representative Quote: The only acceptable alternative is "no action". The "no action" alternative would promote energy efficiency and renewable resources throughout New Jersey (where I live) and Pennsylvania.  
Corr. ID: 49 Organization: Not Specified  
Comment ID: 145986 Organization Type: Unaffiliated Individual  
Representative Quote: I am writing to urge you to stop PSE&G's unnecessary expansion of the Susquehanna- Roseland transmission lines. "NO ACTION" is the only alternative that should be considered.

### AL1110 - No Action Alternative: Opposes

Concern ID: 25762  
CONCERN STATEMENT: Commenters stated that Alternative 1, the No Action Alternative, is unacceptable due to the need for the transmission line upgrade.  
Representative Quote(s):  
Corr. ID: 386 Organization: New Jersey Chamber of Commerce  
Comment ID: 148661 Organization Type: Civic Groups  
Representative Quote: Alternative 1, the no build option, seems totally inconsistent with the determination of PJM on the need for the transmission upgrade and with findings of the regulatory commissions in both New Jersey and Pennsylvania which have approved this project.  
Corr. ID: 540 Organization: Newark Regional Business Partnership  
Comment ID: 149737 Organization Type: Civic Groups  
Representative Quote: The need for this project has been well-documented and approved by two states rendering the requisite "No Action" Alternative 1, no alternative at all.  
Corr. ID: 543 Organization: New Jersey Alliance for Action

Inc.  
Comment ID: 149748    Organization Type: Non- Governmental  
Representative Quote: This line was determined to be essential to future reliability of electric service to New Jersey and the region. Therefore a No-Build alternative is unacceptable.

#### AL1210 - Alternative Route A: Opposes

Concern ID: 25841  
**CONCERN STATEMENT:** [Commenters stated that the original Alternative A would create impacts to vegetation, wildlife, and socioeconomics.](#)  
Representative Quote(s): Corr. ID: 4    Organization: NY/NJ Trail Conference  
  
Comment ID: 145999    Organization Type: Unaffiliated Individual  
Representative Quote: Furthermore, I oppose Route C. This route would be very disruptive to animal habitat, wetlands, affect property values, aesthetic values, etc. And again, the line is NOT needed. This also applies to Route A.

#### AL1400 - Alternative Route C: Supports

Concern ID: 25842  
**CONCERN STATEMENT:** [Commenters stated that they are in support of the original Route C.](#)  
Representative Quote(s): Corr. ID: 472    Organization: Not Specified  
  
Comment ID: 149665    Organization Type: Unaffiliated Individual  
Representative Quote: I and my husband are in support of Route C.

#### AL1410 - Alternative Route C: Opposes

Concern ID: 25843  
**CONCERN STATEMENT:** [Commenters stated their opposition to the original Route C because of the impacts to the environment and decreasing value of homes.](#)  
Representative Quote(s): Corr. ID: 280    Organization: Not Specified  
  
Comment ID: 147547    Organization Type: Unaffiliated Individual  
Representative Quote: I urge the National Park Service to work with PPL to make route B feasible. Route C would be disastrous to a very large numbers of people negatively impacting their houses which are the biggest financial investments of their lives. Their houses are more than financial investments; they are the homes and the center of their families.  
Corr. ID: 1291    Organization: Not Specified

Comment ID: 152588    Organization Type: Unaffiliated Individual  
Representative Quote: One of PPL's alternative options, option "C" run right through a number of small villages and will disrupt the way of life for many people. There will be a lot of trees removed and the effect on human life and wildlife will be far worse than putting the power line through the park on a route that already exists.

#### AL1710 - Permit Denial with No New Alternatives

Concern ID: 25827  
**CONCERN STATEMENT:** [Commenters stated that the National Park Service should deny the utilities the permits for the transmission line upgrade within the park.](#)  
Representative Quote(s): Corr. ID: 1217    Organization: Not Specified

Comment ID: 152488    Organization Type: Unaffiliated Individual  
Representative Quote: I urge the Park Service to turn down the PSE&G and PP&L permits for this project.

#### AL1800 - Alternatives: Questions the Alternative Development Process

Concern ID: 25829  
**CONCERN STATEMENT:** [Commenters stated their concern with how the alternatives were developed.](#)  
Representative Quote(s): Corr. ID: 620    Organization: Friends of Cherry Valley

Comment ID: 150553    Organization Type: Unaffiliated Individual  
Representative Quote: Where is the criteria for these alternate routes that you picked; do you have them? Are they available to the public? We'd like to see them.

Corr. ID: 983    Organization: Association Of NJ Environmental Commission

Comment ID: 151001    Organization Type: Civic Groups  
Representative Quote: Equally concerning is the narrow scope of the alternatives presented and the nontransparent manner in which the alternatives, some alternatives were dismissed.

#### AL1900 - Action Alternative 2: Support

Concern ID: 25830  
**CONCERN STATEMENT:** [Commenters stated their support for Alternative 2, stating it would have less of an impact on the local communities than the other proposed alternatives.](#)  
Representative Quote(s): Corr. ID: 1    Organization: Volk Family

Comment ID: 145993    Organization Type: Unaffiliated Individual

Representative Quote: Please allow the originally planned route to avoid placing major consequences on surrounding communities.

Corr. ID: 92                      Organization: Not Specified

Comment ID: 146220      Organization Type: Unaffiliated Individual

Representative Quote: Please stay with the Approved Route Alternative 2. This has the least total impact to the environment, communities, residents, and property owners.

Concern ID: 25831

CONCERN                      Commenters stated their support for Alternative 2, stating it would follow  
STATEMENT:                      the existing Right of Way and be the least intrusive.

Representative                      Corr. ID: 45                      Organization: Greater Wyoming Valley Audubon  
Quote(s):                                      Society

Comment ID: 146071      Organization Type: Unaffiliated Individual

Representative Quote: I believe that the route selected by PPL and approved by the PA PUC should be the route used to build the power line. Since this route is mostly on existing power line corridors it will have the least impact on our environment

Corr. ID: 74                      Organization: Not Specified

Comment ID: 146353      Organization Type: Unaffiliated Individual

Representative Quote: Because it already follows existing right- of- ways, alternative #2 will be the least disruptive to people and the environment, in both the short- term and long- term.

#### AL1910 - Action Alternative 2: Oppose

Concern ID: 25832

CONCERN                      Commenters stated their opposition to Alternative 2 because of the impacts  
STATEMENT:                      to the park during construction.

Representative                      Corr. ID: 67                      Organization: Not Specified  
Quote(s):

Comment ID: 146338      Organization Type: Unaffiliated Individual

Representative Quote: The Appalachian Trail as it runs through the Delaware River National Recreational Area is a jewel that should not be spoiled by the proposed power line crossing. While the line will use existing ROW, the extensive construction needed for the upgrade would have a negative impact on one of the best parts of this park. Alternative 2 should therefore not be chosen

Concern ID: 25833

CONCERN                      Commenters stated their opposition to Alternative 2 due to the impacts to  
STATEMENT:                      natural resources, cultural resources, and viewshed of the parks.

Representative                      Corr. ID: 152                      Organization: Appalachian Mountain Club  
Quote(s):

Comment ID: 146426    Organization Type: Unaffiliated Individual  
 Representative Quote: The power company's preferred route -  
 Alternative 2 - is unacceptable because of its damaging impact from the  
 proposed access roads, the 300 foot clearance and the resulting damage to  
 sensitive ecological and historic sites. This option would have a significant  
 impact on a number of trails and popular recreational sites in that area.  
 Corr. ID: 926    Organization: Not Specified  
 Comment ID: 151605    Organization Type: Unaffiliated Individual  
 Representative Quote: Please do not further degrade our Natural parks by  
 routing transmission lines through the Delaware Water gap.  
 Corr. ID: 933    Organization: Not Specified  
 Comment ID: 151612    Organization Type: Unaffiliated Individual  
 Representative Quote: I do not agree with the placement of electric  
 transmission lines through the most scenic natural recreation area in New  
 Jersey - The Delaware River NRA in northwest New Jersey and eastern  
 Pennsylvania.

#### AL1920 - Action Alternative 2: Suggest Change to Alternative

Concern ID:	25834
CONCERN	<a href="#">Commenters stated that Alternative 2 should use underground lines</a>
STATEMENT:	<a href="#">through the park property.</a>
Representative	Corr. ID: 1173    Organization: National Audubon Society
Quote(s):	
	Comment ID: 151567    Organization Type: Unaffiliated Individual
	Representative Quote: In summary, if a new 500 kV line is to be constructed connecting the Susquehanna and Roseland substations, we believe the routing should maximize use of the existing 230 kV line ROW, minimize habitat loss and fragmentation, and utilize underground superconductive technology within the Parks.
Concern ID:	25835
CONCERN	<a href="#">Commenters stated that Alternative 2 should include mitigation for all</a>
STATEMENT:	<a href="#">resources impacted, including short- term impacts.</a>
Representative	Corr. ID: 64    Organization: Not Specified
Quote(s):	
	Comment ID: 146335    Organization Type: Unaffiliated Individual
	Representative Quote: It would appear that Alternative 2 should be approved and that all potential mitigations to preserve the park should be required so as to minimize the short term impacts to the park during construction
	Corr. ID: 631    Organization: New Jersey Audubon Society
	Comment ID: 150588    Organization Type: Conservation/Preservation
	Representative Quote: Let's manage that

existing corridor better than it is today with a long- term goal of having a mitigation plan that improves upon the status quo so we're not talking about something new, we're not talking about something worse than what we have today but let's set the bar high and actually set a goal to improve the status quo of what we see today because there are endangered species, plants and animals along that line that we can improve there.

#### AL2000 - Action Alternative 3: Support

Concern ID:	25763
CONCERN STATEMENT:	Commenters stated that they support Alternative 2 or 3 since it would use the existing Right of Way.
Representative Quote(s):	<div> <div>Corr. ID: 104</div> <div>Organization: Not Specified</div> </div> <div> <div>Comment ID: 146239</div> <div>Organization Type: Unaffiliated Individual</div> </div> <div> <div>Representative Quote: It appears to me that routes alternative 2 and alternative 3 are the best long term solution to the power grid issue.</div> </div> <div> <div>Corr. ID: 1303</div> <div>Organization: Not Specified</div> </div> <div> <div>Comment ID: 152887</div> <div>Organization Type: Unaffiliated Individual</div> </div> <div> <div>Representative Quote: If the power line is necessary, a route that uses the most existing ROW and effects the fewest people should be considered and chosen.</div> </div>

The routes that seem to accomplish both are alt. 2 and alt. 3. All others should not be considered.

#### AL2010 - Action Alternative 3: Oppose

Concern ID:	25764
CONCERN STATEMENT:	Commenters stated that if Alternative 3 is selected a second clear cut area would be located on the park property.
Representative Quote(s):	<div> <div>Corr. ID: 237</div> <div>Organization: Not Specified</div> </div> <div> <div>Comment ID: 147102</div> <div>Organization Type: Unaffiliated Individual</div> </div> <div> <div>Representative Quote: If Alternate #3 is followed, the existing line (Alt. #2) will remain in place indefinitely - probably many years or decades. Even when the existing line is eventually decommissioned, it will take decades for the forest to reclaim the right- of- way clearing. Thus, if the new transmission line is built on Alternate #3, there will be two, not one, scars across the National Park Service property for 30- 40 years or more.</div> </div>

Concern ID: 25765  
 CONCERN STATEMENT: Commenters stated their opposition to Alternative 3 since it would traverse areas including the Appalachian Trail and Worthington State Forest.  
 Representative Quote(s): Corr. ID: 1201 Organization: Appalachian Trail Conservancy  
 Comment ID: 152459 Organization Type: Unaffiliated Individual  
 Representative Quote: With respect to these preliminary alternatives for the EIS, we suggest elimination of Alternative 3, as it would parallel the Appalachian Trail for 3 to 4 miles on the Kittatinny Ridge.  
 Corr. ID: 1297 Organization: New Jersey Department of Environmental Protection  
 Comment ID: 152640 Organization Type: State Government  
 Representative Quote: We request that alternative # 3 be eliminated and DEP opposes any alternative which would traverse or impact a New Jersey State Forest such as Worthington State Forest.

#### AL2100 - Action Alternative 4: Support

Concern ID: 25766  
 CONCERN STATEMENT: Commenters stated their support for Alternative 4 since it would have least impact to the park.  
 Representative Quote(s): Corr. ID: 152 Organization: Appalachian Mountain Club  
 Comment ID: 146425 Organization Type: Unaffiliated Individual  
 Representative Quote: As an active kayak paddler and hiker with the Appalachian Mountain Club, I have the following comments on the proposed power line. I support the NPS Alternatives 4, 5, and 7, which would protect the park property and the Delaware River.

Concern ID: 25767  
 CONCERN STATEMENT: Commenters stated their support of Alternative 4 since it would protect the ecosystem and minimize costs.  
 Representative Quote(s): Corr. ID: 471 Organization: Not Specified  
 Comment ID: 149664 Organization Type: Unaffiliated Individual  
 Representative Quote: The "No Action" alternative (but with additional provisions to clean up and continue to maintain access roads and other structures) and Alternative 4 would be the best choices- - maximizing the protection of the ecosystem and the existing utility corridor while minimizing the expense, effort, and disruption of local communities required.

#### AL2110 - Action Alternative 4: Oppose

Concern ID: 25768  
CONCERN STATEMENT: Commenters stated their opposition to Alternative 4 since the transmission line would run through Cherry Valley.  
Representative Quote(s): Corr. ID: 300 Organization: Lehigh Valley Group of the Sierra Club  
Comment ID: 147711 Organization Type: Non- Governmental  
Representative Quote: We urge and support the NO ACTION Alternative. That is, do not grant a permit for the proposed action through any part of the Park. We also oppose any option that would site the TL through Cherry Valley National Wildlife Refuge.  
Corr. ID: 499 Organization: Not Specified  
Comment ID: 149168 Organization Type: Unaffiliated Individual  
Representative Quote: Consistent with my testimony at the public meeting held on August 18, 2010, at the Stroudsburg Country Inn, WE oppose all alternatives through Cherry Valley And support the applicant's preferred plan - Alternate 2 - through Bushkill, PA.

#### AL2200 - Action Alternative 5: Support

Concern ID: 25769  
CONCERN STATEMENT: Commenters supported Alternative 5 due to less impacts and disruptions associated with placing the transmission line along Route 80  
Representative Quote(s): Corr. ID: 19 Organization: Not Specified  
Comment ID: 146022 Organization Type: Unaffiliated Individual  
Representative Quote: I would vote for the "no build" option, unless and until a real need documented by real data are presented. Failing that, I see no reason why the utility company cannot follow the expedient and expeditious route of running along the existing Route 80 (alternate 5), which would bring the lines more directly to their ultimate source (New York City) and spare the majority of the upheaval the present route would cause. The right of way already exists, the land is already for all intents and purposes despoiled, and the disruptions to communities along the line would be few.  
Corr. ID: 160 Organization: Not Specified  
Comment ID: 146460 Organization Type: Unaffiliated Individual  
Representative Quote: We would be in favor of alternative 5, which runs parallel to route 80 and is less residential.

#### AL2210 - Action Alternative 5: Oppose

Concern ID: 25770  
CONCERN STATEMENT: Commenters noted their opposition of Alternative 5 since the transmission

STATEMENT: line would run along Route 80 and through populated residential areas.  
Representative Corr. ID: 75 Organization: Not Specified  
Quote(s):

Comment ID: 146356 Organization Type: Unaffiliated Individual  
Representative Quote: Alternative 5, following Route 80, would be a very poor choice, in my opinion. This route would require the acquisition of public and private property and would have a major impact on the environment.

Corr. ID: 106 Organization: Not Specified

Comment ID: 146243 Organization Type: Unaffiliated Individual  
Representative Quote: NPS Alternative 5 follows along Route 80. There are existing private homes along sections of Route 80 in Roxbury township. Building power line structure along Route 80 (Alternative 5) would have significant negative impact on these private properties. I support PSEG's proposal to stay with the Approved Route - Alternative 2.

Concern ID: 25771  
CONCERN Commenters noted their opposition of Alternative 5 since it would impact  
STATEMENT: Cherry Valley.  
Representative Corr. ID: 1125 Organization: Friends of Cherry Valley  
Quote(s):

Comment ID: 152307 Organization Type: Unaffiliated Individual  
Representative Quote: I am writing to vehemently oppose Alternatives 4- 7 as these routes would traverse sections of the Cherry Valley National Wildlife Refuge, but specifically two of them, Alternatives 4 and 5, would pass through existing rights of way on my personal property.

#### AL2220 - Action Alternative 5: Suggest Change to Alternative

Concern ID: 25772  
CONCERN Commenters suggested that underground lines should be used along Route  
STATEMENT: 80.  
Representative Corr. ID: 603 Organization: NJ Conservation Foundation  
Quote(s):

Comment ID: 150524 Organization Type: Unaffiliated Individual  
Representative Quote: Alternative No. 5 which would parallel Interstate 80 and share the corridor with state highway lands offer the massive industrial intrusion on the landscape may merit further study. Study of this corridor should certainly examine putting the lines underground, perhaps using super conductor technology.

Concern ID: 25773

CONCERN  
STATEMENT:  
Representative  
Quote(s):

Commenters suggested that a wildlife crossing should be available over Route 80 for wildlife.

Corr. ID: 1204                      Organization: Not Specified

Comment ID: 152466      Organization Type: Unaffiliated Individual  
Representative Quote: Of the action options, I like options 5 (build parallel/ next to Rt. 80) and 7 (go around/ south of DEWA, Worthington State Forest, and most of Cherry Valley Wildlife Refuge while also using an existing river crossing) best since they again minimize the environmental impact of the proposed construction. If alternative 5 is used, I suggest that this alternative provide/ maintain a means for wildlife to be able to cross (under or over Rt. 80) between DEWA and Cherry Valley Wildlife Refuge.

#### AL2300 - Action Alternative 6: Support

Concern ID:

25774

CONCERN  
STATEMENT:

Commenters noted their support of Alternative 6 since the transmission line would not cross heavily populated areas and fewer impacts would be expected.

Representative  
Quote(s):

Corr. ID: 191                      Organization: Not Specified

Comment ID: 146877      Organization Type: Unaffiliated Individual  
Representative Quote: I feel as though the impact along Rt. 46 will have less impact the Alt. 2.

Corr. ID: 534                      Organization: Not Specified

Comment ID: 149608      Organization Type: Unaffiliated Individual  
Representative Quote: The Alternative Routes 5 or 6 and 7 also make more sense to consider as again, these Routes are not across heavily populated areas.

#### AL2310 - Action Alternative 6: Oppose

Concern ID:

25775

CONCERN  
STATEMENT:

Commenters noted their opposition to Alternative 6 since the transmission line would run through other public areas.

Representative  
Quote(s):

Corr. ID: 1124                      Organization: Not Specified

Comment ID: 152304      Organization Type: Unaffiliated Individual  
Representative Quote: Alternatives 6 and 7 of the proposed Susquehanna to Roseland PPL line cuts a new right- of- way up to 20- miles- long through the Delaware and Lehigh National Heritage Corridor, the PA Lehigh Gorge State Park, the PA Hickory Run State Park, the PA Weiser State Forest, and several PA state game lands.

It does not seem at all logical or reasonable to destroy many new miles of public parklands and public waterway vistas in one area simply to offset the enlargement of an existing PPL right- of- way in another area.

Concern ID: 25776

CONCERN STATEMENT: Commenters noted their opposition to Alternative 6 since the transmission line would run through heavily populated areas and impact residents and communities.

Representative Quote(s): Corr. ID: 66 Organization: Not Specified

Comment ID: 146337 Organization Type: Unaffiliated Individual  
Representative Quote: As residents of Whippany (Hanover Twp), we are opposed to NPS Alternatives 6&7. It makes no sense to go this route due to the much greater population density relative to Alternative 2.

Don't use Alternatives 6 and/or 7!

Corr. ID: 190 Organization: Not Specified

Comment ID: 146874 Organization Type: Unaffiliated Individual

Representative Quote: The area of Route 46 mapped for Alternatives 6&7 is highly congested with people and businesses. I feel the impact would be severe.

Corr. ID: 295 Organization: Not Specified

Comment ID: 147739 Organization Type: Unaffiliated Individual

Representative Quote: I am strongly against Alternatives 6 and 7, which were previously considered by PSE&G but rejected as having too much impact on people and the environment. Alternatives 6 and 7 would bring the planned power line through a densely populated area of residential homes and would have a tremendous impact on my community

#### AL2400 - Action Alternative 7: Support

Concern ID: 25777

CONCERN STATEMENT: Commenters noted their support of Alternative 7 since the transmission line would be located in previously disturbed areas.

Representative Quote(s): Corr. ID: 16 Organization: Not Specified

Comment ID: 146020 Organization Type: Unaffiliated Individual

Representative Quote: The best alternative, as I see it, is one that avoids new impacts and uses existing, impacted zones. Therefore, the most reasonable alternative that protects the park and violates none of the federal laws NPS must uphold, is Alternative 7.

Corr. ID: 1066 Organization: ATC, AMC, Hawk Mtn, Cape May Bird Obs.

Comment ID: 152221 Organization Type: Unaffiliated Individual

Representative Quote: Alternatives 6 & 7 just seem to make the most sense since they use existing ROW, are the most direct from Berwick to Roseland, and cross the Delaware River below the park at existing crossings. This is easy! Take your pick: 6 or 7.

Corr. ID: 1229                      Organization: Not Specified

Comment ID: 152516      Organization Type: Unaffiliated Individual

Representative Quote: Considering the proposed alternatives it would seem that perhaps, besides the No Build Alternative, Alternative 7 is a viable option as it has an existing ROW that is wider than parts of the current proposed alternative, is a shorter distance overall and this alone could save substantial money, and third misses the land of the DWGNRA that the NPS is employed to protect.

#### AL2410 - Action Alternative 7: Oppose

Concern ID: 25778

**CONCERN STATEMENT:** [Commenters noted their opposition to Alternative 7 since the transmission line would run through other public areas.](#)

Representative Quote(s): Corr. ID: 430                      Organization: Jeras Corporation

Comment ID: 149466      Organization Type: Unaffiliated Individual

Representative Quote: The Alternative 6 & 7 route would destroy some of the most beautiful property in the Poconos owned not only by us but also by the State of Pennsylvania as well as adversely affect the beauty of the Lehigh Gorge, such beauty being the whole reason for establishing the Lehigh Gorge State Park in the first place we presume.

We also must point out that Alternative 6 & 7 could so adversely affect our business operations at Graystones Preserve, a family club that has been in existence for many, many years, that we could, of course, seek appropriate restitution for any losses.

Concern ID: 25781

**CONCERN STATEMENT:** [Commenters noted their opposition of Alternative 7 since the transmission line would run through heavily populated areas and impact residents and communities.](#)

Representative Quote(s): Corr. ID: 145                      Organization: Not Specified

Comment ID: 146402      Organization Type: Unaffiliated Individual

Representative Quote: In this case, I strongly disagree with the choice of the NPS to recommend alternatives 6&7. The impact on residents and communities is too great. I believe that the PSE&G recommended alternative 2 would better serve all needs. It will use existing transmission line routes and the long- term impact on the Park areas will not change from what is currently in place.

Corr. ID: 299                      Organization: Not Specified  
Comment ID: 147727      Organization Type: Unaffiliated Individual  
Representative Quote: I am strongly against Alternatives 6 and 7, which were previously considered by PSE&G but rejected as having too much impact on people and the environment. Alternatives 6 and 7 would bring the planned power line through a densely populated area of residential homes and will have a tremendous impact on my community and, specifically, my home and family.

#### AL2500 - Suggest New Action Alternative

Concern ID:                      25784  
**CONCERN STATEMENT:**      Commenters suggested that effort should be focused on energy efficiency, conservation, and reducing consumption rather than upgrading the transmission line.

Representative                      Corr. ID: 4                      Organization: NY/NJ Trail Conference  
Quote(s):

Comment ID: 145998      Organization Type: Unaffiliated Individual  
Representative Quote: Additionally, the line is not needed. Alternate methods, such as those implemented by other utility companies to have customers voluntarily reduce consumption in times of high demand, have been shown to work. This line will bring dirty coal power where it is not needed.

Corr. ID: 241                      Organization: Not Specified  
Comment ID: 147116      Organization Type: Unaffiliated Individual  
Representative Quote: There are better alternatives available to PSE&G, including energy conservation, energy efficiency, demand side management, local renewable generation- all of which would help move our nation and our region toward a safer, less destructive, and more sustainable means of providing power.

Concern ID:                      25785  
**CONCERN STATEMENT:**      Commenters suggested that the transmission line should be a combination of both overhead and underground transmission lines.

Representative                      Corr. ID: 15                      Organization: Human Race  
Quote(s):

Comment ID: 146018      Organization Type: Unaffiliated Individual  
Representative Quote: A much more practical approach would seem to be, install and run all lines ( underground where possible ) and above ground where most practical, in the center or parallel with interstate 80 through any and all portions of New Jersey to eliminate destruction of the pristine Delaware Water Gap recreation area and surrounding forests, into Pennsylvania. To traumatize the nesting of our national bird, along with many others, is an insult to our very heritage. The highway is ideal, easily

accessible for night work and easy access for emergency repair / maintenance.

Corr. ID: 591                      Organization: Not Specified

Comment ID: 150430      Organization Type: Unaffiliated Individual

Representative Quote: Our goal is not to be concerned with the NIMBY factor, not in my backyard, but if the new lines are to be installed, serious consideration be given to closing the books on the antiquated technology construction plans and cancelling these contracts. Then, reopen the effort to utilize much of the latest technology, including HVDC lines and underground lines for the National Parks, schools and high occupancy businesses are located.

Concern ID:                      25786

**CONCERN STATEMENT:**      [Commenters suggested that alternative fuel sources including solar panels and wind power should be considered.](#)

Representative                      Corr. ID: 15                      Organization: Human Race  
Quote(s):

Comment ID: 146019      Organization Type: Unaffiliated Individual

Representative Quote: Please look closer at alternative fuels sources, ie; solar panels ( which agin, could be easily installed on bridges, ramp structures,toll plaza buildings, etc..

Corr. ID: 600                      Organization: Not Specified

Comment ID: 150926      Organization Type: Unaffiliated Individual

Representative Quote: believe with a more progressive and forward thinking plan such as wind or solar power would be less invasive and have less impact on our environment.

Concern ID:                      25787

**CONCERN STATEMENT:**      [Commenters suggested that the height of the proposed transmission line through the parks should be reduced.](#)

Representative                      Corr. ID: 175                      Organization: Not Specified  
Quote(s):

Comment ID: 146533      Organization Type: Unaffiliated Individual

Representative Quote: I would like to know why the new towers have to be as tall as proposed. If pse&g contends it is for public safety, then perhaps the towers could be lowered through the NPS lands where public contact is minimal.

Corr. ID: 181                      Organization: Not Specified

Comment ID: 146546      Organization Type: Unaffiliated Individual

Representative Quote: Use a double circuit 230 KV system rather than the 500KV and 230kv lines that are proposed. This would require towers 120' tall rather than 190' - 200' tall towers as currently proposed. If the justification for the project is RELIABILITY, then doubling the capacity should more than suffice. The existing lines have been in service for over 50

years, so why wouldn't a doubling of capacity be adequate for reliability. A six fold increase in capacity is not necessary to address reliability.

Concern ID:	25788
CONCERN STATEMENT:	Commenters suggested that an alternative should include pieces of existing routes to reduce overall impacts.
Representative Quote(s):	Corr. ID: 175      Organization: Not Specified  Comment ID: 146536      Organization Type: Unaffiliated Individual Representative Quote: Does the upgrade have to occur along one route only? Can several existing routes be utilized with less intrusive towers to acheive the same goal (albeit at additional cost)?
Concern ID:	25789
CONCERN STATEMENT:	Commenters suggested that if Alternative 2 is not selected, then the current towers throughout the park should be removed.
Representative Quote(s):	Corr. ID: 278      Organization: Not Specified  Comment ID: 147512      Organization Type: Unaffiliated Individual Representative Quote: Should the power companies decide to continue construction on a route that circumvents the Park, the NPS must demand removal of the current power line from the Park, thus allowing the hideous scar it has created on the landscape to begin to heal.
Concern ID:	25790
CONCERN STATEMENT:	Commenters suggested the use of ribbon wire rather than circular wires, which are being proposed, to minimize impacts.
Representative Quote(s):	Corr. ID: 1027      Organization: Taxpayer/Ratepayer of NJ  Comment ID: 151749      Organization Type: Unaffiliated Individual Representative Quote: Power lines are envisioned as corcular wires typically made of stranded twisted aluminum wire in sufficient size to handle megawatts of power. But circular wires have a difficult time of dissapating heat, even when made of aluminum or copper. As a former reliability consultant, Iv'e had the opportunity to explore transformer failures for years. When failures were not do to manufacturing defects, overloads or mishandling the equipment during the construction of the given application, designs were brought into the equation. There are typically numerous ways to design and build any widget, and electrical wires are not a unique one- way design.  Therefore, one of the problems associated with wires as alluded above is heat dissipation. And heat dissipation of burrying electrical high voltage wires has always been a problem when the wires are heavily insulated for electrical leakage and withstanding the environment in which they are

buried.

Therefore, I ask you to solicit your technical experts to suggest to the power company's the use of ribbon wire. The ribbon suggested might be 100 cm wide by 1.0 cm thick. For underground application the insulation could be added during installation underground. Noeworthy, is the large surface area to reduce the needed insulation thickness and increase the ability for the ribbon to dissapate more heat. Furthermor, this ribon could be twisted somewhat analogous to the red- white candycanes wev'e seen as kids, but on a much larger scale. EMF and ozone loses on flat ribbon of this size will be subsabtially reduced.

Concern ID: 25854

**CONCERN STATEMENT:** Commenters suggested that the utility work with the rail service to see if it is possible to run the new transmission line along the same route as the proposed rail line.

Representative Quote(s): Corr. ID: 1330 Organization: Not Specified

Comment ID: 154359 Organization Type: Unaffiliated Individual  
Representative Quote: Anyhow as you know mass transit is planning a major rail track from Scanton, PA to Stroudsburg and over the PA border somewhere to NJ. If you could somehow get together with whoever is in charge of this rail line and get together with the PMJ (and or) PPL Utilitys, maybe you can come up with an idea to run the new power transmission lines together with the rail project thats propossed.

#### AP1100 - Applicant's Proposal: Question Need for the Proposed Project

Concern ID: 25791

**CONCERN STATEMENT:** Commenters stated that energy demand is on the decline and the lines are not needed for grid reliability.

Representative Quote(s): Corr. ID: 282 Organization: New Jersey Highlands Coalition

Comment ID: 147575 Organization Type: Non- Governmental  
Representative Quote: The 24.3% margin reported in RFC is well over the 15% reserve margin standard required by NERC. This translates to 17.1 GW of cushion capacity! The expanded Susquehanna- Roseland line will have capacity for about 6423 MW. The reserve capacity is over two and a half times the capacity of the line! This figure shows that the PJM region has an excess of energy above NERC standards and adequate resources to meet demand and ensure grid reliability without the expansion of transmission capacity.

Corr. ID: 521 Organization: Not Specified

Comment ID: 149397 Organization Type: Unaffiliated Individual  
Representative Quote: IN THE HEADLINES, TWO WEEKS AGO, THE ELECTRIC COMPANIES WERE SAYING THAT CURRENT ELECTRIC USUAGE IS DOWN, BACK TO THE YEAR 2007. IF THAT'S THE CASE

THERE IS NO IMMEDIATE NEED FOR THIS POWERLINE.  
THEREFORE I SUGGEST THAT YOU DROP THIS PROJECT.

Concern ID: 25792  
CONCERN STATEMENT: Commenters stated that the need for the transmission line upgrade is unclear.  
Representative Quote(s): Corr. ID: 279 Organization: Not Specified  
Comment ID: 147536 Organization Type: Unaffiliated Individual  
Representative Quote: Indeed, it is not at all clear to me that this proposed power line is actually needed- - at least for the direct benefit of Pennsylvania citizens and PPL electricity customers.

#### AP1200 - Applicant's Proposal: Reliability Standards

Concern ID: 25793  
CONCERN STATEMENT: Commenters stated that the transmission line upgrade is needed for electrical dependability and reliability.  
Representative Quote(s): Corr. ID: 1287 Organization: Northeast PA Manufacturers and Employers Association  
Comment ID: 152577 Organization Type: Civic Groups  
Representative Quote: The line is needed to prevent overloads on other regional power lines. These overloads can lead to reliability problems and even blackouts during periods of high electricity demands.  
Corr. ID: 1296 Organization: PJM  
Comment ID: 152632 Organization Type: Business  
Representative Quote: PJM forecasts reliability violations as early as 2012 if the Project is not completed on schedule. Delays in permitting the Susquehanna- Roseland Project that would impede the line's proposed in-service date of June 2012 would have an adverse impact on the reliability of the PJM system.

#### AQ4000 - Air Quality: Impact Of Proposal And Alternatives

Concern ID: 25720  
CONCERN STATEMENT: Commenters noted that the transmission line expansion would increase the use of coal- fired power plants, which would create impacts to air quality by the producing more air pollutants.  
Representative Quote(s): Corr. ID: 150 Organization: Not Specified  
Comment ID: 146422 Organization Type: Unaffiliated Individual  
Representative Quote: An expansion of this line would increase the use of dirty coal energy which means more CO2, mercury and other pollutants in our parks and our communities.

Corr. ID: 345                      Organization: Not Specified  
 Comment ID: 148612      Organization Type: Unaffiliated Individual  
 Representative Quote: We cannot afford the negative impacts of additional coal fired energy production in WV and PA. It would add to air and water pollution in the Delaware National Park, and our air quality is already unhealthy.  
 Corr. ID: 512                      Organization: Sierra Club/Pennsylvania Chapter  
 Comment ID: 149718      Organization Type: Unaffiliated Individual  
 Representative Quote: This pollution will exacerbate mercury contamination, ground- level ozone formation, regional haze, acid rain, fine particulate pollution and, as a result, asthma and other respiratory illnesses, heart attacks, and premature deaths.  
 Corr. ID: 1143                      Organization: NJ Sierra Club  
 Comment ID: 152348      Organization Type: Unaffiliated Individual  
 Representative Quote: Increased air pollution in and around the parks - Special attention should be given to particulate matter, which creates haze reducing visibility in the Water Gap and on the Appalachian Trail.

#### AT1100 - Appalachian Trail: Comments Specific to Park

Concern ID: <b>CONCERN STATEMENT:</b> Representative Quote(s):	25794 <a href="#">Commenters stated that the selected route should avoid and preserve the Appalachian Trail.</a> Corr. ID: 801                      Organization: Not Specified  Comment ID: 151455      Organization Type: Unaffiliated Individual Representative Quote: Please do not place electric lines across the Appalachian Trail in Northern New Jersey. Corr. ID: 1326                      Organization: Not Specified Comment ID: 153214      Organization Type: Unaffiliated Individual Representative Quote: It seems to me no matter which route is chosen it will cross the Appalachian trail.
Concern ID: <b>CONCERN STATEMENT:</b> Representative Quote(s):	25795 <a href="#">Commenters stated that the transmission line upgrade would have no impact to the Appalachian Trail since there are currently areas along the trail with transmission lines.</a> Corr. ID: 151                      Organization: Not Specified  Comment ID: 146424      Organization Type: Unaffiliated Individual Representative Quote: As far as its effects on the Appalachian Trail, there are none. Hikers cross a couple hundred feet of right of way now. The wires are perpendicular to the trail. Hikers walk under the existing wire now.

Power line crossing can be found everywhere along the trail. Additionally, the power line right of ways provides hikers with two distinct benefits. One, the cleared areas provide for spectacular views. Two, the right of ways also provide a route for quick egress or access to the trail for emergencies.

#### CC1100 - Consultation and Coordination: Involve Additional Agencies

Concern ID: 25796  
CONCERN STATEMENT: Commenters stated that consultation with the U.S. Fish and Wildlife Service should continue for all routes being considered.  
Representative Quote(s): Corr. ID: 244 Organization: U.S. Fish and Wildlife Service

Comment ID: 147129 Organization Type: Federal Government  
Representative Quote: Federally listed species of concern for the proposed alternative routes include the endangered Indiana bat (*Myotis sodalis*) and the threatened bog turtle (*Clemmys muhlenbergii*).

USFWS asks that routes be chosen with the least amount of impacts to these species. Surveys for these species have already occurred at previously chosen routes, but have not been conducted at the alternative routes. We recommend that consultation continue with our office and the New Jersey Field Office in order to avoid adverse impacts to any federally listed species.

Concern ID: 25797  
CONCERN STATEMENT: Commenters stated that consultation with state and federal agencies should be required.  
Representative Quote(s): Corr. ID: 459 Organization: Not Specified

Comment ID: 149604 Organization Type: Unaffiliated Individual  
Representative Quote: I have extensive exposure to land use, DEP, SHPO, Green Acres, Pinelands, Highlands and NEPA requirements through my professional experience. I understand that the BPU would like to create a loop system so if one path fails or needs service, power can be rerouted to keep people powered. This does not exclude them from performing their due diligence and determining the best solution. They should not be able to ignore alternates. Investigation and environmental impact reports should be prepared by independent companies and the entire plan should be reviewed by committee to include all the agencies mentioned above, to determine the best route. This has not been performed to date!

Corr. ID: 1324 Organization: Sierra Club

Comment ID: 153128 Organization Type: Conservation/Preservation  
Representative Quote: The Lackawanna Heritage Valley Authority (LHVA) region must be included for evaluation in the National Park Service (NPS) EIS process prior to the selection of a Preferred Alternative, unless

the No Action Alternative is selected.

#### CC4000 - Climate Change: Impact of Proposal and Alternatives

Concern ID: 25807  
CONCERN STATEMENT: Commenters stated that coal fired energy contributes to global warming and climate change.  
Representative Quote(s): Corr. ID: 229 Organization: Save the Park  
Comment ID: 147036 Organization Type: Unaffiliated Individual  
Representative Quote: The global warming from this project will take a toll on this area  
Corr. ID: 1299 Organization: Not Specified  
Comment ID: 152646 Organization Type: Unaffiliated Individual  
Representative Quote: Make no mistake, the increased power these lines(if approved) supply will require increased coal burning which will only increase the mercury, greenhouse gases, and acid rain already fouling our air and water; while new roads required to service these lines will impact areas far beyond the right of way.

#### CR4000 - Cultural Resources: Impact Of Proposal And Alternatives

Concern ID: 25815  
CONCERN STATEMENT: Commenters stated that the transmission line upgrade would ruin the scenic vistas and historic viewshed.  
Representative Quote(s): Corr. ID: 8 Organization: NJ Highlands Coalition, NJCF, NPCA, many more  
Comment ID: 146005 Organization Type: Unaffiliated Individual  
Representative Quote: PPL and PSE&G are using outdated technology that would ruin the scenic vistas and historical character of the area and would allow the production and transportation of more dirty coal energy, degrading air quality throughout New Jersey and Pennsylvania.

Concern ID: 25816  
CONCERN STATEMENT: Commenters stated there would be impacts to historic sites along the proposed routes.  
Representative Quote(s): Corr. ID: 270 Organization: Not Specified  
Comment ID: 147583 Organization Type: Unaffiliated Individual  
Representative Quote: Alternative 5 would destroy a designated historical marker, The Parsippany Rock House, which has been a local tourist attraction within the Morris County Community. The Rock House was designated as a historical marker in 1979.  
Corr. ID: 592 Organization: Pahaquarry Foundation

Comment ID: 150916    Organization Type: Unaffiliated Individual  
Representative Quote: This would drive tourists to go elsewhere and what about the destruction of the oldest historic road today, Old Mine Road has history dating back to the 1700s this is not something to blast away for power lines.

Corr. ID: 1295    Organization: PSE&G and PPL

Comment ID: 152616    Organization Type: Business

Representative Quote: A potential critical flaw in Alternative 4 is that it follows approximately 20 miles along the Old Main Delaware Lackawanna and Western Railroad Cutoff Historic District in NJ, which was avoided by Alternative 2.

Corr. ID: 1325    Organization: Highlands Water Protection and Planning Council

Comment ID: 153138    Organization Type: State Government

Representative Quote: Alternatives 6 and 7 ' Within the Highlands Region, Alternatives 6 and 7 utilize the same ROW (an existing ROW well south of I- 80), and so are discussed together. This route traverses a Highlands Special Environmental Zone located in Liberty Township. In accordance with the Highlands Act, the RMP designates over 19,000 acres in the Preservation Area as a Special Environmental Zone where development shall not occur in order to protect water resources and environmentally sensitive lands and which shall be permanently preserved (Policy 11717). This route also crosses the historic Morris Canal and Lackawanna Cutoff and other historic properties as well as one archaeological grid

#### ER4000 - Energy Resources: Impact of Proposal and Alternatives

Concern ID: 25817

**CONCERN STATEMENT:** [Commenters stated that the proposed alternative would discourage energy conservation.](#)

Representative Quote(s): Corr. ID: 11    Organization: Not Specified

Comment ID: 146012    Organization Type: Unaffiliated Individual  
Representative Quote: Expanding the transmission lines would flood NJ's energy market with cheap coal energy, discouraging energy conservation and efficiency programs and the development of renewable resources throughout New Jersey and Pennsylvania, the real solutions to transmission reliability and energy security issues.

#### GE4000 - General Ecology: Impacts of Proposal and Alternatives

Concern ID: 25838

**CONCERN** [Commenters stated that the overall project would create significant impacts](#)

STATEMENT: on the environment.

Representative  
Quote(s):

Corr. ID: 278

Organization: Not Specified

Comment ID: 147508 Organization Type: Unaffiliated Individual

Representative Quote: Additionally, I continue to believe that coal- based energy - a majority of which will be carried by this line - will have a detrimental impact on the local environment and the habitat of the Park and other federal lands downwind of the generation plants creating the added energy carried on this transmission line.

#### GP1100 - General Project: Supports

Concern ID: 25798

CONCERN STATEMENT: Commenters offered their support of the project as a whole due to the need for additional electricity.

Representative  
Quote(s):

Corr. ID: 138

Organization: Not Specified

Comment ID: 146378 Organization Type: Unaffiliated Individual

Representative Quote: e. I favor and support this transmission line because this tri- state area has an essential and pending need for this power line that was already approved

Corr. ID: 896

Organization: Critigen LLP

Comment ID: 151560 Organization Type: Unaffiliated Individual

Representative Quote: I understand that transmission line projects are on the increase due to stimulus dollars toward updating our power infrastructure. Overall I believe this is a good thing.

#### GP1200 - General Project: Opposes

Concern ID: 25852

CONCERN STATEMENT: Commenters stated that overall they are opposed to the transmission line upgrade.

Representative  
Quote(s):

Corr. ID: 181

Organization: Not Specified

Comment ID: 146544 Organization Type: Unaffiliated Individual

Representative Quote: I am opposed to the project. It has not been made clear to me the need for it. The basis for the project is as, I understand it, reliability.

Corr. ID: 332

Organization: Not Specified

Comment ID: 148038 Organization Type: Unaffiliated Individual

Representative Quote: I am totally against this plan and hope the utility companies can be encouraged to invest in more updated technologies, where I am also quite sure they will still see enormous profits.

#### GR4000 - Geologic Resources: Impact Of Proposal And Alternatives

Concern ID: 25808  
CONCERN STATEMENT: Commenters stated that the construction and maintenance of the transmission line would create impacts to the geologic formations and soils throughout the area.

Representative Quote(s):  
Corr. ID: 207 Organization: Unitarian Universalist Fellowship of Newton  
Comment ID: 146959 Organization Type: Unaffiliated Individual  
Representative Quote: The amount of soil erosion alone with all the trees being removed would be a disaster in of itself. This was not a well thought out plan and PSE&G should never be allowed to do this.  
Corr. ID: 512 Organization: Sierra Club/Pennsylvania Chapter  
Comment ID: 149725 Organization Type: Unaffiliated Individual  
Representative Quote: Along the Delaware River in this region consist primarily of chiefly steep, stony and shaly areas along the river bluffs of the Delaware River. The major components of the landscape are the bluffs and cliffs and the material that has accumulated at the base of the slopes. Some of the most unusual plant communities in the county are found here and the bluffs add to the scenic quality of the Delaware River. The loose, shaly soil is mined from the base of the slopes for road surfacing and fill material. This community supports a good population of a state- rare plant (SP518) which is typically found on the Shale Cliff communities along the Delaware River. These geologic resources will be negatively impacted by the construction and maintenance of high- voltage transmission towers and transmission lines through the construction process and general maintenance through disturbance, deforestation, habitat fragmentation, erosion and subsidence.

#### HH4000 - Human Health and Safety: Impact of Proposal and Alternatives

Concern ID: 25809  
CONCERN STATEMENT: Commenters stated that there would be more human health impacts associated with Alternatives 3 through 7.

Representative Quote(s):  
Corr. ID: 99 Organization: Not Specified  
Comment ID: 146230 Organization Type: Unaffiliated Individual  
Representative Quote: While conserving the national parks, we should not ignore the fact that by going to the alternative routes, more direct negative impacts to human life will be caused. I strongly believe this project should stay with the original route proposed by PES&G and approved by the New Jersey Board of Public Utilities and the Pennsylvania Public Utility Commission, which is referred to by the park service as Alternative 2.

Concern ID:	25810
CONCERN STATEMENT:	<a href="#">Commenters stated their concern for children's safety if the transmission line would be located near schools.</a>
Representative Quote(s):	<p>Corr. ID: 142                      Organization: Not Specified</p> <p>Comment ID: 146397    Organization Type: Unaffiliated Individual  Representative Quote: SE&amp;G's plans to upgrade the existing 230kV transmission lines to 500kV will run directly in back of this school, affecting the lives of our children. While I understand the need for upgrading systems and preparing for future demand, running such high voltage lines through residential areas, especially schools, will expose our children to EMF readings that are above acceptable levels, potentially impact their future health.</p> <p>Corr. ID: 270                      Organization: Not Specified  Comment ID: 147585    Organization Type: Unaffiliated Individual  Representative Quote: The proposed route for Alternative 5 would be installed in close proximity to several schools including Mt. Tabor Elementary School, Littleton Elementary School and St. Elizabeth's Montessori School.</p>
Concern ID:	25811
CONCERN STATEMENT:	<a href="#">Commenters stated that there would be safety concerns associated with the construction of the transmission line.</a>
Representative Quote(s):	<p>Corr. ID: 232                      Organization: Save the Park</p> <p>Comment ID: 147089    Organization Type: Unaffiliated Individual  Representative Quote: What about the safety of the people in and around the park?  How will the first responders come to their homes.  With these huge construction trucks blocking the roads lives will be lost.</p> <p>Stop this before it starts and say NO</p> <p>Corr. ID: 242                      Organization: Save the Park  Comment ID: 147120    Organization Type: Unaffiliated Individual  Representative Quote: Road closures due to heavy construction equipment will impede the ambulance corp from serving these residents and visitors.</p> <p>Danger from these high tension 500 kv lines needs to be addressed for the first responders for the Hardwick, Walpack, and Millbrook visitors to the park.</p>
Concern ID:	25812

CONCERN  
STATEMENT:  
Representative  
Quote(s):

Commenters stated that the upgrade of the transmission line would create safety impacts to visitors of the public areas.

Corr. ID: 317                      Organization: Save the Park

Comment ID: 147937      Organization Type: Unaffiliated Individual  
Representative Quote: I am concerned for the river on the Delaware, this is a place where people kayak and canoe, and their safety needs to be taken into account.

Corr. ID: 512                      Organization: Sierra Club/Pennsylvania Chapter

Comment ID: 149731      Organization Type: Unaffiliated Individual  
Representative Quote: Constructing high- voltage transmission lines through a public recreation and natural area creates various health and safety issues. Securing off the area to ensure unauthorized individuals can not gain access is imperative.

Concern ID:  
CONCERN  
STATEMENT:  
Representative  
Quote(s):

25813

Commenters stated that there are health concerns associated with coal fired energy and transmission lines.

Corr. ID: 717                      Organization: Not Specified

Comment ID: 150977      Organization Type: Unaffiliated Individual  
Representative Quote: With upper respiratory, lung disease, asthma and cancer all recognized pollution related diseases from coal, the price of coal is far more than one can anticipate

Corr. ID: 1025                      Organization: Not Specified

Comment ID: 151100      Organization Type: Unaffiliated Individual  
Representative Quote: Recent studies have shown harm, and there is a study that said 70 percent of children living within so many feet of the power line came down with leukemia. And in blocks, and you've had this in previous meetings, in Parsippany where everybody has gotten cancer, the dogs have cancer. People have got up from East Hanover at one of your other meetings and mentioned the cancer aspect.

#### IN4000 - Infrastructure: Impact of Proposal and Alternatives

Concern ID:  
CONCERN  
STATEMENT:  
Representative  
Quote(s):

25814

Commenters stated that there would be impacts associated with the creation and maintenance of the access roads.

Corr. ID: 150                      Organization: Not Specified

Comment ID: 146420      Organization Type: Unaffiliated Individual  
Representative Quote: Expanding the lines would require construction of access roads, temporary staging areas, widening rights- of- way and destruction of acres of forests.

Corr. ID: 866                      Organization: Not Specified  
 Comment ID: 151524      Organization Type: Unaffiliated Individual  
 Representative Quote: The noise and air pollution that would be generated during the construction of a such a project would be TOTALLY UNACCEPTABLE. The permanent presence of pipes and other obtrusive infrastructure and the ongoing passage of maintenance vehicles and personnel to manage to such an endeavor would be COMPLETELY INTOLERABLE.

#### NA1100 - Need for Analysis: Cumulative Impacts

Concern ID: 25799  
 CONCERN STATEMENT: [Commenters stated that the proposed project may create cumulative impacts to air and water quality because other transmission lines are being proposed throughout the country.](#)

Representative Quote(s): Corr. ID: 587                      Organization: Sierra Club

Comment ID: 150380      Organization Type: Unaffiliated Individual  
 Representative Quote: There is also a major issue with these transmission lines. There are one of many lines being proposed across the country to move coal power to the best paying markets and we really feel that the National Park System should consider the cumulative impact of that, and that includes air and water quality as well as the time it takes.

Corr. ID: 611                      Organization: National Canoe Safety Patrol  
 Comment ID: 150536      Organization Type: Unaffiliated Individual  
 Representative Quote: The thing I want to mention about the proposal is, mind you, is a no- action proposal and there are areas that certainly are not in your purview, clean air is certainly one, clean water is another, but when you look at the cumulative impacts of the different industries, the Marcellus Shale, Pennsylvania allowing 600 acres of their own parklands to have drilling pads and the evaporation of chemicals into the air, the problem is this: By allowing Pennsylvania to generate more power with so- called clean coal - - we know that's a joke.

Concern ID: 25800  
 CONCERN STATEMENT: [Commenters stated that cumulative impacts would occur from maintenance activities.](#)  
 Representative Quote(s): Corr. ID: 983                      Organization: Association Of NJ Environmental Commission

Comment ID: 151000    Organization Type: Civic Groups  
Representative Quote: The continual maintenance activities may well contribute to cumulative impacts over a long period of time, and those cumulative impacts have not been addressed in any of the presentations.

#### NA1200 - Need for Analysis: Long- Term Impacts

Concern ID: 25801  
**CONCERN STATEMENT:** [Commenters suggested that the long- term impacts associated with the transmission line upgrade would be substantial.](#)  
Representative Quote(s): Corr. ID: 448    Organization: Not Specified

Comment ID: 149534    Organization Type: Unaffiliated Individual  
Representative Quote: The long term environmental impacts appear to be substantial. How often will the line be serviced? What are the risks to the infrastructure? What other facilities are needed along the ROW in addition to poles and lines? What are the access road maintenance costs for each alternative? What are the estimated environmental costs?

Corr. ID: 1224    Organization: Not Specified

Comment ID: 152503    Organization Type: Unaffiliated Individual  
Representative Quote: Since some, if not all, the energy being transmitted is to be coal- generated.. there is too great a health risk and an environmental impact at the offset. The energy companies ought to be looking more closely as to long- term effects, generations forward.

#### NP4000 - National Park Service/Park Mission: Impact of Proposal and Alternatives

Concern ID: 25818  
**CONCERN STATEMENT:** [Commenters stated that by allowing the transmission line upgrade on the park property, the NPS is violating their mission and Organic Act.](#)  
Representative Quote(s): Corr. ID: 564    Organization: Sierra Club North Jersey Group

Comment ID: 149984    Organization Type: Unaffiliated Individual  
Representative Quote: Any other alternative would compromise the integrity of the park. Afterall, the mission of park service is to preserve and protect the land for future generations. The "No Action" alternative is the only appropriate action.

Corr. ID: 980    Organization: Not Specified

Comment ID: 150990    Organization Type: Unaffiliated Individual  
Representative Quote: I strongly urge you to choose the No Action Alternative for the following reasons: The National Parks Organic Act states the Park Service will, "conserve the scenery and natural historic objects and the wildlife therein, leave them unimpaired for the enjoyment of future generations." It's my opinion, that any expansion of this proposed power

transmission line through the Delaware Water Gap Recreation Area, across the Appalachian Trail, and through the Middle Delaware Scenic and Recreational River, violates the spirit and intent of this Act and must not be allowed.

#### OC1100 - Other Comments

Concern ID: 25836  
**CONCERN STATEMENT:** Commenters stated that the meeting dates and comment period deadlines should be more available to the public.  
Representative Corr. ID: 308 Organization: SAVETHEPARK.ORG  
Quote(s):  
Comment ID: 147822 Organization Type: Unaffiliated Individual  
Representative Quote: The DWGNRA should have put signs up announcing the deadline and the dates of the meetings for the hearings.

#### PO4000 - Park Operations: Impact Of Proposal And Alternatives

Concern ID: 25819  
**CONCERN STATEMENT:** Commenters stated that the National Park Service must consider the impacts of park closures during the construction period.  
Representative Corr. ID: 315 Organization: SAVETHEPARK.ORG  
Quote(s):  
Comment ID: 147928 Organization Type: Unaffiliated Individual  
Representative Quote: The Park service needs to take a very close look at what types of towers they are planning and what kind of park closures this will cause.

#### SA1100 - Study Area: Increase Study Area

Concern ID: 25802  
**CONCERN STATEMENT:** Commenters stated that all public areas outside of the National Park Service property should be evaluated in the EIS.  
Representative Corr. ID: 279 Organization: Not Specified  
Quote(s):  
Comment ID: 147539 Organization Type: Unaffiliated Individual  
Representative Quote: I urge the National Park Service to give as much detailed attention in its Environmental Impact Statement to the entire length of the Appalachian National Scenic Trail corridor between Route 309 in Lehigh- Schuylkill Counties and the Cherry Valley National Wildlife Refuge and Delaware Water Gap, PA/NJ as it does to the wildlife, environment, and landscape features within the Cherry Valley NWR and Delaware Water Gap National Recreation Area.  
Corr. ID: 495 Organization: Not Specified

Comment ID: 149086    Organization Type: Unaffiliated Individual  
Representative Quote: I am requesting the Park Service do a full review of Old Mine Road, Worthington State Forest, Turtle Beach (which just opened to the public) and now has the possibility of the public not being able to use it due to construction.

Corr. ID: 1327    Organization: Lackawanna Heritage Valley Authority

Comment ID: 153222    Organization Type: Conservation/Preservation  
Representative Quote: LHVA has been advised by its partner, the Sierra Club, that the Project constitutes a connected action as defined by the National Environmental Policy Act for the following reasons:

1. The Project would be physically connected by wires between the area near the Delaware River under study and the LHVA region, and therefore constitutes one action, and
2. It is within the purview of the Department of the Interior and NPS to assess effects on natural and recreational resources in both the LHVA and Delaware River regions.

Concern ID: 25803  
**CONCERN STATEMENT:** Commenters stated that an alternative containing Worthington State Forest be eliminated from the NEPA review.

#### SC1100 - Scope Of the Analysis

Concern ID: 25805  
**CONCERN STATEMENT:** Commenters stated that the scope of the analysis be expanded to include energy efficiency and other non- transmission line alternatives.

Representative Quote(s): Corr. ID: 294    Organization: Not Specified

Comment ID: 147737    Organization Type: Unaffiliated Individual  
Representative Quote: The scope of alternatives must be expanded to include options

besides re- routing! Demand response programs, energy efficiency, energy conservation, renewable and local energy generation, and new transmission technologies can obviate the need for this line, and do not require the use of ratepayer money to construct obsolete infrastructure projects.

Corr. ID: 1300    Organization: Eastern Environmental Law Center

Comment ID: 152847    Organization Type: Conservation/Preservation  
Representative Quote: It would be a breach of Park Service responsibilities under the National Environmental Policy Act for the Planning Team to

conduct a review of this proposal without evaluating the feasibility of non-transmission alternatives.

Concern ID: 25806  
CONCERN STATEMENT: Commenters stated that the EIS should evaluate impacts to small aircraft in the area.  
Representative Quote(s):  
Corr. ID: 578 Organization: Blairstown Aviation  
Comment ID: 150898 Organization Type: Unaffiliated Individual  
Representative Quote: We would like to add the safety and concerns to your EIS statement and do a full report on how this will effect small aircraft and gliders over the Delaware in whichever route is chosen.

#### SC4000 - Security: Impacts of Proposal and Alternatives

Concern ID: 25853  
CONCERN STATEMENT: Commenters stated that there are concerns of the security of the new transmission line.  
Representative Quote(s):  
Corr. ID: 553 Organization: Lehigh Gap Nature Center  
Comment ID: 149865 Organization Type: Non- Governmental  
Representative Quote: Please make sure this new transmission line can be justified in terms of engineering need for the long- term security and efficiency of the regional grid.  
Corr. ID: 609 Organization: Natural Resources Defense Council  
Comment ID: 150952 Organization Type: Unaffiliated Individual  
Representative Quote: Has anyone thought about the risk of terrorist attacks and how easy this 200 foot towers can be at risk for us?

#### SE4000 - Socioeconomics: Impact Of Proposal And Alternatives

Concern ID: 25821  
CONCERN STATEMENT: Commenters stated the upgrade of the transmission line would reduce the value of homes along the route.  
Representative Quote(s):  
Corr. ID: 20 Organization: Not Specified  
Comment ID: 146023 Organization Type: Unaffiliated Individual  
Representative Quote: I believe the original route as proposed and accepted by both state utilities commissions is the best and least intrusive route. The other alternative routes would take the transmission lines through more densely populated areas and could further depress already depressed property values for many.  
Corr. ID: 32 Organization: Not Specified

Comment ID: 146041    Organization Type: Unaffiliated Individual  
Representative Quote: The expanded access roads and other infrastructure would be too harmful and would decrease property values.

Concern ID: 25822

CONCERN    Commenters stated that the construction of the transmission line would  
STATEMENT: benefit the local economy in terms of employment.

Representative    Corr. ID: 21    Organization: Not Specified  
Quote(s):

Comment ID: 146024    Organization Type: Unaffiliated Individual  
Representative Quote: I am in favor of constructing the new S - R line per the original route.

This project is critical to the surrounding area not only in terms of electrical dependability but in terms of employment in the region.

Corr. ID: 388    Organization: New Jersey Society for  
Environmental Economic Development

Comment ID: 148666    Organization Type: Non- Governmental  
Representative Quote: As a business and labor coalition that supports balanced public policy that bolster our economy, and enhance our environment, we also support Alternate 2 for the multitude of jobs this route aims to create. A recent Rutgers study has projected that there are 1300 jobs/year associated with the construction of the line.

Concern ID: 25823

CONCERN    Commenters stated that the transmission line construction and alteration of  
STATEMENT: the viewshed will adversely impact the ecotourism businesses in the area.

Representative    Corr. ID: 250    Organization: SAVETHEPARK.ORG  
Quote(s):

Comment ID: 147138    Organization Type: Unaffiliated Individual  
Representative Quote: The eco tourism towns around the park who make money from beautiful scenery will be gone and no one will come to the DWGNRA or hike the APP. and in this alone businesses will suffer.

Corr. ID: 317    Organization: Save the Park

Comment ID: 147939    Organization Type: Unaffiliated Individual  
Representative Quote: There is the economy to take into account also. People make money at the camps on both the Jersey and PA sides of the river.

Millions of people come to this area for recreation.

They will not continue to come with this type of destruction to the National Park.

People's lively hoods are at stake here.

Concern ID: 25824  
 CONCERN STATEMENT: Commenters stated that farmers would be impacted due to the loss of agriculture/croplands.  
 Representative Quote(s):  
 Corr. ID: 530 Organization: Township of White  
 Comment ID: 149538 Organization Type: Town or City Government  
 Representative Quote: The construction of new line support towers will cause valuable croplands to be lost from agricultural production.  
 Corr. ID: 1178 Organization: Not Specified  
 Comment ID: 151544 Organization Type: Unaffiliated Individual  
 Representative Quote: Any route around the park will disrupt the entire farming community and come through the township of Knowlton.

#### SS4000 - Soundscapes: Impact of Proposal and Alternatives

Concern ID: 25839  
 CONCERN STATEMENT: Commenters stated that the use of construction equipment would increase noise levels causing disruption to the park and surrounding communities.  
 Representative Quote(s):  
 Corr. ID: 300 Organization: Lehigh Valley Group of the Sierra Club  
 Comment ID: 147716 Organization Type: Non- Governmental  
 Representative Quote: The construction of the TL (if granted) will require extensive use of heavy machinery, which will put negative pressures on the adjacent Park lands, with attendant damages to soil, increased noise levels, and threats to resident species.  
 Corr. ID: 521 Organization: Not Specified  
 Comment ID: 149396 Organization Type: Unaffiliated Individual  
 Representative Quote: I'M CONCERNED ABOUT THE ADDED NOISE AND HEAVY CONSTRUCTION EQUIPMENT THAT WILL CLOG OUR ROADS.

Concern ID: 25840  
 CONCERN STATEMENT: Commenters stated that additional noise impacts would be long- term due to the noise associated with the transmission lines and helicopters.  
 Representative Quote(s):  
 Corr. ID: 574 Organization: Land of Make Believe inc.  
 Comment ID: 150891 Organization Type: Unaffiliated Individual  
 Representative Quote: This is not just something that will be done and over with after construction but a constant intrusion of noise and pollution in an other wise beautiful place to live.  
 We will see helicopters flying over head constantly. We will have to look at these towers forever not just sometimes but forever!  
 Corr. ID: 1166 Organization: Not Specified  
 Comment ID: 152444 Organization Type: Unaffiliated Individual

Representative Quote: Come to Sussex County in Lackawana Dr. near one of the existing 250 volt towers and wires. There is a CONSTANT, LOUD hissing and crackling sounds ALL day and night long. If half the amount of voltage makes that much noise, imagine what noise will be created by double that voltage!

#### SU1100 - Project Sustainability

Concern ID: 25205

**CONCERN STATEMENT:** Commenters stated that coal- based energy is no longer sustainable energy.

Representative Quote(s): Corr. ID: 203 Organization: Transition Newton

Comment ID: 146929 Organization Type: Unaffiliated Individual  
Representative Quote: This is not a sustainable project for the future, this is not the way any of the energy needs should be met.

Conservation is the key,

Corr. ID: 241 Organization: Not Specified

Comment ID: 147117 Organization Type: Unaffiliated Individual  
Representative Quote: Antiquated coal- based energy, which the proposed PSE&G project would largely depend upon, not only is no longer sustainable for our nation but will also directly impact the Park and NJ communities downwind of the coal plants needed to supply the energy for this proposed transmission project

#### TE4000 - Threatened And Endangered Species: Impact Of Proposal And Alternatives

Concern ID: 25825

**CONCERN STATEMENT:** Commenters stated that the transmission line upgrade would impact species of special status.

Representative Quote(s): Corr. ID: 535 Organization: Bushkill Stream Conservancy

Comment ID: 149643 Organization Type: Non- Governmental  
Representative Quote: The presence of a rare native Brook Trout population has been verified and documented as part of this study. The unavoidable disturbances by construction and maintenance of the Route C transmission would invariably jeopardize the pristine conditions necessary for the native Brook Trout population to survive and pose a block to the designation of the Sobers Run as an Exception Value stream.

Corr. ID: 1324 Organization: Sierra Club

Comment ID: 153130 Organization Type: Conservation/Preservation  
Representative Quote: The Moosic Mountain Barrens is home to three rare plant communities, and a Heath Barrens plant community described as the largest in North America and the only one in Pennsylvania. It is home to

over twelve animal species categorized by the state as S 1 or S2, the most rare rankings, primarily these are Lepidoptera species (moths and butterflies), and the ecosystem includes many other special flora and fauna.

Concern ID: 25826

**CONCERN STATEMENT:** Commenters stated that the special status species found within Cherry Valley would be impacted by the transmission line (Alternative 4- 7)

Representative Quote(s): Corr. ID: 1295 Organization: PSE&G and PPL

Comment ID: 152619 Organization Type: Business

Representative Quote: Alternative 5 would require crossing a 1.1- mile portion of the CVNWR that was avoided by Alternative 2. The Cherry Valley area supports several federally endangered and threatened species, including the northeastern bulrush, spreading globeflower, Grass- of- Parnassus, and bog turtles.

Corr. ID: 1295 Organization: PSE&G and PPL

Comment ID: 152621 Organization Type: Business

Representative Quote: Alternative 6 would require crossing a 6.6- mile portion of the CVNWR. The Cherry Valley area supports several federally endangered and threatened species, including the northeastern bulrush, spreading globeflower, Grass- of- Parnassus, and bog turtles.

#### VE4000 - Visitor Experience: Impact Of Proposal And Alternatives

Concern ID: 25740

**CONCERN STATEMENT:** Commenters stated that the new access roads and transmission line would increase illegal recreational activities within the Right of Way.

Representative Quote(s): Corr. ID: 161 Organization: NY- NJ Trail Conference

Comment ID: 146462 Organization Type: Unaffiliated Individual

Representative Quote: Besides the destruction of forests and wetlands, this newly expanded powerline corridor and it's access routes will open up our preserved open space to all matters of illegal motorized vehicles. There is no way that this will be addressed with local and state law enforcement agencies. They are under- funded and under- manned if they care at all about it.

Corr. ID: 1290 Organization: Not Specified

Comment ID: 152584 Organization Type: Unaffiliated Individual

Representative Quote: These new wider graded gravel based access roads will encourage increased ATV and dirt bike use in the area and even after the roads have been "removed", trespassers will now have an easy access route to, though and inside the property of all residents located along the power line R- O- W.

Concern ID:	25741
CONCERN STATEMENT:	Commenters stated that all alternatives would impact visitor use and experience.
Representative Quote(s):	<div>Corr. ID: 229                      Organization: Save the Park</div> <div>Comment ID: 147033      Organization Type: Unaffiliated Individual</div> <div>Representative Quote: Any route chosen will effect the park visitors experience</div>
Concern ID:	25742
CONCERN STATEMENT:	Commenters stated that due to the adverse impacts to the parks, park visitation may decrease.
Representative Quote(s):	<div>Corr. ID: 374                      Organization: Not Specified</div> <div>Comment ID: 148641      Organization Type: Unaffiliated Individual</div> <div>Representative Quote: Kayakin down the Delaware River and looking at 200 foot power lines does not make the Middle Delaware a National Scenic River.</div> <div>Views of the Appalachian Trail makes it worth the hike but not with industrial size towers. Who will visit this park ever again, or will we even be allowed to visit with the road closures.</div> <div>Corr. ID: 556                      Organization: Delaware Valley Conservation Association</div> <div>Comment ID: 149894      Organization Type: Unaffiliated Individual</div> <div>Representative Quote: IT WOULD DEFACE THE PARK FOREVER AND WOULD LESSEN THE FREQUENCY OF VISITATION.</div> <div>Corr. ID: 1221                      Organization: Not Specified</div> <div>Comment ID: 152496      Organization Type: Unaffiliated Individual</div> <div>Representative Quote: These lines will crackle and buzz and need to be maintained by helicopters. That is not a peaceful experience. Visitation will be down</div>
Concern ID:	25743
CONCERN STATEMENT:	Commenters stated that the increased size of the transmission line will impact the viewshed, which would destroy the visitor experience and tourism.
Representative Quote(s):	<div>Corr. ID: 1156                      Organization: Stop The Lines</div> <div>Comment ID: 152423      Organization Type: Unaffiliated Individual</div> <div>Representative Quote: The viewscape will be severely impacted with higher towers, and tourism in the National Recreation Area will be severely impacted.</div>

## VQ4000 - Visual Quality: Impact of Proposal and Alternatives

Concern ID:	25713
CONCERN STATEMENT:	Commenters noted that since transmission lines currently exist throughout the park, there would not be a dramatic difference in the appearance of the area and visitors would become accustomed to the larger lines.
Representative Quote(s):	Corr. ID: 83                      Organization: Not Specified  Comment ID: 146207      Organization Type: Unaffiliated Individual Representative Quote: I have looked over the information available and feel that the original approved transmission line is fine. While using an existing line, it's just going to look a little taller/bigger. We'll get used to it just like they did many years ago when the original lines were built. The benefits far outway the negatives on this one Corr. ID: 101                      Organization: Not Specified Comment ID: 146233      Organization Type: Unaffiliated Individual Representative Quote: We camp and hike from Main to the Blue Ridge and are accustomed to seeing power lines or other signs of human impact from time to time. Alternative 2 will not dramatically alter the degree of existing impact along this route and appears to reflect a reasonable approach to meeting the area's energy needs.
Concern ID:	25714
CONCERN STATEMENT:	Commenters noted that the increased height of the transmission line throughout the park would degrade the viewshed of the park and the natural surrounding lands.
Representative Quote(s):	Corr. ID: 167                      Organization: Not Specified  Comment ID: 146511      Organization Type: Unaffiliated Individual Representative Quote: I fully oppose any increase to the height of the electrical towers through the park. These towers will be an eyesore to the park. It will degrade the scenery of the park and will be seen from NY State and the Gap! Corr. ID: 229                      Organization: Save the Park Comment ID: 147034      Organization Type: Unaffiliated Individual Representative Quote: The Appalachian trail will see only these horrific power line structures. this will be a devastating view for any day hikers or trail hikers Corr. ID: 502                      Organization: Appalachian Mountain Club Comment ID: 149742      Organization Type: Unaffiliated Individual Representative Quote: The Delaware Water Gap is a relatively small space with enormous visual impact. The intrusion of transmission towers would destroy this. The associated construction work would also have a serious deleterious impact on this fragile ecosystem. Corr. ID: 512                      Organization: Sierra Club/Pennsylvania Chapter

Comment ID: 149727    Organization Type: Unaffiliated Individual  
Representative Quote: The views across this region will be compromised, as outdoor recreation and the tourism industry will be negatively impacted by these massive 500,000 volt, 200 foot towers cutting through and visually impacting DWG's landscapes.

Concern ID: 25716

CONCERN STATEMENT: Commenters are concerned that Alternative 5 would diminish the scenic views along Route 80.

Representative Quote(s): Corr. ID: 85    Organization: Not Specified

Comment ID: 146210    Organization Type: Unaffiliated Individual  
Representative Quote: We are quite concerned that the NPS Alternative 5 plan for the Susquehanna- Roseland power line would be considered to travel along Rt 80 adjacent to our neighborhood. We feel strongly that this is unacceptable to consider having the power lines travel in this densely populated area. The same vertical rise that the Rt 80 highway travels on in our neighborhood also provides some scenic views of the east towards NYC and to the south towards Hanover and Morritown. The same vertical rise would also cause the towers to stand out very obtrusively and be unsightly.

Corr. ID: 110    Organization: Not Specified

Comment ID: 146254    Organization Type: Unaffiliated Individual  
Representative Quote: New Jersey already is perceived as an industry-filled state, primarily because our most traveled highway, the turnpike, is lined with power lines, foul- smelling water, airports and major industry warehouses and the like. We really don't need the more suburban highways like Route 80 which are also heavily traveled by commuters and vacationers alike to be similarly littered. In your letter you also mention other reasons why running the line along Route 80 would be undesirable and I agree with those as well.

Concern ID: 25717

CONCERN STATEMENT: Commenters noted that Alternative 6 and 7 would destroy the viewshed of the Poconos and Lehigh Gorge in Pennsylvania.

Representative Quote(s): Corr. ID: 1280    Organization: Jeras Corporation

Comment ID: 152556    Organization Type: Business  
Representative Quote: The Alternative 6 & 7 route would destroy some of the most beautiful property in the Poconos owned not only by us but also by the State of Pennsylvania as well as adversely affect the beauty of the Lehigh Gorge, such beauty being the whole reason for establishing the Lehigh Gorge State Park in the first place we presume.

Concern ID: 25718

CONCERN  
STATEMENT:  
Representative  
Quote(s):

Commenters noted that Alternative 4 and 5 would destroy the views of the Appalachian Trail and Cherry Valley.

Corr. ID: 619                      Organization: Not Specified

Comment ID: 150550      Organization Type: Unaffiliated Individual  
Representative Quote: Alternates 4 and 5 clearly has unacceptable adverse impacts on the Miller household to say the least but when you think more about it, you think more of the global level of it, when I look at where we live, it's such a beautiful area, to be able to go up on the Appalachian Trail and look out over Cherry Valley and look out the other way, I couldn't imagine what it would look like to have those massive structures there and the impact it would have visually on your trail

Concern ID:  
CONCERN  
STATEMENT:  
Representative  
Quote(s):

25719

Commenters noted that if the transmission line is built along Alternative 3, the scenic viewshed of two areas of the park and Appalachian Trail would be impacted from having two separate transmission lines.

Corr. ID: 531                      Organization: Not Specified

Comment ID: 149569      Organization Type: Unaffiliated Individual  
Representative Quote: Thus, if the new transmission line is built on Alternate #3, there will be two, not one, scars across the National Park Service property for 30- 40 years or more.

Corr. ID: 617                      Organization: Not Specified

Comment ID: 150546      Organization Type: Unaffiliated Individual  
Representative Quote: And also if alternative No. 3 would be built instead of having one high voltage transmission line going through the park, we're going to have two high voltage transmission lines going through the park and crossing the Appalachian Trail. I think that's probably the worst of the two alternatives that's going to pass through the park. I would urge you not to consider that as an alternative.

#### VR4000 - Vegetation And Riparian Areas: Impact Of Proposal And Alternatives

Concern ID:  
CONCERN  
STATEMENT:  
Representative  
Quote(s):

25744

Commenters stated that clear cutting would promote invasive species.

Corr. ID: 38                      Organization: Not Specified

Comment ID: 146059      Organization Type: Unaffiliated Individual  
Representative Quote: Please be aware that whatever route is chosen it will be a 200 ft wide clear cut; due to new regulations and fines imposed by NERC, PPL is now aggressively cutting all vegetation in the RWs, removing ALL trees and shrubs under powerlines, even ones that had previously been allowed to grow. This will not only increase the visual impact, it will

promote the influx of invasive weeds and probably involve the use of herbicides in the future

Corr. ID: 484                      Organization: Save the Park

Comment ID: 149688      Organization Type: Unaffiliated Individual

Representative Quote: The removal of the thousands of trees alone will bring the temp. of the river up and that will bring in contaminates along with soil erosion and invasive species.

Concern ID: 25745

CONCERN                      Commenters stated that each alternative would include the removal of trees  
STATEMENT:                      creating adverse impacts to the area.

Representative                      Corr. ID: 234                      Organization: Saw Creek Estates  
Quote(s):

Comment ID: 147093      Organization Type: Unaffiliated Individual

Representative Quote: Yes, the par service came up with alternative routes, seven of them.

but not one of them is acceptable but the NO BUILD alternative.

The tens of thousands of trees being removed is just one reason to say no.

Corr. ID: 378                      Organization: Not Specified

Comment ID: 148647      Organization Type: Unaffiliated Individual

Representative Quote: Thousands of trees being removed is wrong. We should learn by now, I urge the N.P.S. for a "no build alt.

Concern ID: 25746

CONCERN                      Commenters stated that the removal of trees would create additional  
STATEMENT:                      impacts to other resources such as soil erosion, water quality, and wildlife.

Representative                      Corr. ID: 249                      Organization: Save the Park  
Quote(s):

Comment ID: 147137      Organization Type: Unaffiliated Individual

Representative Quote: This area of the National Park system is too fragile and cannot withstand the onslaught of blasting tree clearing and access roads.

The amount of soil erosion would be devastating to the Delaware River, The wildlife and natural resources would be destroyed forever.

Say NO to this project and do not grant permits.

Corr. ID: 300                      Organization: Lehigh Valley Group of the Sierra Club

Comment ID: 147713      Organization Type: Non- Governmental

Representative Quote: 1. Any Right- of- Way (ROW) must expand the width of existing ROWs, or construct totally new ROWs. This action requires destruction of forest

areas, and the natural resources within the ROW.

2. Any widening or new construction will result in forest fragmentation,

which has substantial negative effects on edge and interior- dwelling plant and animal species, particularly birds

Corr. ID: 314                      Organization: Ridge and Valley Conservancy

Comment ID: 147880      Organization Type: Unaffiliated Individual

Representative Quote: The environment cannot sustain the removal of tens of thousands of trees throughout the park.

We have many endangered state and federal species of birds, mammal and amphibians as well as fish that will suffer from the destruction of their habitat.

Corr. ID: 548                      Organization: SAVETHEPARK.ORG

Comment ID: 149960      Organization Type: Unaffiliated Individual

Representative Quote: I am also very concerned about the removal of so much vegetation that it would cause flooding and massive amounts of soil erosion.

Concern ID:

25747

CONCERN  
STATEMENT:

[Commenters stated that Alternative 2 would require the least amount of tree removal since it is along the existing Right of Way.](#)

Representative  
Quote(s):

Corr. ID: 1295                      Organization: PSE&G and PPL

Comment ID: 152605      Organization Type: Business

Representative Quote: The Alternatives that would cross the CVNWR would require from 1.1 miles to 6.6 miles of ROW expansion, which would require much more clearing than Alternative 2 route through DEWA

Corr. ID: 1295                      Organization: PSE&G and PPL

Comment ID: 152603      Organization Type: Business

Representative Quote: Specifically, under N.J.A.C. 7:13- 10.2, NJDEP may only issue a permit for disturbance of a riparian zone based upon a demonstration that the purpose of the project cannot be accomplished without disturbing this zone, and that the disturbance to the riparian zone is eliminated where possible. Again, Alternative 2 accomplishes this, while the other alternatives do not.

Corr. ID: 1295                      Organization: PSE&G and PPL

Comment ID: 152601      Organization Type: Business

Representative Quote: In this case, the Applicants' preferred alternative clearly has less adverse impact on upland forest than any of the other alternatives because it stays within existing right- of- way.

Concern ID:

25749

CONCERN  
STATEMENT:

[Commenters stated that the transmission line will create forest and habitat fragmentation.](#)

Representative  
Quote(s):

Corr. ID: 652                      Organization: Not Specified

Comment ID: 150650      Organization Type: Unaffiliated Individual

Representative Quote: The destruction of the existing habitat is going to be extensive. You will have forest fragmentation and you will have disturbance that will create portals for invasive plants on the landscape, it will allow loss of the view shed values.

Concern ID: 25750

CONCERN STATEMENT: Commenters stated that further studies are needed to analyze the impacts to vegetation.

Representative Quote(s): Corr. ID: 989 Organization: Not Specified

Comment ID: 151011 Organization Type: Unaffiliated Individual

Representative Quote: Have they studied what the impact that will be on the fauna and the flora of the Park or anywhere, I don't believe so.

#### WH4000 - Wildlife And Wildlife Habitat: Impact Of Proposal And Alternatives

Concern ID: 25751

CONCERN STATEMENT: Commenters stated that Alternative 5 would impact the small amount of wildlife habitat that is still available.

Representative Quote(s): Corr. ID: 114 Organization: Not Specified

Comment ID: 146260 Organization Type: Unaffiliated Individual

Representative Quote: However, a primary concern is that Alternative 5 would destroy the Parsippany Rockhouse 16 acre historical site that features 3,000 year old American Indian petroglyphs/carvings, is pristine in nature, and is home to many scarce (in these regions) animal populations.

Corr. ID: 119 Organization: Not Specified

Comment ID: 146341 Organization Type: Unaffiliated Individual

Representative Quote: am very disturbed with the proposed alternative 5 - along route 80. This area has a number of housing developments and the remaining green space should be preserved. there is still a lot of wildlife around and they need their habitat preserved. Also there are health issues associated with high voltage lines which should not be placed in populated areas.

Concern ID: 25752

CONCERN STATEMENT: Commenters stated that the cleared Right of Way for transmission lines promote wildlife habitat.

Representative Quote(s): Corr. ID: 159 Organization: Not Specified

Comment ID: 146458 Organization Type: Unaffiliated Individual

Representative Quote: I can tell you from years of hunting and being in the woods that these power lines promote wildlife. I have seen many

of animals live through rough winters all because of these grassy power lines.

Corr. ID: 546                      Organization: Not Specified

Comment ID: 149787      Organization Type: Unaffiliated Individual

Representative Quote: The clear- cut also provides much needed "browse" for wild animals that live there.

Concern ID: 25753

CONCERN                      Commenters stated that the clear cutting will impact water quality, native  
STATEMENT:                      trout populations, and other fish species.

Representative                      Corr. ID: 198                      Organization: Save the Park

Quote(s):

Comment ID: 146906      Organization Type: Unaffiliated Individual

Representative Quote: The Van Campens Glen trout stream is at risk, just check the permanent damage that will be done to this stream inside the Delaware Water Gate area, this stream is vital to our native trout.

the water quality is precious to our fish, with the removal of thousands of trees to make way for these massive power lines structures they will be changing the water quality forever.

this is not only going to effect the fish but all wildlife within the park.

Corr. ID: 243                      Organization: Not Specified

Comment ID: 147123      Organization Type: Unaffiliated Individual

Representative Quote: The views will be lost.

The tree removal will change the water temperature which will effect the trout, which will then effect the water flow.

The Delaware river will then become polluted and the fish in the river will become effected.

Our migratory birds will have crashed into power lines two and half times above the tree line.

As far as the wildlife, there will be no more of those to hunt or photograph.

Concern ID: 25754

CONCERN                      Commenters stated that the increased height of the transmission line would  
STATEMENT:                      impact the migratory bird species flying through the area.

Representative                      Corr. ID: 279                      Organization: Not Specified

Quote(s):

Comment ID: 147543      Organization Type: Unaffiliated Individual

Representative Quote: I urge the National Park Service in its Environmental Impact Statement to thoroughly examine the seriously increased potential bird- strike hazard created by the vastly enlarged and expanded proposed power line placed on part of this internationally famous and important bird migration flight- line and corridor.

Corr. ID: 511                      Organization: National Audubon Society  
 Comment ID: 149320    Organization Type: Unaffiliated Individual  
 Representative Quote: The sheer height of these towers is harmful to migratory birds, this is a major flyway for migratory hawks, eagles, and raptors.  
 Corr. ID: 553                      Organization: Lehigh Gap Nature Center  
 Comment ID: 149867    Organization Type: Non- Governmental  
 Representative Quote: Impact on the internationally famous and significant raptor migration along the Kittatinny Ridge should be considered in any sighting of the line within the Kittatinny Raptor Migration Corridor- which includes the Kittatinny Ridge and lands stretching out approximately five miles on each side of the ridge where raptors rest and feed during migration.

Concern ID:                      25755  
 CONCERN                      Commenters stated in general the expansion of the transmission line will  
 STATEMENT:                      impact wildlife and wildlife habitat.  
 Representative                      Corr. ID: 584                      Organization: Save the Park  
 Quote(s):  
 Comment ID: 150907    Organization Type: Unaffiliated Individual  
 Representative Quote: No matter what route is chosen on their right of way it will destroy an entire community of wildlife.  
 Corr. ID: 1008                      Organization: Not Specified  
 Comment ID: 151059    Organization Type: Unaffiliated Individual  
 Representative Quote: Construction of the proposed new line will severely devastate these ecosystems and will affect wildlife and flora in these areas.  
 Corr. ID: 1324                      Organization: Sierra Club  
 Comment ID: 153131    Organization Type: Conservation/Preservation  
 Representative Quote: Such fragmentation has been shown to decrease the abundance of deep forest species of birds, to increase the likelihood of establishment of invasive species along the corridor, and it may have potentially adverse effects on the globally rare Lepidoptera species (moths and butterflies) in the barrens, including effects on migration and other behavioral patterns.

#### WQ4000 - Water Resources: Impact Of Proposal And Alternatives

Concern ID:                      25756  
 CONCERN                      Commenters stated that the transmission line expansion will create impacts  
 STATEMENT:                      to wetlands.  
 Representative                      Corr. ID: 24                      Organization: Not Specified  
 Quote(s):  
 Comment ID: 146029    Organization Type: Unaffiliated Individual  
 Representative Quote: Clearly the 1st powerline has caused damage to

wetlands in this area and more activity will likely cause even more damage.  
Corr. ID: 512                      Organization: Sierra Club/Pennsylvania Chapter

Comment ID: 149723      Organization Type: Unaffiliated Individual

Representative Quote: Potential impacts to wetlands associated with the construction and operation of this high- voltage transmission line project include:

- alterations to the wetland hydrology,
- alterations to the wetland plant communities, and
- loss of wetlands due to filling or sedimentation.

Corr. ID: 525                      Organization: Stewards of Park History

Comment ID: 149447      Organization Type: Unaffiliated Individual

Representative Quote: Construction of new towers would disturb or destroy wetlands, endangered plant and animal species.

Concern ID:

25757

CONCERN  
STATEMENT:

[Commenters stated that Alternative 6 will create impacts to water quality and the Lehigh River Basin.](#)

Representative  
Quote(s):

Corr. ID: 43                      Organization: Not Specified

Comment ID: 146068      Organization Type: Unaffiliated Individual

Representative Quote: Route C is an environmental disaster for the Lehigh River basin in the Lehigh Valley. It will place the proposed line across the head waters of the Jordan, Mill and Trout creeks in Lehigh County and the Bersch, Indian, Hokendauqua, Monocacy, Little Bushkill and Martins creeks in Northampton County as well as creating a new crossing of the Appalachian Trail. Please consider the extensive effect to the Lehigh and Delaware rivers that could result from the lack of a compromise between NPS and PPL.

Corr. ID: 1295                      Organization: PSE&G and PPL

Comment ID: 152624      Organization Type: Business

Representative Quote: Alternative 6 would traverse the Lehigh Gorge and Lehigh Gorge Trail in Luzerne County, PA. The Lehigh River is a designated state wild and scenic river.

Concern ID:

25758

CONCERN  
STATEMENT:

[Commenters stated that the transmission line will impact the overall quality of the Delaware River.](#)

Representative  
Quote(s):

Corr. ID: 207                      Organization: Unitarian Universalist Fellowship of Newton

Comment ID: 146962      Organization Type: Unaffiliated Individual

Representative Quote: To think of a river that is so precious and fragile that all the sediment washing into it would destroy the quality of the water is absurd

Corr. ID: 401                      Organization: Not Specified

Comment ID: 148739    Organization Type: Unaffiliated Individual  
Representative Quote: The thousands of trees needed to be removed will destroy the water quality in our Delaware River, we must say no! No build alternative

Concern ID: 25759

CONCERN STATEMENT: [Commenters stated that the use of coal- fired energy would increase water pollution.](#)

Representative Quote(s): Corr. ID: 1143    Organization: NJ Sierra Club

Comment ID: 152349    Organization Type: Unaffiliated Individual  
Representative Quote: Increased water pollution - Special attention should be given to the deposition of mercury and other heavy metals in surface waters resulting from increased coal burning in the air shed.

Corr. ID: 1209    Organization: Stop The Lines

Comment ID: 152475    Organization Type: Unaffiliated Individual  
Representative Quote: Additional coal fired energy planned in WV / PA area would add negatively to our already polluted air and water. The visual impact would also have a very negative impact on the National Park and surrounding areas.

Concern ID: 25760

CONCERN STATEMENT: [Commenters stated that the expansion of the transmission line will create impacts to groundwater and the underlying aquifer.](#)

Representative Quote(s): Corr. ID: 443    Organization: Save the Park

Comment ID: 149489    Organization Type: Unaffiliated Individual  
Representative Quote: This is an environmentally sensitive region that needs protection of the aquifer. Our water quality and the residents potable water can be damaged by the blasting within the region.

The historical and cultural aspects of the park at too great of a risk for this type of a project.

Corr. ID: 1017    Organization: Not Specified

Comment ID: 151080    Organization Type: Unaffiliated Individual  
Representative Quote: My town suffers from issues around water quality. We need to protect the aquifer in Montville. I'm talking about quality of life issues.
